"I think, too, that we should have an amendment to the anti-trust law that will draw a distinction between those who associate themselves together for mutual benefit and those who associate themselves together in an industrial corporation for the purpose of monopolizing some article of commerce. "To the Farmers of the United States: The first contribution made to the Democratic campaign fund this year, so far as we know, was made by an Iowa farmer. Just before the Denver convention met this man. who modestly prefers not to have his name mentioned, journeyed more than 100 miles to Lincoln with his contribution of \$100 which he left with Mr. Bryan, to be given to the committee when organized for the campaign.

"It is very appropriate that this first contribution should come from that great body of our population known as agriculturists. The farmer has nothin; to gain by privilege and favoritism; his hope is in the application of he doctrine of 'equal rights to all and special privileges to none."

"Now that the Democratic party has announced its determination not to accept contributions from corporations and not to accept excessive contributions even from individuals. and to publish all contributions when over a resonable minimum, it ought to be able to secure a sufficient sum from the citizens who ask from the Government nothing but protection to their rights and consideration for the general welfare,

"Our fight is a fight for the whole people. Our aim is equal and exact justice to all; our purpose is to restore the Government to the hands of freely chosen representatives of the voters. How many farmers will join in furnishing the fund necesgary to present the issues?
