

KAISER SURRENDERS GERMANY REJOICES

Chancellor's Plan Talk Brings a Promise to Cease Personal Rule in Empire.

EMPEROR MAKES PUBLIC PLEDGE

Will Not Meddle with Foreign Policies and Will Adopt Constitutional Methods—Von Buelow Fearlessly Presents Proofs of Subjects' Anger.

Berlin, Germany, Nov. 24.—Forced by the tide of popular anger that swept the empire from end to end, Emperor William yielded to the Nation, and promised henceforth to conform himself to constitutional methods of conducting the policies of Germany.

Chancellor von Buelow, who had undertaken to communicate to the Emperor a straightforward and unvarnished statement of how the German people viewed his interview in The London Telegraph and other personal interventions in affairs of State had an interview with him at the new palace in Potsdam. At its conclusion the Emperor made formal promise to his people that he would not in the future act except through the Chancellor and his associate Ministers.

This promise was made public in the Reichsanzeiger, the official gazette of the empire.

Prince von Buelow had determined upon handing in his resignation if the Emperor had not met the country's demands, but as such a situation did not arise the audience ended with the Emperor saying to the Imperial Chancellor that he reposed full confidence in his wisdom.

Within half an hour after the Chancellor's return to Berlin bulletins issued gratis by the evening newspapers, reporting a favorable issue of the meeting between the Emperor and the Prince, were eagerly snatched by an anxious public. The whole nation had awaited with suspense the word from the palace.

It is certain now in the minds of the German people that a great step has been taken toward freer Government. Interpreted by the events leading up to it, the least that this declaration of the Emperor can mean is that he promises to limit his freedom of speech and observe carefully constitutional forms, in taking initiative without the advice and consent of the premier Minister.

CATTLE PLAGUE NOW IN NEW YORK.

Dread Foot and Mouth Disease Brought in from Canada.

Washington, Nov. 20.—The dread foot and mouth disease has broken out among the cattle of northern New York.

News of the outbreak came from Buffalo, and the six counties surrounding that city will be placed under quarantine. A large force of inspectors and veterinarians left for Buffalo to begin the work of stamping out the plague.

The disease appeared at Danville, Pa., a week ago, and Secretary Wilson sent nine men there. Later he increased the number to thirty, and then to fifty, and he placed four counties in that part of Pennsylvania under strict quarantine.

It is believed that the disease was brought into the country by a small number of cattle imported from Canada through the customs district of Niagara Falls.

DOUBLE AUTO KILLING SHOCKS COMMUNITY.

Hot on Trail of Men Who Ran Down Kramer and Purdy.

Ossining, N. Y., Nov. 25.—While the citizens and authorities of Ossining and vicinity have frequently been wrought up over the question of automobile speeding, which has long been prevalent in this section, nothing has ever been known approaching the storm of indignation aroused by the running down and killing Saturday night of William Kramer and William Arthur Purdy, which occurred near the entrance to William Rockefeller's Sleepy Hollow estate. It is freely characterized as the cruellest and most cold-blooded affair of the kind that ever happened in this part of the State. The authorities are hot on the trail of the miscreants.

DIED ON WIFE'S COFFIN

Houghtaling Had Prayed that He Might Be Taken with Her.

Battle Creek, Mich., Nov. 24.—Francis S. Houghtaling, aged seventy-four, fell dead while holding the door for the undertaker to place a casket in his home for his wife, Martha Houghtaling, who had died twenty hours before.

The couple celebrated their golden wedding only a few weeks ago. They were much devoted to each other and had never been separated a day for more than forty years.

He had prayed to be taken with his wife and he fell across her casket. Both were buried in the same grave to-day.

DIES IN ARMS OF BROTHER HE SHOT.

New Yorker, Demanding Share of Estate, Attacks Favored Heir and Slays Himself.

Pittsburg, Nov. 24.—Following a quarrel over their estate, Reuben Cross, whose home is in New York City, is dead, and his brother, Joseph Cross, a prominent attorney, of this city, is dying here.

Reuben came to the office of his brother, on the fifth floor of the Bakewell Building, and demanded money. He was refused.

"You'll settle with me or I'll kill us both," he declared, and drawing a revolver he fired a bullet into the back of his brother and then fired a second shot through the roof of his own mouth.

Joseph fell over Reuben, and the two brothers, dying, and locked in arms, fell across the floor. Other lawyers in nearby buildings heard the shots or saw the tragedy through adjoining windows, rushed to the scene.

It was some time before the door could be forced open. Then Reuben was found dead, while Joseph was hurried to the Homeopathic Hospital.

Joseph is thirty-eight years old. Reuben was forty-two. There was some property left when their parents died, and Joseph was made trustee of it, because Reuben was not very "steady." About six months ago Reuben came here and registered at Newell's Hotel. Each day he called on Joseph and demanded money, being at times very abusive. John A. Perley, a brother-in-law of both men, called at the morgue and took charge of the remains. He would give no additional information.

