Automobiles operated in Pennsylvania next year will carry yellow tags with black letters and figures. This design has been selected by State Highway Commissioner Hunter. The idea of the commission is to have the tags next year as different as possible from those with white letters on a red ground, in use this year, and those with white letters on a blue ground, issued in 1906. There have already been issued this year 20,000 licenses, bringing a revenue to the department of \$60,000, a portion of which is now being used to experiment with patent dust layers on public roads.

Few Pennsylvanians realize that their state ranks sixth in the union in the value of her tobacco crop, because in only five counties—Lancaster and York in the southeast; Clinton in the centre, and Tioga and Bradford in the north—is tobacco culture extensively practiced. In the census year, however, Pennsylvania had nearly 28,000 acres under tobacco, and produced 41,500,000 pounds of leaf, worth \$2,960,000. Moreover, she had 2,664 manufacturing establishments, chiefly cigar factories, with nearly \$14,000,000 capital, employing 25,000 wage earners, paying nearly \$8,500,000 wages, consuming 29,000,000 pounds of tobacco and other raw materials, at a cost of \$11,600,000 and putting out over 1,600,000 cigars, valued at \$30,000,000.

FINE PARK ALONG D. & B.

Will be Completed This Fall—Will Surpass Anything in This Section of the State.

The Danville *Morning News* of Monday says:

A magnificent park—eclipsing anything of its kind in this part of the State—midway between Danville and Bloomsburg. Work on the construction will begin at once and will be entirely completed this fall.

The Danville and Bloomsburg Street Railway company is back of the enterprise, and has secured the co-operation of Mr. A. Jahn, of Reading, the millionaire park promoter, who has personally perfected the plans and will direct the construction. Mr. Jahn and Thomas B. Illig, a member of the board of directors, were in Danville Saturday completing arrangements for the new amusement place.

In an interview with a News reporter Mr. Jahn said that the new park would be modern and up-to-date in every particular, embracing the finest of everything that can be procured in the way of open air diversions.

The feature of the park will be the pavilion, 70 feet by 150 feet and of ornate construction, including a fine maple dancing floor. Another feature will be the roller coaster and still another the 40-foot electric carousel. All of these principal features of the park are to be grouped in one place on the grounds, occupying a plot 70 feet by 400 feet, so that in case of inclement weather it will not be necessary to step from shelter in order to reach any one of numerous amusements in the park.

There will also be erected a big station for the arriving and departing trolley parties. There will be several private dining rooms, shelter pavilions, everything in the booth line, benches, tables, and in fact everything that would go to complete a first class resort.

LOCATION NOT MADE PUBLIC.

The trolley officials refused to divulge the location of the new park, stating that for business reasons they desired that this remain a secret for several days. They said, however, that the site was in one of the prettiest groves along the line, about half way between Danville and Bloomsburg and of easy access to the trolley line. The park will include 30 acres of woodland.

WILL INSTALL LIGHT PLANT.

To light the new park it is estimated that it will require at least 10,000 incandescent lamps, and to meet the additional current needed for the lighting the trolley company will install an electric lighting plant of its own in connection with the power house at Grovania.

Four Parties File Nomination Papers

There will be four parties represented on the State ticket to be voted in November next, the Democratic, Republican, Prohibition and Socialist parties having nominated and filed their nomination papers in the State department.

Thursday was the last day for filing nomination papers for the State ticket, and the names filed at the department will very likely be those to be printed on the ballot. In case of vacancies on the ticket they can be filled at any reasonable time, giving the county commissioners opportunity to print the ballots.

If there be any objections to candidates on the State ticket they must be filed by today, as the time for filing objections expires then.

The ballots will be certified to the county commissioners as soon as it is ascertained that there are no contests and no vacancies, and the trouble of last year, when there was so much delay all over the State in the printing of the ballots will be averted.

20 Minute Schedule on D. & B.

The Danville and Bloomsburg trolley line have arranged to run cars every twenty minutes between Danville and Bloomsburg on Wednesday, Thursday and Friday during the fair. They are selling tickets at 6 for 25 cents during those days.

Clever Swindler in Operation.

He Substitutes a Pair of Worthless Eye Glasses for a Good Pair.

Now you see; now you don't see.

This expression of illusionists and magicians fits exactly with the methods employed by a swindler who for the past few weeks has been operating in the surrounding towns, and who is probably in Bloomsburg this week.

The swindler has been using a very clever substitution game with a pair of eye glasses. The man sells the eye glasses to the party, and by the way the first pair are gold and fully worth the price paid for them, but the swindling part comes in a few days later, when after making the sale he returns to the party and asks to see the glasses and while examining them he cleverly substitutes a worthless pair and leaves them with the victim.

At Shamokin several parties were victimized before the swindle was discovered. The man was sought for by the police of that place, but at the hotel where he was stopping it was found that he had departed.

Concert at Orangeville.

An edifying concert will be given in the Academy Hall of Orangeville on Saturday, October 19th, under the auspices of the Ladies' Aid Society of the Union church. The exercises will consist of dramatic and comedy renditions and vocal selections of a high class. They will be rendered by Mrs. F. F. Fisher, Elocutionist, of Tamaqua, Pa., assisted by a wonderfully talented and clever girl of 13 years of age. Mrs. Fisher is a graduate of Shaftsbury College of Elocution of Baltimore, and has toured the South and West for churches and hospitals. Her concert is highly recommended by Prof. V. F. Derr, Principal of the Tamaqua High School. All are cordially invited. Exercises will begin at 8:15 p. m. Admission, children 15 cents; adults 20 cents; reserved seats 25 cents.

A BIG AUTO.

A big sight-seeing car, a type of automobile seldom seen in Bloomsburg, made its appearance in this town yesterday and attracted a good deal of attention. The car, which is owned by W. A. Heller, has just returned from Milton, where it was in commission carrying people from the town out to the fair ground.

In point of speed it is right up to the smaller cars, while the interior is comfortable and commodious. The car will seat twenty persons without crowding. In cases of necessity the big auto will carry fifty-five persons.

The car is being used at the Bloomsburg fair this week.

CASE SETTLED.

The suit of Webb Wright against the Town of Bloomsburg for damages for injuries received by falling over stones piled on the sidewalk in front of the Western Union Telegraph office while the street paving was in progress, has been settled for \$50.00.

The United States Fidelity and Guarantee Company, which was the surety for Fowler and Mellick, the paving contractors, it is said will agree to become liable for the maintenance of the street pavement for two years. It begins to look now as though the paving matter would soon be amicably adjusted.

R. Bidleman has arranged all the preliminaries, and will get together the best players in the county for the occasion.
