THE PRESIDENT ELECT.

Joseph L. Townsend has been chosen President of the Town Council by majority of 26.

He accepted the nomination against his protest, and during the campaign he spent very little, if any, time in personal solicitation for support at the polls, and his selection by a majority of his fellow townsmen for the office is an honor and a compliment.

His high personal character and well-known business ability leave no doubt as to the success of his administration of the town's affairs. His father, John R. Townsend, made a splendid record as Bloomsburg's Mayor some years ago, and Joseph L. Townsend will show that he is a worthy son of a worthy sire.

MR. FRISBIE RESIGNS.

The Rev. F. V. Frisbie, who for several years has been the efficient steward of the Bloomsburg State Normal School, tendered his resignation to the Board of Trustees at its meeting on Monday evening. It is his intention of re-entering his work in the ministry. His resignation is to take effect on July the first.

Mr. Frisbie will move his family into Buckalew Place where they will reside until his plans are definitely decided.

She is survived by six children, three sons and three daughters, and the interment was made at Tamaqua, Monday afternoon, where she resided for many years previous to living with her daughter. She also resided a year in Berwick.

S. A., Feb. 25; The Girl from Rector's and St. Elmo, in March, and Graustark and Morris Levy's Band of 50 pieces in April. There are, of course, a number of other attractions as well as the probability that a number of other first class attractions will be booked during this period.

CHANZY WRECK A HORROR.

Lone Survivor Tells of Fearful Cries and Final Explosion.

Marcel Rodel, the sole survivor of the steamer General Chanzy, which was wrecked last week on a reef off the Island of Minorca, told a thrilling narrative, prior to his departure for France, of the terrible experiences of the steamer and those on board.

"When the Chanzy left Marseilles she encountered a rough sea and a northerly gale. The passengers were not apprehensive, however, and all retired on the night of the ninth in good spirits. At 5 o'clock the next morning I was awakened by a splitting crash, as if the ship's flank had been torn on a ledge. I dressed partially and hurried out of the cabin. Sailors were trying to reassure the passengers, but their words had no effect on the crowd of men and women many of whom were dragging children.

"The darkness added terror to the frightful scene. Enormous seas were breaking over the steamer. One sea ripped off a railing to which a score of women and children were clinging. Their shrieks as they disappeared were drowned by the roar of the storm.

"I saw that it was death to remain, and being an excellent swimmer, I allowed myself to be carried off by the next wave. At the moment the sea swept me shoreward the air was rent by a violent explosion, the wreckage shooting over my head. I turned to look, but the General Chanzy had disappeared. The horrible confusion was soon ended and the cries silenced; the beating storm alone remained. Evidently I lost consciousness, for I remembered no more until I came to on the rocks."

Rodel took refuge in a grotto at the base of a high cliff, where he passed a day and a night. With the wreckage he built barricades to keep off the sea, and appeased his hunger with raw potatoes, which had been cast in his cavern. On the morning of the eleventh he scaled the cliff and wearily dragged himself to the nearest habitation.

The recovery of bodies continues, and they are buried as soon as they are photographed for identification.

MAKING FINE PROGRESS.

At the recent graduation exercises of Public School No. 93 in New York city, in a class of fifty-six Miss Louise Smith was one of the honor students, and she also received a gold medal prize in the Science course.

Excellent reports have been received of the progress of Ethelbert Talbot Smith at Trinity College, Hartford, where he entered last year.

These are the children of Dr. and Mrs. Edward F. Smith of New York, former residents of Bloomsburg. Mrs. Smith is the daughter of the late Col. Samuel Knorr.

SCRAPS IN CONYNGHAM.

The election gave East North Conyngham a chance to show its fighting blood when the vote for poor director was being counted on Tuesday night. Some of the ballots were badly marked, and in counting these the members of the election board waxed a bit excited. The fight became known, and the friends of the candidates took up the row, things grew lively and a call was sent to Bloomsburg for Sheriff Zehner.

The ultimate outcome is not known, but the court will probably hear of it.

Patriotic Exercises of Schools.

On next Tuesday evening the Bloomsburg Schools will give a patriotic entertainment in the Columbia Theatre in commemoration of the birthdays of Washington and Lincoln. Tickets are being sold for fifteen cents. One of the features will be the presentation to the grammar schools of portraits of Washington, by the P. O. S. of A.

Two Killed at Steel Plant.

Two Slavonian laborers were crushed to death at the steel plant of the American Car and Foundry Company at Berwick, Tuesday night. They, together with other workmen, were in a shanty which was surrounded by piles of steel plates. From some cause, probably the action of the frost, the steel toppled over on the shanty.

The workmen were warned by Fred Hess, a foreman, and all but two succeeded in getting out of danger before the crash came. These two, Andrew Pescocks, aged 21 years, and Mike Shudock, aged 23, were caught and crushed to death instantaneously.

Deputy Coroner, I. J. Hess, empanelled a jury which rendered the verdict of accidental death.

Peruna Secrets You Should Know

Golden Seal, the root of the above plant, is a very useful medicine. Many people gather it in our rich woodlands during the summer. Few people know how valuable it is in dyspepsia, catarrh, and as a general tonic. Many thousand pounds of this root are used each year in the famous catarrh remedy, Peruna. This fact explains why everybody uses Peruna for catarrh.

FIRST RAILROAD.

First One Chartered in America was the Danville & Pottsville.

In a historical sketch contributed to the Pottsville Historical society by Dr. J. J. John, of Shamokin, the Danville & Pottsville railroad is spoken of as being the first railroad chartered in America.

The information appears in an article in Sunday's Philadelphia Record. That part of the article containing the local reference is as follows:

"A series of three papers by Dr. J. J. John, of Shamokin, have for their themes that fascinating subject, 'The Great Road or King's Highway.' This was the road of 1770 which led from the site of Schuylkill Haven on the Schuylkill to the site of Sunbury on the Susquehanna, and which was the follower of the Lightfoot survey of 1759. Lightfoot was authorized by an act of the Provincial Assembly to see if it was practical to construct a road between Philadelphia and Fort Augusta. Dr. John's history of the Danville & Pottsville railroad of 1826, the first chartered road in America, is another of his characteristic contributions."

AS AGENT FOR THE

Pullman Motor Car Company

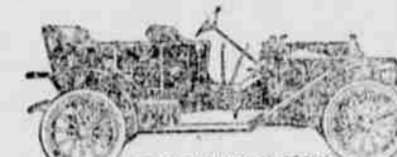

I present herewith cuts of five of the best selling models of the Pullman Car for 1910.

The 1909 models have more than fulfilled their guarantees in all of the many tests to which they have been subjected.

I have oversold my allotment for this year, and have secured a special option on a few cars for a limited time only.

I am fully justified in saying that the Pullman is one of the most popular medium priced cars on the market today.

I would urge prospective buyers to avoid disappointment by placing their orders as soon as possible.

I will be glad to furnish detailed illustrations of the different models.