Joseph Cross was wealthy in his own right and prominent in Republican politics of Pittsburg.

1,000 INFECTED CATTLE

Pennsylvania Authorities Start to Eradicate "Foot and Mouth" Disease.

Danville, Pa., Nov. 23.—A report received at the federal and State headquarters established here by officials investigating the apthous fever among the cattle states that the veterinarians discovered thirty-five well defined cases of the disease among cattle in Montgomery county, in the vicinity of Norristown. The disease was traced to a load of twenty-two cattle shipped into Montgomery county from Buffalo. Each one of these animals was located, and in all, it is said, thirty-five cases were found, and all of the infected cattle were killed.

Assistant Secretary of Agriculture Schoch said of the State's work that up to the present time more than one thousand cattle have been killed, besides swine.

The report that five children in this vicinity are victims of the disease is discounted by the statement of Dr. Fox, of the State Health Department, who came here from Harrisburg. He examined the children, who are convalescent, and says that it is doubtful if they ever had the disease.

Harrisburg, Pa., Nov. 23.—Announcement was made at the State Department of Agriculture that ten counties of the State are affected by the foot and mouth cattle disease, and that there is danger of the disease spreading into other counties. Agents of the State have discovered that farmers throughout the State have been buying cattle in large numbers and that most of the shipments were made through the Buffalo yards, so that there is no telling where the disease will appear.

MISTAKEN FOR A DEER

Hunter Shot in the Usual Way in Vermont Woods.

Beecher Falls, Vt., Nov. 24.—Edward Lambeux of Clarksville, N. H., was shot and killed by A. E. Bodge of Boston. The men were hunting on Cedar Stream, when Bodge, catching a glimpse of Lambeux through the bushes, fired, thinking he was shooting at a deer.

Bodge is a Pullman car conductor and has been running into this town for the last three summers. Lambeux worked in a factory here. He leaves a widow and four children.

SUFFRAGIST VICTORY.

Chicago May Give Women Vote on Municipal Questions.

Chicago, Nov. 18.—The greatest victory in forty years' agitation for equal suffrage in Illinois has been won. The charter committee, by a vote of 6 to 4, adopted a resolution declaring for a bill giving women the right to vote for all municipal officers and on all questions of policy which have to do with the municipality.

\$10,000 as Prize for Aviation.

Paris, Nov. 24.—The Auto-Aero Committee of the Auto Club of France has decided to establish a grand prize for aviation. The prize will be completed for in 1909 and its value will be about \$40,000.

Cholera Ends in Manila.

Manila, Nov. 20.—While occasional cases of cholera are reported to the authorities, the epidemic is now unquestionably at an end.

Chinese Duel.

On Sunday afternoon a Chinaman is reported to have been killed in a house at Talat Piu, Bangkok, Siam, as the result of a duel with another Chinaman. They fought with the two forefingers of each hand, strapping each other with these in the region of the spleen and at the same time on the other side of the body. A strongly built coolie using the weight of his body could certainly give a nasty blow in that part of the body, even with two fingers and repeated blows of the kind are usually to prove fatal. The men who go for this kind of contest practice every morning stabbing bags of rice or of paddy with these fingers till they can use them like a piece of iron.

Japan's Forests.

Japanese forests have been managed longer than any in Europe. They were controlled before the birth of Christ and during the early Christian centuries tree planting on water sheds to prevent floods was enforced by frequent edicts. Regularly appointed officers supervised the work. China has persistently destroyed her forests.

BURGLARS' GAZETTE IN RUSSIA.

"Trades Paper" Contains All the News of the "Craft."

St. Petersburg.—A "trade paper" for burglars is now published in St. Petersburg. It is called the "Bostatska Gazette" or the "Barefooted Gazette"—the title being apparently an allusion to the stealthy ways of its readers.

The paper contains full reports of the latest thefts and burglaries, articles by experts on the art of burglary and what to avoid in pursuing it, and columns of advice and hints to help the beginner. Naturally the paper is published in strict secrecy, but the police will sooner or later discover its printing office and suppress it.

People who "take notice" must have observed a growing sentiment in this country in favor of using only put-up foods and medicines of known composition. Dr. Pierce's Favorite Prescription stands alone as the only ready-put-up medicine for the cure of women's peculiar ailments that bears on the wrapper a full list of the ingredients composing it, printed in plain English. It is the "Favorite Prescription" of a Specialist in women's peculiar diseases and not a "patent medicine." Made of the roots of native, medicinal plants without alcohol or other harmful ingredients Dr. Pierce's "Prescription" has been the favorite cure for the weaknesses, pains, drains and disorders of the womanly system which has stood the test of forty years of experience.
