Snow fell last Saturday in Fresno, California, for the first time in sixteen years.

We notice that a Nebraska boy ate sixteen bananas last Saturday and died. What a waste of fruit!

A. W. Snyder, the enterprising merchant of Millville, was in town on Monday.

If Cannon and Aldrich should ever reach Heaven, would they force up the price of halos by insisting upon a high tariff on gold?

Williamsport had a big fire early on Sunday morning which did one hundred and seventy-five thousand dollars damage.

Fred T. Ikeler, Esq., was presented with a very handsome gold headed cane on Christmas by the Men's Bible Union.

WHEN YOU'RE AS HOARSE as a crow. When you're coughing and gasping. When you've an old-fashioned deep-seated cold, take Allen's Lung Balm. Sold by all druggists, 25c, 50c, and \$1.00 bottles. 12-23-4t.

The new Manhattan bridge over the East River between New York and Brooklyn, which cost \$15,000,000, was opened to traffic last Friday.

A Chicago man has threatened to blow up the United States Senate. He should curb his enthusiasm, and remember that there are still a few good men in that body.

Coudersport is also after municipal ownership of its water works. Necessary legal-steps will at once be taken and the question placed before the people at the February election whether the borough shall own its own water system or not.

Take a hint, do your own mixing. Rough on Rats, being all poison, one 15c. box will spread or make 50 to 100 little cakes that will kill 500 or more rats and mice. It's the unbeatable exterminator. Don't die in the house. Beware of imitations, substitutes and catch-penny, ready-for-use devices. 12-23-4t.

Ernest McDermott, a Brooklyn milk dealer, was fined \$75, for delivering adulterated milk to the orphanage of St. Joseph's Asylum, New York. Analysis of the milk showed that one quart of water had been used for every four quarts of milk.

After smashing a plate glass window and stealing a peck of gems, a Chicago thief discovered that they were imitations, and not worth more than twenty-five dollars. One more demonstration of the fact that all is not beer that wears a collar.

The Mayor of Everett, Massachusetts, vetoed a bill providing for salaries for the Board of Aldermen. To get even with him, the aldermen voted to abolish the mayor's salary. What a splendid saving to the municipality! If scraps like this were universal, just think how prosperity would reign.

Commander Robert E. Peary was on his way to dine with a friend when his automobile was stuck in a snow drift. Before he reached his destination his ears were frozen. Now will some idiot use this as the basis of an argument that he was never at the Pole?

Frank H. Jermyn, of Scranton, one of the wealthiest coal mine operators in the United States, was struck and probably fatally injured by a street car early on New Year's Day in San Francisco. Mr. Jermyn and a party of Scrantonians went to the Pacific coast to spend the winter months.

Children Cry FOR FLETCHER'S GASTORIA

The name of Hotel Lee, of which I. A. Snyder is the proprietor, has been changed to Hotel Irvin.

Alfred Hudson, a London policeman, died Tuesday, from injuries received in a suffragette riot. The gentle ladies must have been a bit rough.

A New Jersey farmer killed a rooster for his Christmas dinner and found a seventy-five dollar diamond in its gizzard. The bird had evidently been eating karets.

The oleomargarine store of Young and Terwilliger has been closed. The proprietors deemed it unprofitable to pay one hundred dollars for a license while the price of butter is at its present point.

Forest preservation in Canada is being urged actively, says an exchange.

It ought to be successful up there. Canada has no Ballinger.

"If you want an enlargement of some departed one, consult us," advertises a Milton photographer. That operation is generally attended to by the minister in his funeral sermon.

When You Put On Stockings
 Of the heavier sort, do your shoes pinch, and your feet swell and perspire? If you shake Allen's Foot-Ease in your shoes, it will give you rest and comfort, and instant relief from any annoyance. Sold Everywhere, 25c. Don't accept any substitute. 12-23-4t.

We wonder if it has ever occurred to the suffragettes to put Emma Goldman, on the trail. She'd make things hum in no time, and if she couldn't get votes for women she'd throw down the government.

The value of the gems brought into this country in 1909 was three times as great as in 1908. Does this indicate increased prosperity, or more debts for father?

"The world is a ladder for some to go up and others to come down," says an old French proverb. Mayhap Columbus had this in mind when he first got the idea that it was a round affair.

"Nothing great was ever achieved without enthusiasm", wrote Emerson.

Was his inspiration furnished by a very large head the morning after?

Beginning January 10, and continuing until January 20, there will be aviation contests at Los Angeles which are expected to draw 150,000 visitors to that California metropolis. Sixty entries are already announced of biplanes, monoplanes and dirigible balloons.

"Hell," said Dr. Julia Seton Sears, Tuesday night in her lecture on "Here and Hereafter" in New York, "is not a place but a condition." Similar post-exam thoughts have occupied the mind of many a student.

"Dr. Cook is reported as still being in the north. Possibly the doctor has struck another trail for the pole," suggests the Williamsport Gazette & Bulletin. We doubt it. He has found it plenty chilly in these latitudes recently.

A similar compilation made recently shows that the Pennsylvania railroad has 1,350 active employees who have been with the road forty years or more, and 1,013 additional men who, before they were retired on pension, had served the road more than forty years.

University Aeronautics.

That aviation is a study not limited only to a few experts in this country and abroad is shown by the action of some of our universities.

Cornell has included the subject in an engineering course, and Pennsylvania has gone even one better, for undergraduates have an aeroplane in course of construction on the university campus which will be ready for flight very soon. The "Philadelphia P" as it is called, has been made entirely by the students or studied scientific lines, and the faculty is proud of the achievement of these men.

The greater part of his time since 1880 has been spent in New York, where he built a system of hotels and lodging houses for the poor, founded a training school for male nurses and was active in many other charities, besides being heavily interested and until recently active in many great financial enterprises.

Mrs. Catherine Horan, 85 years old, of Carbondale township, was seriously injured Tuesday afternoon when the three-story frame dwelling in which she lived dropped 50 feet into the mines and was wrecked.

Mrs. Horan was dug out of the ruins by a gang of workmen from a nearby colliery.

The cave-in occurred at 1 o'clock, and the surface for several hundred feet on all sides of the house has dropped from 30 to 50 feet into the mines.

State to Distribute Pheasant Eggs.

The New York state game farm located near Sherburne will have in charge the distribution next spring of pheasants' eggs for hatching, which will be placed in the hands of farmers and others without cost to the individuals.

An old pheasant will raise two broods of from twenty to twenty-five birds a year. They are insect destroyers, and farmers will be interested to know that their favorite food is the potato bug. Manager Rogers calculates to have 15,000 of the birds this year and next year to raise between 50,000 and 60,000.
