

Of Interest to Women

The New Swirl Coiffure the Latest Change in Fashion World—Puffs, Rais and Carottes Will be Gently Laid to Rest—New Effect is Characteristic and Youthful to All.

Many changes will soon come to pass in the world of fashion, but there will be none greater than the new coiffure, which is as different from the old as night is from day.

Puffs have seen their day, and so have rats, for the time being at least. Barrettes will be laid aside as curiosities of a bygone era.

The new fashion is called the French "swirl," and it is not an old fashion revived, but one entirely new distinct from anything that has ever been seen before in hairdressing.

It is not necessarily neat in construction, but it is infinitely more becoming than the late arrangement of puffs or than its successor, the monstrous psyche. The French swirl will soften any face.

An instance of the use to which these little farms are put is found in the case of a Scotch woman who has eighteen acres. Ten of these are devoted to cereals of various kinds and an acre to strawberries and the rest is under grass.

Notes and Comment

FARMING FOR ENGLISH WOMEN.

Mrs. Victoria Woodhull Martin Reforming Village Life in England.

Mrs. Victoria Woodhull Martin is now engaged in making over English village life. The scene of her activities is Bredon's Norton, in the parish of Bredon.

Some time ago Mrs. Martin established Bredon's Norton College where women may learn agriculture and horticulture, and she set aside a large tract of land for practical demonstration.

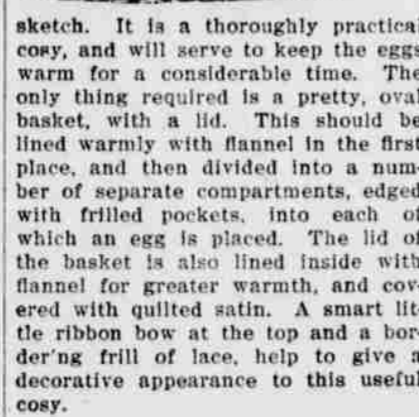

Most of the small plots are devoted to some one crop, tomatoes having been chosen by one woman who leases an acre.

Mrs. Martin has not stopped with providing the ground. She is looking out also for the social welfare of her tenants. The old manor house has been turned into a club, while an old farmhouse has been fitted over for the use of the men.

KEEPS EGGS PROPERLY WARM.

Basket Cozy Also an Ornament for Breakfast Table.

Something quite new in the way of a basket egg-cozy, intended to hold four or more eggs, may be seen in our sketch. It is a thoroughly practical cozy, and will serve to keep the eggs warm for a considerable time.

PLACE TO KEEP NOTES.

Useful Article Designed for Memorandum Slips, Etc.

A useful little article that can be made in spare moments is a case for memorandum slips. It is designed for

containing unused half sheets of letters and other odd pieces of paper that are so useful for memos, notes, and for which, if tidiness is to be regarded, a place must be found.

The case represented in our sketch is intended for hanging on the wall by the side of a writing table or some other suitable place, and is made of two pieces of cardboard covered with material and edged with cord.

At the top inside two pieces of tape are sewn, and the papers are fastened in by piercing a hole in them and then pushing the tapes through and tying the ends together.

Veil Adjustment.

To arrange a veil easily and smoothly fold it in the middle and gather for about an inch and a half to each side with a stout thread.

Table with 2 columns: Item and Price. Includes Breakfast (Baked Bananas, Panned Tomatoes, Toast, Luncheon (Beef Croquettes, Plain Salad), Dinner (Veal Loaf, Baked Potatoes, Green Corn, Creamed Beets, Combination Salad, Apple Tapioca).

Five an Drum for Suffragists.

There seems to be no end to the ingenuity of the English suffragists. They have interrupted public speakers by ringing cow bells; they have summoned Cabinet Ministers as witnesses in their trials for rioting; they have scattered pamphlets from a balloon; tried to reach the House of Commons in an airship, and have wrong part recognition from the King.

Now they have organized a five and drum corps, and a good one it is. In the days when the British military power was at its highest the five and drum were heard on the march and where the battle was hottest.

Daqn with Hair.

To darn a small tear in woolen or volle garments use a fine needle threaded with a human hair. After being well pressed it will defy detection and will not easily tear out.

STILL COMING FROM CANADA.

In spite of the considerable movement of American farmers from Western States into Canada, the balance of immigration still sets the other way, according to C. B. Schmidt, Commissioner of Immigration of the Rock Island and Railroad system.

It is not the size of American emigration to Canada that attracts attention, but its character and the fact that there is any emigration at all from the greater Republic.

For every 1,000 persons living in Canada in 1900 there were 200 Canadians by birth living in the United States. The proportions from other countries were: Germany, 40; France, 3; Great Britain, 20; Italy, 15; Austria-Hungary, 10.

SAVE THE BIRDS.

The startling statement has recently been made by one of the great nature societies in this country that there are only half as many birds in America as there were fifty years ago.

This is due to the cruelty and thoughtlessness of people in general who have killed birds, robbed their nests and driven them out of not only the cities but the smaller towns and villages.

MERITS OF THE MULE.

Much has been said about the merits of the mule in the last few years, and a good many horsemen have wondered why more of them were not used and raised in the thrifty Northern States, but the Chicago Live Stock Journal furnishes the explanation by saying that the four million mules in the United States are one of the most expensive luxuries the nation enjoys.

INTERURBAN LINES.

An indication of the growth of electric transportation in the near West is given by the new sixty-four page timetable of the interurban lines of Indiana. Eleven roads radiate from Indianapolis, reaching such distant points as Louisville, Chicago, Detroit, Cleveland and Cincinnati.

REAL FORECAST.

It is not alone the fair weather performances of aviators—the mere tests of duration in flight and cutting dicos at high altitudes—that forecast the possibilities of aerial navigation and its practicability, any more than a barge on a summer sea tells the story of the conquest of the oceans.

USE FOR ALL.

There are 2,754 languages. A man who has been knocked down by an auto or had a street car transfer refused to him would need to use all of them to express his feelings.

GOING TO LAW.

The man who goes to law for the purpose of obtaining satisfaction generally gets so many other things that he forgets all about the satisfaction if there is any in it for him.

THE DIFFERENCE.

Women say as mean things of the men as they can think of, in public, but in public, men are always complimenting the women.

Minneapolis is now the greatest primary barley market in the world, and prices governing every important market are fixed there. The receipts at Minneapolis this year will be about twenty-five million bushels.

Intellect can hide itself behind the grotesque face of Socrates or the high-bred features of Goethe. Similar traits of character may be associated with the lofty stature of Abraham Lincoln or the diminutive form of Lord Roberts.

WHETHER YOU WRITE 50 or 50,000

business letters a year, it pays—it pays well—to use a high-grade paper.

For each letter is a unit, and the responsibility and solidity of your business is reflected to no small degree in each and every one.

So the cost of dignified, refined and productive stationery should be figured by the sheet,

And not by its first cost, or the cost of the total issue.

It costs only one-fifth of a cent per sheet more to use

COUPON BOND

but the influence and prestige it gives your letters is worth ten times its extra cost.

COUPON BOND cost more because it's worth more.

We sell it.
