A GREAT OFFER

For You Only

Read this announcement. It is your opportunity. If you don't read it you will miss your chance. The greatest magazines in this country have combined to be offered together at a greatly reduced rate. Never before was such an offer given to the public, and it is safe to say never will be made again. This year several magazines have increased their subscription price, which shows how much greater this offer really is. The only reason we are making it to the people of this vicinity is because the magazine finds they have not as many subscribers as they desire in this particular locality. But only a limited number will be sold at this price, therefore we advise every one to accept this offer without delay. When we have received a certain number we shall withdraw the offer.

New Kind of Day Coach.

Pennsylvania Railroad Company the First to Make Valuable Experiments.

While a number of different railroads of this country have been experimenting in a small way with steel cars, the Pennsylvania Railroad Company was the first to make really valuable experiments and that company has now in operation on its lines a number of steel cars in every branch of the service.

From time to time as improvements are suggested by the company's engineers, new cars are being built embodying the innovations. One of the results of this gradual perfection is a day coach which has but three hundred pounds of wood in its construction. This is used in the window sashes, brake rod guards, arm rests for the seats and similar purposes. The interior or finish is largely of composition where it is not possible to make use of metal.

The Wenner Reunion.

The committee on time and place for holding the Wenner reunion have reported to the Secretary of the Association that the reunion will be held in the St. James grove, on Saturday, August 3rd. Should that day be stormy, it will be held on Saturday, August 10th. We hereby extend an invitation to all friends and neighbors, intermarried or otherwise socially connected with them, to enjoy with us a good time. Bring your baskets well filled with good things. An interesting program will be prepared for the occasion. Friends coming by rail will be met at the Zaner station and taken to the picnic grounds, and returned to the station in time for the train, homeward bound.

By order of Committee.

JOHN C. WENNER,
Pres. of Association.

Russian Students.

Nowhere is the university and nowhere the students held in such high esteem as in Russia. For the average educated Russian a university professor is not merely a scholar who teaches chemistry or mathematics or law to a number of young men. This is all very well for a teacher in a lyceum, but much more is expected of a professor.

The latter, if he keeps true to the good old traditions, must be an enthusiast and a philosopher in his subject. He must possess a spark of the divine fire, so as to be able to inspire his students with the worship of science and truth; and, above all, he must be a man of advanced thought—one of those who make history, and not one of those who let themselves be dragged along by historical events.

As to the student, he too must not merely be a young man who studies certain matters in order to become in due time a doctor or a lawyer, so as to get earnings so much higher than those of an artisan. This might do for the men whose one aim is to make a successful "career," and of whom of course, there are a number in each university, but the true student must be a worshipper of science and art—a seeker of truth, one of those whom the great philosophical questions of human understanding interest and perplex more than the miserable, petty questions concerning personal welfare, and one who has come to the university to find there a reply to these questions—*Windsor Magazine*.
