## BEAUTY EXERCISES.

Face Skinning Restores Complexion and Removes Wrinkles—An Advantage Over Face Steaming.

According to physical culture oracles, one can be beautiful if one wants to be. One can exercise and become straight and pretty.

There is the massage treatment, which any woman can perform upon her wrinkles. With her finger tips she can smooth them away. She can go at them with cold cream and rub them out of her forehead. She can succeed in driving them away from her brow entirely and the same way with the crow's feet around her eyes. As for the nose, it can also be massaged. But no great deal can be done for the nose of a grown person. This has been shaped in childhood and must remain as it is. It can be be improved a little by massage and manipulation, but not materially changed.

Face skinning can be managed without the martyrdom of peeling the face. With a little treatment the old skin can be taken off and a new skin put on. There are several ways of doing this and the best way is to try all ways at once, so that they may work together and accomplish the desired result.

A woman whose skin was not good of a formed the habit of going over it every night with a carbolized face wash. She poured out a basin of water and into this she dropped a very few drops of carbolic. She used fully a gallon of water while the drops of carbolic numbered only eight or ten. The druggist is the best authority on this matter. This acts as an antiseptic to the face. Face steaming will renew the skin,

but it makes it very tender and one can scarcely go out the same day. But if one wants to try it the best way is to take hot cloths and apply them to the skin. They should not be hot enough to burn but only to make the skin hot through and through.

When the face is thoroughly steamed it is covered with a lather of soap jelly, which is washed off with soft water and borax. And, then, a little good face cream is rubbed in. This r can be done once a week with the very best results.

The face can be made better as to its texture by going over it with the finger tips wet in a benzoinated bath. Take a quart of water and drop in enough benzoin to make it milky. Dash it on the face. Then massage it with the finger tips. The result will be a hardening of the muscles and a contraction of the open pores of the skin.

The treatment of the ears is a thing that should be done in childhood. But if one has neglected it, a great deal can be accomplished by pinning them back, as it is called, and by keeping them pinned back. There can be made a little nightcap, all of bandages which are applied to the ears so as to hold them in place. There are straps that hold back the lobes of the cars, keeping them flat against the head. In time, the ears will be less protruding. As for the figure , it is so easy to

As for the figure , it is so easy to make it good and it is such a simple matter to straighten the shoulders make the hips slender and make the chest full, that one cannot help wondering why there are any poor figures in the world.

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of and has been made under his per-

and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children-Experience against Experiment.

# What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. If contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhœa and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS

SHIPPING APPLES IN BOXES.

Repay the Farmer by Bringing Higher Prices in Market.

Fruit growers who are making a specialty of producing a very high grade of apples are making a practice of packing their choicest fruit and packing in neat boxes. Sizes are variable, depending upon the nature of the fruit and the preference of the grower. A favorite size seems to be 10x11x20, though these dimensions are by no means exclusive of all others.

Apples are either barreled or or boxed. Formerly everything was barreled, but dealers soon found that they could display the apples to a much better advantage and get better prices if they were carefully

sorted and packed in even layers in boxes. The result has been that leading apple growers are boxing their Reflections of a Bachelor Girl.

A man always considers himself mighty clever when he can glide through the shallows of love-making without floundering on the rocks of matrimony.

Choosing a husband is like picking out the combination on a lottery ticket; your first guess is apt to be as good as your last.

A girl who has a brother has a great advantage over one who hasn't; she gets a working knowledge of men without having to go through the matrimonial inquisition in order to acquire it.

To 1, man love is only a side dish; t. a woman it's the whole feast.

It is easy for a man to love his neighbor as himself, when his neighbor is a rich and pretty widow.

#### Worth Knowing.

A few drops of lemon juice in plain water is an excellent tooth wash. It not only removes the tartur but sweeters the breath.

Double china are sometimes caused by resting the head on a very high pillow.

To prevent dampners on the hair use flazseed tonic.

Well-kept gray hair is much more attractive than dyed hair.

