## BRYAN'S STATEMENT

Confident That Something Has Been Accomplished Through His Efforts.

#### "LED AS BEST I COULD."

In the presence of his third defeat for the Presidency William Jennings Bryan evinces a spirit of serene acquiescence in the people's will and of comforting reflection he has at least done some good mpelling the Republican party

us by a decisive majority. The returns are not all in, and it is im- ing their election, and cast their possible at the present time to analyze them or to say what causes dent of the United States. Certificontributed most to the Republican cates of this vote are made in triplivictory. We made our fight upon a platform which embodied what we believed to be good for the American people, but it is for the people themselves to decide what of government they prefer.

"I have faith that the publicity which we asked for will yet commend itself to the American people. that the election of Senators by the people will be secured, that the iniquities of the Trusts will arouse an opposition that will result in the elimination of the principle of private

"I am confident that the people will see the necessity for the labor which our platform demanded. I am confident, too, that the educational work done in this campaign tabulation is as follows: will result in securing greater protection to bank depositors. The above are the most prominent re-forms for which we labored, and I believe that these reforms will yet come together with more effective regulation of railroads and inde-

pendence for the Filipinos. LED AS BEST HE COULD.

"I desire to commend the work entirely satisfied with Mr. Mack as the chairman and with the members of the committee. I do not see what they could have done more than they did, and as for myself, I put forth every effort in my power to secure victory for our cause. The nomination came from the hands of the voters, I have obeyed their command and have led as best

Words will not express my gratitude for the devotion which has been shown by millions of Democrats during the past 12

years. Neither am I able to adequately express my appreciation for the kind words which have been spoken since the election. If I could regard the defeat as purely a personal one. I would consider it a blessing rather than a misfortune. for I am relieved of the burdens and responsibilities of an office that is attractive only in proportion as it gives an opportunity to render a larger public service. But I shall serve as willingly in a private capacity as in a public one. God does not require great things of us, He time-thirty-seven days in all. only requires that we improve the opportunities that are presented, and I shall be glad to improve the ter with him and have arranged opportunities for service presented by private life.

COMPORTED BY NEBRASKA.

"In this hour of national defeat I find some consolation in the cordial support given by my neigh bors, by the citizens of Lincoln and by the people of the State of Nebraska With a Democratic Legislature we shall be able to put into practice so much of the Denver platform as relates to State legislation, and I trust that our State will set an example that will be an influence for good in the nation."

#### How Electoral Vote is Counted.

There will be an elaborate procedure in the case of the men electthe national Government to ed on the electoral ticket in Pennopt in part or entirely many of sylvania. ## Elk County Unanimous.

Local politics in Elk county are of the unanimous order. In the legislation and the tariff reduction tabulated vote of the county, published in the Ridgway Democrat, under the head of Assembly the

> Governor Johnson, of Minnesota, looks like a rising sun. A Democrat who can carry his State three times in succession in the face of a normal Republican majority of 100,000 is marked for a man of destiny. Perhaps he will be the Moses that will lead the agricultural constituencies of the Northwest out of the wilderness of Protectionistic and Trust-breeding Republicanism in which they have been blindly wandering for nearly forty years. In any event, Governor Johnson is well worth keeping an eye on .- Record.

#### RURAL IMPROVEMENT.

SuperIntendent W. W. Evans has issued a circular on the subject \$150,000. of Rural improvement, which is, in part, as follows. He says:

With this end in view, we have secured the co-operation of the Division of Zoology of our State Department of Agriculture. Prof. H. A. Surface has done us a great service through his bulletins, in arousing an interest in the various diseases which infect our crops; he has now consented to give at each of our rural high schools a practical demonstration of ways and means for combating the same. Prof. A. Woodward Stephens, a graduate in the Agriculture course of Cornell University, and an experienced inspector of orchards, has been deta 1ed to spend two days in each of these high schools. We are thus fortunate in being the first county in the state to receive the services of so valuable a man for so long a

#### Appropriation for Game.

In his annual report to the State Game Commission, Secretary J. C. Kalbfus, recommends a State appropriation for the re-stocking of the state with game. He declares that hunting makes real men and that the Americans repelled the British in two wars because they were largely a nation of hunters and that sport in the woods today is a valuable training which is being interfered with because of the growing scarcity of game. Dr. Kalbíus recommends an appropriation of \$25,000 be made by the next legislature, in addition to the regular appropriation to the commission, for the purpose of buying game to restock.

Dr. Kalbfus also recommends that the game season be shortened in order to conserve the game that remains. He says that the necessity for this action is apparent and that he has the advice of hunters and sportsmen that the open season should not begin until after November 1. Now part of the season opens in October, which is generally a dry mouth and that animals seeking for water are an easy prey to hunters who watch the streams.

Recommendations are also made for the increase of the State police who have been assisting the game commission in enforcement of game laws and for the passage of a bill to prohibit unnaturalized persons to carry arms

#### Lincoln Memorial Proposed.

Congressman D. F. Lafean, of York, announces that he will introduce at the next session of the house a bill providing for the construction of a magnificent roadway reaching from Washington to the battlefield at Gettysburg.

The road will cost the government \$7,000,000, and it is proposed to make it a national memorial to Abraham Lincoln, in celebration of his one hundredth birthday anniversary. Mr. Lafean says the proposed boulevarde meets with the approval of President Roosevelt, the Lincoln Memorial Association and scores of congressmen.

Mines Go Dry and Stop Again.

Nine Thousand Workers Thrown Out for Lack of Water.

The Lehigh Valley collieries Nos 1, 2, 3, 4 and 5, Susquehanna Coal Company, William Penn and North American and McTurk's washeries at Shenandoah have been compelled to suspend all operations again owing to the scarcity of water, again throwing about 9000 men and boys out of employment.

Unless it rains very soon a number of other collieries and washeries will be compelled to suspend this week.

Ex-Senator Edward W. Carmack of Tennessee, was shot and killed at Nashville, by the son of Col. Duncan C. Cooper. The trouble grew out of politics, Carmack being an editor whose paper had bitterly attacked Cooper. Both men fired at each other, Carmack being instantly killed, and Cooper wounded in the shoulder. The two Coopers are in jail.

If present plans are carried out, Elisha Root will succeed Thos. C. Platt as United States Senator for New York. The country will probably survive the loss of Platt n the Senate.

Tariff revision is now promised by the dominant party. They do
