WASHINGTON

From our Regular Correspondent.

Washington, D. C. Oct. 21, 1907. There is being much more interest taken in the Department of Justice and the Interstate Commerce Commission in the fight between Fish and Harriman for the control of the Illinois Central railroad than is usually displayed over an ordinary court case...

A report has just been issued by the soil bureau of the Department of Agriculture, showing that the bureau has finished mapping and classifying about 18,500 square miles of the soil of the United States.

Along with the soil mapping, it is interesting to note that the work of the Agricultural Department with nitro-cultures is going on quietly and beneficially. There was a great deal in the papers a year and a half ago about nitro-cultures and how they would increase the fertility of the soil...

production of legume crops. Their use is being extended and there are more culture tubes being sent out this spring than ever before.

Whatever other sort of trusts there may be in this country, the Treasury has concluded there is no silver trust. The Department has just completed the purchase of 200,000 ounces of silver at 61.623 cents an ounce.

Preparations are being rapidly completed for the voyage of the battleship squadron to the Pacific. Admiral Evans was in Washington last week consulting with the Secretary on the subject.

The Passing of the Hawaiian. (Mrs. C. R. Miller in Leslie's Weekly.)

In 1836 the Hawaiians numbered over one hundred and eight thousand, and in 1900 there were less than thirty thousand. At present, I am told, there are less than twenty thousand.

Wild Cats in Union County.

Quintet of Savage Beasts Terrorize the Farmers in Buffalo Valley.

Buffalo valley, Union county, is being terrorized by a band of wild cats which have been making depredations on nearly every farm in the valley.

Mrs. Joseph Warmkessel, near Forest Hill, turned around from her cooking and faced five fierce looking, battle-scarred cats in her kitchen. When she made a move to drive them out of the house two of the leaders sprang at her throat, letting out the most blood-curdling yells.

Where these partly wild animals came from no one knows. They first appeared in this neighborhood about two weeks ago when they raided the chicken coop of Thomas Haupt, near Chappel's Bluff.

Several times people in the valley have been badly frightened by being awakened in the middle of the night by a chorus of yowls. When the dog of George Watson, of Mazzeppas Mills, charged upon the midnight prowler he was almost torn to pieces.

Women fear for their children, as the animals appear and disappear as if by magic, and in their quests for food they attack either man or beast.

Record Year for Tomatoes.

Thousands of Tons Left to Rot by Farmers Who Took Chances.

Never before in the history of lower Delaware have there been so many tomatoes grown as this year's crop. The canneries have been tremendously overtaxed, and many canners have found it necessary to resort to various ruses to keep the farmers from hauling in the fruit.

First Autograph Letter of Pius X.

The first autograph letter of Pius X.—written in his own hand throughout—has recently been received in England. The mere papal signature is something of a rarity, for the pope has not, like an English monarch, to wear down an army of pens in signing commissions for military and naval officers.

The manufacture of motor cars and their accessories has become one of the most important French industries.
