Democratic County Ticket.

SHERIFF, W. P. ZAHNER. JURY COMMISSIONER, A. C. HIDLAY. CORONER, ROBERT BRENNEN.

BERRY ATTACKS THE GANG.

Stober and Sisson, for Quayism and Others for Salterism.

Ex-State Treasurer William H. Berry addressed a large mass-meeting at Plymouth last Thursday night under the auspices of the Lincoln Republican Party. He was received with the greatest enthusiasm, and during his talk he had to stop at frequent intervals, so great was the applause.

He was introduced by Fuller Hendershot, known as the "Abraham Lincoln of Luzerne county," and one of the leaders of the Lincoln Party. "What Pennsylvania wants," he declared, "is more Berries, and honest men in the Legislature."

Mr. Berry in his speech attacked the two leading Republican State nominees, Stober and Sisson, as supporters of the Quay statute and all the political infamies that it stands for, as well as the Philadelphia Machine, for rewarding with Judgeships Barratt and Von Moschzisker, the latter now the nominee for Supreme Court, after both had figured as they did in the District Attorney's office when Salter escaped punishment.

When the Republican convention turned down that distinguished jurist, Chief Justice Rice of the Superior Court, who was unquestionably the choice of a majority of the members of the Bar of the State and of the great mass of voters, and nominated Robert Von Moschzisker, a Philadelphia gang-trained judge, the eyes of the people should have opened to the iniquity of the situation, and they should see that the nomination of the unknown one, could be for but one purpose—and that not the interest of the people.

One Doctor—Only One. No sense in running from one doctor to another! Select the best one, then stand by him. No sense either in trying this thing, that thing, for your cough. Carefully, deliberately select the best cough medicine, then take it. Stick to it. Ask your doctor about Ayer's Cherry Pectoral for throat and lung troubles. Sold for nearly seventy years. No alcohol in this cough medicine. J.C. Ayer Co., Lowell, Mass. Why try this thing, that thing, for your constipation? Why not stick to the good old reliable family laxative—Ayer's Pills? Ask your doctor if he approves this advice.

TINY FISH TO KILL PANAMA MOSQUITO.

Novel Experiment Will be Tried by the Canal Commission in Fresh Water Pools.

The extermination of mosquito larvae in stagnant bodies of water through the agency of diminutive fish in the Panama Canal Zone, is the novel experiment which shortly will be undertaken there by the Department of Sanitation of the Panama Canal Commission.

The proposed experiment is to be undertaken to destroy mosquito breeding in the stagnant water in the marshes between Sosa and El Diablo. Before work was begun on the abandoned Sosa-Corozal dam, salt water invaded the marshes regularly, but in constructing the rock and earth fills the tidal channel was obstructed and the rains soon created fresh water pools in the low hemmed-in places.

This fresh water will be treated with copper sulphate in order to kill the algae growth which furnishes food and a hiding place for the mosquito larvae. As an additional precaution the pools will be stocked with diminutive fish.

Millions of species of small fish have been successfully bred at Ancon. It is proposed to transfer some of these mosquito destroyers to the fresh water lakes and ponds.

Vote for Hidlay for Jury Commissioner.

May Name Commission Soon.

Governor Edwin S. Stuart, is expected to name the members of the election law commission before the close of the year. This commission which was provided for by resolution of the last legislature, calls for seven members, two to be senators, two to be members of the house and three not connected with the legislature. The commissioners will study and recommend new laws, including primary and registration laws, if changes are needed. Ten thousand dollars were provided for expenses and the report must be made to the legislature of 1911.

To vote for Cyrus LaRue Munson, of Williamsport, or for Robert Von Moschzisker, of Philadelphia, is your only choice on election day for Justice of the Supreme Court; which shall it be? The one, a busy, hustling lawyer and man of affairs, keenly interested in the questions of the day, nominated without solicitation and in his absence, who will come to the Bench of our highest Court, if elected, untrammelled by promise, interest or faction; the other, a man trained in the Philadelphia school of politics, who has come up through the pull that goes with those in the favor of the machine, whose nomination was unforecasted and unsuspected by a majority of the delegates assembled in convention a few hours before it was announced as the "slate". One who has had no great experience in the great business world, from which a majority of the issues that come before that Court are recruited, and whose every act must necessarily be tinged with the bias that comes from representing a party, interest or clique, and not the general good.

Vote for Brennan for Coroner.

TO TRAIN CHILDREN MORALLY.

League Forming That Plans to Develop Character.

Concerted action on the part of many prominent educators, with the assistance of a party of wealthy men of New York city, for the organization of a Nation Character Development League to assist in the moral training of children in the public schools of the country is now in progress and will be effected in a few weeks. The moving spirit of the association, an ex-publisher and millionaire, is seeking the assistance of Dr. Brumbaugh, Superintendent of Schools, and has requested him to head the movement as president of the League.

The League will distribute free of charge the material for the moral development of children which the members believe to be the most beneficial. The material will be sent to any public school in the country, together with explanations as to the best method of presenting it to the children. All desirable traits will be illustrated to the children principally by biographical literature. The man who has agreed to finance the League will subscribe \$1,000,000 and promises to interest other moneyed men in the cause.

Vote for Zehner for Sheriff.

A Too Frequent Barbarism.

A barbarism in the English language which some newspapers seem to delight in committing almost daily, and which, if not stopped, will influence further murder of the Queen's English by some of the readers, is the misuse of the title "Rev." Again and again it is used as a noun, in the same way as "professor" or "doctor," for which there is absolutely no authority. "Rev." may be properly used only before "Mr.," or before the clergyman's initials as "the Rev. Mr. Brown," or "the Rev. A. B. Brown," never "Rev. Brown." It is as senseless and incorrect as it would be to write "Hon. Smith." This is one of many errors that are constantly being made, but it is a glaring one, and one of the most frequent. Inasmuch as the press is a considerable factor in influencing the speech of the people, some newspapers would do well to pay a bit more of attention to their mother tongue.

