THE POT BEGINS TO BOIL.

The Presidential campaign goes on apace. The selection of Chica-go as the meeting place of the Re-publican National Convention is not looked upon as favorable to the on apace. The selection of Chicawing of the party that swears by and the fact gives, in a nutshell, Roosevelt. It is further asserted the difference between the two that there is no longer a doubt of the collection of a vast sum of moncy to secure the selection of some pay in gold. Our legal dollar was candidate unfavorable to the Roose-velt policies. A part of the game is to swing New York for Hughes, not because of any love for Hughes, but out of resentment toward the Administration.

In the Democratic camp Mr. Bryan has announced a policy of forgive and forget and made peace ith his bitter opponents in Illinois. is alleged that he has also capred the support of Murphy and onners in New York. But he has ot succeeded in suppressing the growing discontent with his candifavor toward Judge Gray. There is no doubt that the mon-

THEN AND NOW. Crisis of 1893 and 1307 Compared.

The Saturday Evening *Post* last week said: "In the monetary crisis of 1893 gold flowed rapidly out of the country. Europe drew a hundred millions of the metal from us in that year. If you are bungry and somebody takes away what food you have, recuperation, obviously, will be slow. Within a ew days following the monetary crisis of 1907 we drew twenty-five millions of gold from Europe, and sharp advances in European discount rates did not at once check the movement. Our need of gold was, in fact, much more urgent periods. In 1893 we could give no conclusive assurance that we would 'coin,' which might mean a hundred cents' worth of gold or sixty cents' worth of silver. Europe was disinclined to take the chances. The law of 1900, making gold the standard, removes that handicap. But there is not much use in bay ing a gold dollar on the statutebook unless you have it in your pocket, too. One of the forerunners of the real panic was a pretty universal condition of insolvency among those concerns that made a special business of lending money on western farm lands. In 1892, dacy in the South, nor in checking 1893 and 1894 the west was the evident undercurrent of public broke. Production of wheat and broke. Production of wheat and corn those three years was under six billion bushels against ten bil-

CANDIDATES MUST FILE PAPERS. The President's Message in a Nutshell

March 12 the Date ter Senators and Representatives-March 19 for County offices.

All those who are candidates for congress or state senator, must file their petitions with the secretary of the Commonwealth not later than at noon on Saturday, March 12th, four weeks before the primaries. Those who desire to run for the legislature or for any county office commissioners not later than Saturday, March 19th, at noon. The petitions will then be tabulated in proper order and placed upon the ballots which are to be used by the Republicans, Democrats and any other party represented on the dents. tickets. This work will take a Esta week, allowing another week in mines which to print the ballots and the terior. latter after their completion must be placed upon file at the commissioners' office at least a week before the primary election for public inspection. The corrupt practices act, which is a sort of a companion law to the uniform primaries act, under which the primaries are conducted provides for the filing of a statement within thirty days after the election by all who were candidates before the election whether successful or otherwise. If the candidate wins or not he is compelled, under the law, to observe this formality and is subject to a fine of \$50 and arrest and imprisonment if he does not com-

ply with the provision. He can also be prevented from taking his oath of office. These expense statements are to be filed with the clerk of the courts and a minimum charge of fifteen cents is made for the filing. If the expense incurred by the candidate is under \$50 he may simply state that fact without going into any detailed statement of his expenses. But if the amount spent by him is larger than \$50 he must detail each item and where dams. the cost of the same has been over \$10 he must accompany with the voucher used in payment. Another Defect in Election Law.

It has been discovered that a rather serious defect exists in the uniform primary election law of Pennsylvania, which may deprive the State of delegates to the national conventions. or in any event cause successful candidates no end of trouble.

The law fails to provide for the certification of the primary vote in congressional districts, except where a county comprises a district.

It has been suggested that the county commissioners certify the returns to the secretary of the Commonwealth or the State committee. but not even such a suggestion is made in the law.

It is possible that the national conventions will be forced to determine the claims of delegates in the various counties. The Washington county commissioners will submit the matter to the State department and request that some solution of the difficulty be suggested.

KING OSCAR OF SWEDEN.

This well-beloved, and most democratic monarch of Europe died in Stockholm on Sunday. He had been king of Norway and Sweden since 1872, and his long reign was one of constant endeavor to benefit his subjects. He is succeeded by his eldest son Oscar Gustave Adolphe, Duke of Vremland.

Four liners sailing Friday took in the aggregate 8000 aliens, mostly Italians. It is believed by steamship authorities that the height of the eastbound rush will be reached this week and that the number of aliens to depart will have reached half a million. The exodus this year has been so great that it has greatly hampered the dispatch of freight, and several lines will press into service special steamers to relieve the congestion of goods on their piers.

The figures showing the emigration of this and last year are interesting. To November 28 of this year 447,000 persons had sailed eastward, while last year for the same period only 293,500 had departed. In November of last year 41.933 persons sailed to the East, while last month the number was 96,724.

Tax Blow to Fraternities

invested Wealth of \$15,000,000 Would Be Subject to 4 Mills On the Dollar.

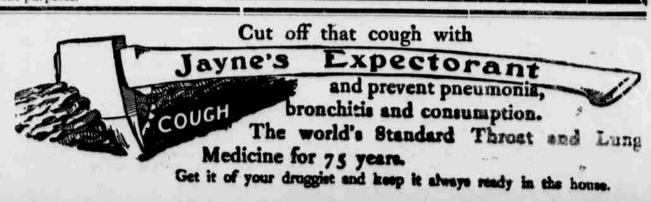

Considerable interest and apprehension is shown by officers of Iraternal and beneficial societies because of the recent opinion given by Auditor General Young that the invested funds of such organizations be taxed by the State, in the same manner as private personal property is. The tax rate is four mills on the dollar and as the invested wealth of all the beneficial societies is estimated at more than \$15,000,000 the tax would be a heavy drain on the funds. The Odd Fellows would be the

heaviest losers, as they would have to pay tax on \$5,000,000. The Masonic fraternity has almost \$3,-000,000 liable to the tax, and the Patriotic Sons of America about \$1,000,000. The Elks also have a large amount invested for benevolent purposes.
