What Ails You?

Do you feel weak, tired, despondent, have frequent headaches, coated tongue, bitter or bad taste in morning, "heart-burn," belching of gas, acid risings in throat after eating, stomach gnaw or burn, foul breath, dizzy spells, poor or variable appetite, nausea at times and kindred symptoms?

If you have any considerable number of the above symptoms you are suffering from biliousness, torpid liver with indigestion, or dyspepsia. Dr. Pierce's Golden Medical Discovery is made up of the most valuable medicinal principles known to medical science for the permanent cure of such abnormal conditions. It is a most efficient liver invigorator, stomach tonic, bowel regulator and nerve strengthener.

The "Golden Medical Discovery" is not a patent medicine or secret nostrum, a full list of its ingredients being printed on its bottle-wrapper and attested under oath. A glance at these will show that it contains no alcohol, or harmful habit-forming drugs. It is a fluid extract made with pure, triple-refined full habit-forming drugs. It is a fluid extract made with pure, triple-refined full habit-forming drugs. It is a fluid extract made with pure, triple-refined full habit-forming drugs.

CIGARETTES GOOD FOR WOMEN

Physician Says Five Minute Smoke Three Times a Day Would Help Nerves of Fair Sex.

Philadelphia.—Dr. Rachel S. Skidelsky, one of the best known practitioners of Philadelphia and a member of the County Medical Society, after starting the Women's Club by denouncing the tobacco habit among women started it still more by advocating the use of cigarettes by women.

Many physicians hold similar views. Dr. Skidelsky said, but hesitate to advise their women patients to smoke because of a fear that what was offered as medicine might become habitual indulgence. Dr. Skidelsky was born in Russia, but has lived in this country for thirty-nine years and has a large practice.

"I feel sure," she said, "that tobacco if pure and properly used might be beneficial to women. It is known to be valuable in functional disorders of the nerves. As men find it valuable to soothe their nerves in the midst of cares or worries I do not see why women, whose worries are more numerous and whose nervous organization is more delicate, should not find benefit in its proper use also."

"I think that if a woman would sit down for five minutes before beginning her day and give the time to a cigarette she would be able to plan better the day's work, and five minutes thus used three times daily would be, I think, of much benefit to her. I would, of course, recommend the practice only to such as were in no danger of becoming addicted to the more extended use of cigarettes."

"A woman smoking in public or for bravado merely I would not sanction at all."

DOG EATING NOT SO BAD.

Prof. Starr of Chicago Makes a Brief for the Philippine Dish.

Chicago.—Frederick Starr, Professor of Anthropology at the University of Chicago, in a church lecture here on the Philippines said: "In all the islands there is not a tribe that is not capable of self-government. There can be no doubt in any one's mind as to the Christian tribes, but even to the savages I think the words of the great republican apply: 'No man is good enough to rule another man without that man's consent.'"

"Oh, you say, 'but they are head hunters and dog eaters.' They are, but I never could see why dog should not make good food. They eat only clean, white young male dogs. Why should the idea of eating a dog give us the shivers, while the actual consumption of swine does not turn the stomach of the daintiest lady?"

"Why, do you know that I have seen people in this country who would eat raw oysters. I have done it myself. Think of a person who eats raw oysters sneering at a people that eats clean cooked dog!"

What is Whisky?

The trial of a case that involved the important question, "What is whisky?" greatly interested the British. It presents many problems. "Suppose," asked one of the counsel, "that a merchant has a blend of spirit three months old and spirit ten years old, what is the age of that whisky?" "Five years and a half," replied the witness.

DR. HUMPHREYS' SPECIFICS.

Directions with each Vial in the Language of English, German, Spanish, Portuguese and French.

THE GRACEFUL GIRL.

Has an Air of Superiority That Forces Her Upon Our Notice.

Have you ever noticed the great amount of admiring attention which the graceful girl attracts? Even moderately good-looking, and not prettily or smartly dressed, there is an air of natural superiority about her which forces her upon our notice. This superiority lies in the fact that the graceful girl knows how to poise her body correctly, how to walk and sit becomingly. Consequently no matter what she wears or what her features may be like, she always appears to the best advantage.

A plain girl who knows how to stand, move, and sit with ease is far more admired than the beauty who is clumsy and awkward. Some girls are naturally graceful. But there is no reason why those who are lacking in this respect should not add to their charms by carefully cultivating the art. An erect carriage, a graceful walk, a graceful manner of sitting and rising are necessary if a girl wishes to be really charming. And it is quite within her own power to acquire these virtues. In the first place she must study her own defects and the faults of other girls in order that she may avoid them.

Do not try to copy the graceful girl off hand, so to speak, by forcing yourself into what you would be unnatural poses and attitudes. That is not the way to cultivate gracefulness. In fact by doing so you will probably only make yourself more awkward and clumsy. By always trying to avoid the little faults which prevent a girl from becoming graceful, you will as time goes on find yourself drifting quite naturally into the ways and manners of the graceful girl.

SMOKELESS GRIDDLE.

Odors as Well, Are Carried Directly Up the Chimney.

A smokeless and odorless griddle and broiler, which has been lately patented, has advantages which will be readily recognized at a glance of the accompanying cut. The front plates of the stove being removed, the new griddle sets in and at the same time falls below the stove top. In this manner the heating surface is brought nearer to the fire and all smoke, vapors and odors are carried up the chimney.

SMOKELESS GRIDDLE.

Placed up the chimney. The griddle is open at the top but for the purpose of broiling it is desirable that a greater heat should be secured, and this is brought about by making a lid over the top. When the latter is lowered, the meat being cooked gets the full benefit of the heat, but when it is raised every opportunity is offered for its examination.—Washington Star.

Sir Walter Scott.

Sir Walter Scott published his books anonymously until financial embarrassments brought his name to light. Prior to that time he had become famous and all England was talking of "The Great Unknown" as he was called.
