**HARVESTING BY MOONLIGHT**

Several thousand acres of Lehigh county wheat were cut last week by moonlight. The harvest, already three weeks late on account of cold weather in spring, was much delayed by the rains of the past fortnight. Farmers accordingly took advantage of the full moon to cut their grain, which was dead ripe. Self-binders were brought into play, and relays of horses used. The moon was so bright that it was as easy to reap the grain by night as by day. Some farmers kept their binders running without stopping for sixty hours. The farmers paid neighboring boys and girls twenty cents an hour to shock the grain as fast as the reapers cut it, besides giving them three meals, breakfast, dinner and supper, and three lunches, at 9 a. m., 3 p. m. and at midnight. Some of the boys and girls worked a full twenty-four hours for a day, making \$4.80, besides getting their board. This is believed to be the record paid for farm labor in the United States. Even at that the farmers regarded the work done for them more as an accommodation than cold-blooded labor done for hire. Many of the harvest workers thus employed are school teachers, their recompense for working in the fields being double that of the school room. The harvest, which is about half completed, is prolific beyond all expectations.

**PENSION FOR MRS. FAUVER.**

Secured Through the Personal Efforts of Congressman McHenry.

Mrs. Sarah Fauver, widow of the late Henry Faver, of Milton, is receiving the congratulations of her friends upon the granting of her pension claim. This case was a most worthy one, but owing to some complications it had been delayed so long that her friends had given up hope of her ever securing her just dues. Through the personal efforts of Congressman McHenry, speedy action has been taken by the department resulting in placing her on the \$15 per month list from June 25, 1907, and the payment to her of back claims still due which have been approved by the department. Not only the soldiers but all citizens of this district can congratulate themselves upon having a representative who will look after their interests in an energetic and capable manner.—Milton Standard.

**"The Old World and Its Ways."**

Col. William Jennings Bryan announces a new book of travel entitled "The Old World and Its Ways" which recounts his recent tour around the world and his journeys through Europe. It is profusely and elegantly illustrated with 240 artistic engravings representing men and things seen in the various countries of the earth during that noted journey. The engravings are made from photographs taken by him or his party specially for this publication. It is the monumental literary work of his life, and is published under his special supervision. He has, by special contract with his publishers, made the retail price low down with the view to putting it within the easy reach of every reader and book buyer.

The book gives his experiences—what he saw and did—whom he met and his impressions and conclusions. He made a profound study of men and things as he saw them in this noted journey around the world. He gives governmental, educational, religious and other conditions, from the standpoint of a student and one profoundly interested in all the people of the earth.

While Col. Bryan traveled as a private citizen he went with the prestige of having made two memorable contests for the Presidency of the United States, and he was everywhere recognized and entertained as a great representative American, having a leading part in the direction of American affairs. He was given opportunity for observations never before accorded to any one traveling in private capacity.

If one wants to see the world, and the people who are at the head of affairs in all countries, as well as the masses, he has in this book an opportunity of seeing them through the eyes of Col. William Jennings Bryan. It is sold by subscription, and the Thompson Publishing Company of St. Louis, Mo., are the fortunate publishers. They offer an especially inviting opportunity to solicitors in another column of this issue.
