Catawissa Borough Poor District vs. Columbia County; assumpsit; defendant pleads non assumpsit; statute of limitation, etc. Roman Risewick vs. American Car and Foundry Co.; trespass; defendant pleads not guilty. John Brophy vs. The Township of Cleveland; trespass; defendant pleads not guilty.

A Human Match Factory.

The body of the average man contains phosphorus sufficient to make 483,840 matches, enough to fill about 6,000 boxes, allowing eighty matches to the box. Phosphorus is one of fourteen elements entering into the composition of the body. It is divided among the bones, flesh, nervous system, and other organs. Without phosphorus the brain would be weak, the body feeble, and the bones would disintegrate leaving man a squidly invertebrate squirming in the dust. The perfect health of the human body requires a perfect balance of the constituent elements of which it is composed. The carbon, iron, lime, sulphur, sodium, etc., must all be replaced as they are used up in human energy. Take all the iron from the blood and the circulation stops. That's death. Change the proper proportion of these substances to each other, destroy their natural balance in the body, and you destroy the balance of health.

THE FOOD WE EAT.

Where do these essential elements of vital force come from? From the food we eat. How are they extracted and distributed to the several organs they sustain? The are extracted and distributed by the stomach and other organs of digestion and nutrition. What happens when the stomach is "weak"? The food is only partly digested and assimilated. And then what? Then the balance of health is destroyed and there's blood "trouble," nerve "trouble," lung "trouble," heart "trouble," or some other "trouble" with the vital organs of the body. Pain is the hunger cry of the starved organs. What then is the logical first step to health?

Put the stomach and organs of digestion and nutrition into a condition of sound health. That is just what is done by Dr. Pierce's Golden Medical Discovery and that is just the secret of the many marvellous cures effected by this remedy. No medicine can make fat or flesh. Food alone can make them. Only the stomach and its allied organs can extract from the food the elements that make flesh and fat and sustain life.

Dr. Pierce's Golden Medical Discovery is not a cure-all. It does one thing. It cures diseases of the stomach and organs of digestion and nutrition. The rest Nature does. Nature feeds the nerves, enriches the blood, heals the lungs and restores the falling vital powers. "Golden Medical Discovery" only removes the obstructions disease has put in Nature's way.

There is no alcohol in "Golden Medical Discovery" and it contains neither opium, cocaine nor any other narcotic. Doctor Pierce holds no secrets from you—he tells you the "Discovery" contains the following ingredients: Golden Seal root, Queen's root, Stone root, Black Cherry-bark, Bloodroot, Mandrake root and Chemically Pure Glycerine.

From "Organic Medicines," by Grover Cox, M. D., of New York, we can get the following: "Hydrastis (Golden Seal) exerts an especial influence over mucous surfaces. Upon the liver it acts with equal certainty and efficacy. As a cholagogue (liver invigorator), it has few equals. In affections of the spleen, and abdominal viscera generally, it is an efficient and reliable remedy. Also in scrofula, glandular diseases generally, cutaneous eruptions, indigestion, debility, diarrhoea and dysentery, constipation, piles and all morbid and critical discharges."

F. Ellingwood, M. D., says of Stone root (Collinsonia), "stimulates the stomach, acts as a tonic to enfeebled muscular structure of the heart and has a direct influence upon atonic (weak) and dilated or otherwise impaired conditions of the veins. It is a specific remedy in piles. In catarrhal gastritis, where the circulation is defective, it, either alone or combined with hydrastis, is of first importance. They increase the appetite and greatly improve the digestion and assimilation of food. Good for rectal pains and piles of the pregnant woman. Is a heart tonic of direct and permanent influence. Excellent in the bicycle heart, in rheumatic inflammation and elergyman's sore throat."

American Dispensary says of Blood root, "stimulates digestive organs, increases action of heart and arteries—stimulant and tonic. Very valuable as a cough remedy—acts as a sedative—further valuable as an alterative."

The People's Common Sense Medical Adviser is a valuable work for frequent consultation and is free from technical terms. It contains over one thousand pages. It is sent post paid, on receipt of sufficient in one-cent stamps to pay cost of mailing only. 21 stamps for a copy in flexible paper covers or 31 stamps for a cloth-bound copy. Address Doctor R. V. Pierce, Buffalo, N. Y.

Reforming the Head Hunters. A curious development is in steady progress in the Solomon Islands, the group of the South Pacific which lies to the West of New Guinea, whose people have earned such unenviable notoriety as head hunters. The young men of the tribes in three fertile and beautiful islands are abandoning the historic pursuit which has made them dreaded for centuries in the South Seas and are taking to the corn industry. Copra, which is the dried interior of the coconut, is valued commercially for the oil which can be pressed from it, and some of the young Solomon Islanders are now accumulating considerable wealth by extracting it, though the older generation to whom head hunting is still the only profession for a gentleman, are slow to look down upon them as

MUSIC ON THE BRINY DEEP.

Custom of Band Playing on Vessels Originated by Germans.

The custom of band playing on merchant ships originated on the German liners, says Shipping Illustrated. Afternoon concerts were given by improvised bands, generally recruited in the steward's department, and the same Hans who had spilt sauce on the lapel of one's coat at breakfast could be seen earnestly blowing the trombone while the band was murdering "Hell dir in Sigeskranz," or a selection from "Freischutz." These primitive musical attempts have progressed like everything else, and today professional orchestras are by no means uncommon on passenger steamers.