Plan for Sane Fourth.

Co-operation of Governors of all States and Territories, in a nationwide campaign for a safe and sane celebration of Independence day in every hamlet, town and city throughout the country, is the object of a movement now inaugurated.

The plan contemplates the formation of a national committee on promotion of the safe and sane celebration of the Fourth of July; the appointment as honorary chairman of President Taft in view of his indorsement of Washington's "accidentless fourth"; the appointment of the Governors of all States and Territories in the Union as members, and an active campaign by that committee all over the nation for divorcing Independence day from its annual toll of accidents.

Bad Bill is Made by the Thousand.

If you are offered a \$5 bill with the portrait of Andrew Jackson and numbered A-24441118 of the series of 1907 don't accept it. It is bogus. There is but one genuine bill of that number and that is in Italy; but the country is being flooded with counterfeits of it. Wholesale dealers in Brooklyn have been recently convicted of handling this bill, but the factory is still at work in Italy, where the one genuine bill is being copied by the thousand.

Three Italians in Brooklyn are now in prison and Secret Service men are on track of others. Meantime look out for the Jackson bill.

In his now "infamous" decision upon the Judges Salary Grab, Judge Von Moschzisker, true to his political training, treated the Constitution of his State, after the manner of "What is the Constitution among friends," and decided that they could take the increased salary, in spite of the Constitutional prohibition, "that the salary of no public officer shall be increased or diminished during the term for which he was elected." Now how do you suppose the erudite Von Moschzisker got around this plain inhibition? by the simple method of declaring "judges are not public officials."

The Democratic candidates for Sheriff, Jury Commissioner and Coroner are worthy of every Democratic vote in the county. They are important offices, and every voter should go to the polls next Tuesday.

A BIG YEAR FOR APPLES.

The Crop Will Exceed That of 1908 by Twelve Million Bushels.

Thirty-five million barrels, or 12,000,000 barrels more than in 1908, is the estimated apple crop of the United States and Canada this season, according to Ren H. Rice, secretary-manager of the second national apple show in Spokane, Nov. 15 to 20. Mr. Rice said:

"While the quality of the product east of the Mississippi river is not as good as last year, the crop will be much larger and probably more profitable. The yield in the states west of the Mississippi is lighter than in 1908, but the fruit is of a better grade."

The International Shippers' association has issued an official statement that the crop in the New England states is 20 per cent in excess of 1908, while the yield in the central states is about 7 1/2 per cent below last year, and the middle western states report a crop double that of last season, when the yield was light.

Growers in the southern states report a crop of from 125 to 150 per cent larger than in 1908. The Pacific group will have a smaller crop than last year, but the decreases in Idaho, Washington and New Mexico are more than made up by the big yield in Colorado, so that the western crop will be fully as large as the previous season.

Losses are shown in reports from New York, New Hampshire, Kansas and Oklahoma. Michigan and Wisconsin and other states have gains. The Dominion of Canada, not including Nova Scotia, shows a gain of 75 per cent, and the crop in the providence of Nova Scotia is fully as large as in 1908, when a bumper crop was harvested.

Says Limburger Cheese Vanquishes Cancer Germs.

Limburger cheese as the principal ingredient of a cancer cure is the announcement of Philip Schuch, Jr., a chemist of Denver, Colorado.

Following the death of his mother eleven years ago from cancer, Schuch began an investigation of the cause and growth of cancers, during which, he asserts, he discovered that the basic germs of cancer are similar to those of leprosy and consumption. He spent several months in the leper colony of Venezuela studying the disease. Schuch's cure consists of a thorough cleansing of the affected part with liquor of quicklime and fresh sweet milk, in equal parts, and then the application of poultices of pulped fresh Swiss or limburger cheese, moistened with glycerine. Although no test of this has been made, Schuch says that theoretically the formula should cure mild cases of leprosy.

Nets \$150,000 From Seals.

The Government made about \$150,000 during the months of July and August out of Alaska fur seals.

According to figures made public at the Department of Commerce and Labor, the contract for seal killing on St. Paul and St. George Islands, let last year to the North American Commercial Company, realized this sum.

Seal killing is done by the contract system, the lessee paying at the rate of \$10.22 per skin and being limited to the killing of not more than 15,000 animals. Last year 14,700 seals were slaughtered.

State May Take Carnegie's Offer.

Preparatory to accepting or rejecting Andrew Carnegie's offer of 450 acres for a State sanatorium for tuberculosis patients from western counties, State Health Commissioner Dixon went to Cresson on Saturday with Thomas Fleming of the engineering division, to inspect the land. A report will be made to Governor Stuart this week. It is believed the offer will be accepted.

Jamaica Puts Ban on Dogs.

The Colonial Government of Jamaica has promulgated regulations prohibiting the importation of dogs into that island from the United States, the Republic of Panama and the Canal Zone. The exclusion of the dogs is the result of representations indicating the prevalence of rabies in the countries named.

Internal Revenue Receipts Heavier.

Internal revenue collections for the month of September show an increase over the collections of the same month last year of \$2,955,674. The principal item of increase is in the receipts from distilled spirits \$1,791,271.

Children Cry FOR FLETCHER'S CASTORIA

\$100 FOR A GOOD NAME. The makers of STYLE-CRAFT CLOAKS AND SUITS are offering a first prize of \$100.00 to the woman who suggests the best name for their new fall.
