SOCIAL WAR IN NEWPORT SET.

Vanderbilt Divorce Case Splits the Plutocratic Colony at Newport Into Factions,

Newport, R. I.-- A Newport social war due to friends of Alfred Vanderbilt and his former wife, Mrs. Elsie French Vanderbilt, taking sides as a result of the divorce has been start. ed, and a big split in their large circie of friends has resulted. Some take Mrs. Vanderbilt's side of the case, and others lean to Mr. Vanderbilt. There will be an interesting rivairy between the two sets during the Summer here and during the Winter in New York.

On the occasion of the charity bazaar at Mr. Vanderblit's farm at Portsmouth for St. Mary's Church, a prominent woman in the cottage colony found her name among those present. She forthwith sought the

reporter who had used her name in connection with the affair and gave nim to understand that she was not present, and did not expect ever to set her foot on the farm again. She wished the reporter to be careful in using her name further in connection with anything Alfred Vanderbilt held ttere or any place else.

Other social matters in connection with the farm and Mr. Vanderbilt are being discussed in the clubs and in the cottage colony.

As a result of the recent fete at the Vanderbilt farm for St. Mary's Church something like \$1,300 was taken in admissions and sales, but there is nearly \$1,000 in expenses to

AIRSHIP INVULNERABLE.

At Height of 1,000 Metres Guns Could Not Be Trained On It.

Berlin, Germany .- The scare in England about the military qualities of Count Leppelin's balloon will not be lessened by a statement just published by Captain Hildebrandt, of the Germany army, and one of the greatest living authorities who states the the balloon one thousand metres above the ground is practically invulnerable, as it is impossible to train gun to the necessary angle. In addition it is almost impossible to find the range. This can only be done exactly by taking an observation at two separate point: and then calculating the contained angle of the triangle thus obtained. By the time this could be done the balloon would