#### Fansy a Favorite Color.

There is a perfect fad for trimming a gown in such a way that the trimming can be taken off and other trimmings put on. A pansy colored gown can be trimmed with new green'. This makes a very dressy suit with its gorgeous green vest, while the hat has its shaded green plume. Later in the season the green can be removed and white satin can be applied in its place. Now there comes the white mull, or the white lawn shirt waist, or the shirt waist of white nainsook, or of any delicate washable material.

#### Health and Beauty.

The girls with the sallow complexion will do well to eat oranges. Not one orange alone at breakfast time, but four or five each day. This works wonders.

When overheated, the hands and face should be bathed in hot water, containing a few drops of ammonia. This will be found refreshing and beneficial to the skin.

A vapor bath which is very satisfactory may be had at home without any expensive appliances. Fill a tub with hot water, place a chair in it, and when the patient is seated, wrap him around with a blanket, taking care to cover the bath also.

Never, never should a woman wash her hands without drying them perfectly. Half-wiped hands are sure to become rough and coarse. Red hands are generally due to one of two causes, either too tight clothing or impeded circulation, due to misused norve force. In either case, remove the cause and the hands will regain their natural healthy color.

A cup of cocon will be greatly improved if just before you take it from the stove you beat the cocoa well with an egg beater and add a few drops of vanila.

1

er-maile simile and

choicest specimens and either barroling or selling their seconds in public.

As in the case of barreling apples, considerable care must be taken to see that the fruit is well packed, so that when the cover is fastened there will be no shucking. In fact, with the box even greater care is required, since there are only comparatively few layers placed and there is less opportunity for the package to give and accommodate the strain.

#### The First Balloon.

In 1767, following immediately after the discovery of hydrogen. Dr. Black of Edinburg pointed out that a vessel filled with this gas would rise in the air. Professor Charles of Parks sent up the first balloon filled with hydrogen or "Inflammable air," in 1783. After travelling 15 miles this balloon was torn to pleces by the superstitious persontry.

### Attend to Little Things.

Do not neglect the little things on the farm. The loose board may cost a cow or a horse, a defective chimney a house, and carelessness about the health of the family, a wife, son or daughter. It pays to attend to the little things.

#### An Organ Grinder.

- I looked upon his face the while he played---
- The cordid lines were softened, and his eyes
- Caw not our friendless walls, our alten skies,
- Our toaring streets where strifes the tyrant Trade.
- Again he ronmed beneath the cheat hut shade Again he roamed
- Where, grim and grand, Campanian mountains rise,
- Or marked the olives glisten, silvery wise,
- In the warm light of some Silletta
- to may we each weigh sail and yes
- On intunterial journeys: he puts
- Throught the rough magic of his organ strain; a finer music guides us to our star;
- But all have goals beyond the seas of Doubt, Havens of heart we fain would
  - find again.

To relieve the pain of a badly pinched or bruised Suger, planae it humediately into very hot water.

Nature "makes all things beneficial in their time." Every one of life's scason's, when life moves on Nature's lines, has its own charm and beauty. Many women dread that period when they must experience change of life. They fear that face and form may suffer by the change, and that they may fail to please those whom they love. The value of Dr. Pierce's Favorite Prescription in this crisis of woman's life lies in the fact that it assists Nature. Its use preserves the balance and buoyancy of the mind and sustains the physical powers. Many women have expressed their gratitude for the help and comfort given by "Favorite Prescription" in this trying period. Its benefits are not passing but permanent Not a "patent medicine" because all its ingredients are printed on the bottlewrapper.

Tommy—"Pop, is an engagement necessarily a preliminary encounter before the real battle?" "Tommy's Pop-"Well, that's what most married people seem to think, my son."

CocAINE WHICH DULLS THE NERVES never yet cured Nasal Catarrh. The heavy feeling in the forehead, the stuffed up sensation and watery discharge from eyes and aose, along with all the other miscries attending the disease, are put to rout by Ely's Cream Balm. Smell, taste, and hearing are rostored, breathing is normal. Until you try this remedy, you can form no idea of the good it will do you. Is applied directly to the sore spot All druggists. 50c. Mailed by Ely Bros., 56 Warren Street, New York.

Mr. Buggins -- "Was the minister eloquent today?" Mrs. Buggins -- "Eloquent? Why, he raised nearly \$2000 to pay off the church debt and his back salary."