The most conservative of British lines has been obliged to follow suit, and very soon it will be impossible to escape from this flood of harmony on the broad Atlantic as it is now to find actual rest and for a week at least remain out of the reach of Wall street news. Whether this evolution of the steamship into a floating hotel, with all the discomforts of the latter, as well as its advantages, constitutes a real improvement remains as yet to be proved. The question may be asked in all seriousness whether steamship companies are not now giving their patrons more than they really expect for their money, and certain it is that there are many—and among these genuine lovers of music—who would prefer to eat their dinner in peace and silence.

It is said that music as a feature of the dining room has become in vogue owing to the prevailing dullness of the present age. Conversation is a lost art and nothing better than music could be found to enliven the atmosphere while all are maintaining an awkward silence. To the few, however, who need the spice of agreeable talk to facilitate digestion music at table is a positive nuisance. The man making a trip to banish unpleasant memories from his mind will not take kindly to the heart-rending notes of "I Pagliacci" or to Schubert's "Serenade." The flighty music of Puccini may become perfectly abhorrent to him who has just been apprised by wireless of enormous financial losses, while the inexperienced, making his first trip, who may be thinking of "the girl he left behind him," will become unnerved when the orchestra unfeelingly reminds him that la donna e mobile. In short music should be restored to sea to what it originally was. Nothing is better than an open-air concert on the boat deck on a calm afternoon, but let the atmosphere of the dining room at least remain free from all melody save that produced by the clinking of glasses, the popping of corks and the soft murmur that rises over an assemblage of well-bred folks gently conversing.

New Life-Saving Appliance.

An apparatus for life saving at sea has been invented by Mr. R. Lavachery, a Belgian engineer residing at Chapultepec, Mexico. It consists of a rifled cannon from which a projectile is fired; to the projectile are attached a cable, an anchor, and a rocket. The mechanism is said to be very simple, and for humanitarian reasons the inventor has not patented it.

No goods can be landed in Turkey which bear a trademark at all resembling a crescent.

HUMPHREYS' Veterinary Specifics

- Veterinary Specifics cure diseases of Horses, Cattle, Sheep, Dogs, Hogs and Poultry by acting directly on the sick parts without loss of time. A. A. FEVERS, Coughs, Inflammations, Lung Fever, Mil Fever, etc. B. B. BRUISES, Lameness, Injuries, etc. C. C. SORE THROAT, Quinsy, Epizootic, etc. D. D. WORMS, Boils, Grabs, etc. E. E. COUGHS, Colds, Influenza, Inflamed Lungs, Pleuro-Pneumonia, etc. F. F. COLIC, Bellyache, Wind-Blown, etc. G. G. PREVENIA MISCARriage. H. H. KIDNEY & BLADDER DISORDERS. I. I. SKIN DISEASES, Mange, Eruptions, etc. J. K. BAD CONDITION, Staring Coat, etc.

"The Philadelphia Record" Actively Supports Bryan

Democracy runs naturally to "The Philadelphia Record" for such information. It is the only Democratic newspaper in Philadelphia recognized the country over as one of the leading exponents of Democratic opinion on this edge of the Continent. It is fair, though partisan; it chronicles the telling blow, no matter who is hit. Suppression and misrepresentation are weapons that have no place in its armory. "Square deal" Democrats and Republicans will find the daily budget of "The Record" essential to an intelligent understanding of the progress of a lively Presidential canvass.

No newspaper ever achieved popularity on the strength of its political attitude alone. "The Philadelphia Record" is no exception to the rule. It is lifted above the common level by many distinctive features that appeal to the varied interests of every member of the household. It prints the news—all the news—in a concise, brisk form that has come to be known, even among its contemporaries, as "Record style."

BIG OFFER To All Our Subscribers

The Great AMERICAN FARMER Indianapolis, Indiana. The Leading Agricultural Journal of the Nation. Edited by an Able Corps of Writers.

The American Farmer is the only Literary Farm Journal published. It fills a position of its own and has taken the leading place in the homes of rural people in every section of the United States. It gives the farmer and his family something to think about aside from the humdrum of routine duties.

WE MAKE THE EXCEPTIONAL OFFER OF Two for the Price of One: THE COLUMBIAN and THE AMERICAN FARMER BOTH ONE YEAR FOR \$1.00

This unparalleled offer is made to all new subscribers, and all old ones who pay all arrears and renew within thirty days. Sample copies free. Address: THE COLUMBIAN, Bloomsburg, Pa.

Pennsylvania Railroad PERSONALLY-CONDUCTED EXCURSIONS TO NIAGARA FALLS October 7, 1908 Round-Trip Rate \$7.30 from East Bloomsburg

Columbia & Montour El. Ry.

TIME TABLE IN EFFECT June 1 1904, and until further notice. Cars leave Bloom for Espy, Almedia, Linc Ridge, Berwick and intermediate points as follows: A. M. 5:00, 5:40, 6:20, 7:00, 7:40, 8:20, 9:00, 9:40, 10:20, 11:00, 11:40. P. M. 12:20, 1:00, 1:40, 2:20, 3:00, 3:40, 4:20, 5:00, 5:40, 6:20, 7:00, 7:40, 8:20, 9:00 (9:40) 10:20 (11:00). Leaving depart from Berwick one hour from time as given above, commencing 6:00 a. m.

Bloomsburg & Sullivan Railroad.

Table with columns for NORTHWARD and SOUTHWARD, listing stations and times. Includes stations like Bloomsburg D.L. & W., Paper Mill, Light Street, Orangeville, Forks, Bentonsville, Stillwater, Zanders, Edsons, Cole Creek, Grass Mere Park, Central, Jamison City.

60 YEARS' EXPERIENCE PATENTS TRADE MARKS DESIGNS COPYRIGHTS & C.
