PLENTY OF TIME

Some people have so much time that they never get anything done. They are always "just going to." By the way, now is the time to subscribe for this paper—RIGHT NOW. D'ye hear?

IS A HEN A BIRD?

If She is, Eggs Are Admitted Free— If She Isn't the Tariff is Four Cents a Dozen.

The treasury department will have to answer the question: "Is a hen a bird?" Hen's eggs are subject to a duty of five cents per dozen under the Payne tariff law, while the same law says birds' eggs are admitted free. Importers of hen's eggs say "a hen is a bird," and her product should be admitted free. That the tariff fosters combinations and trusts, and benefits them at the expense of the consumer, is again shown, in the tariff on eggs. The Packing Trust put 36,000,000 eggs in storage, when eggs were plentiful, selling at fifteen to sixteen cents a dozen, who'sale in the west, and this winter put them out to the American consumers at thirty-five to forty-five cents a dozen, because the tariff kept out competition. There is a duty of five cents a dozen on eggs, and when the cost of four cents for shipping is added, the cost of handling on the other side of the water, with fair profit to the dealer and farmer, it enables the Packing Trust to charge inordinate prices to consumers here without competition. The tariff should be taken off all food products. The great masses of the people are consumers, and the masses, the working people, are going to get their eyes opened some day to the fact that they are playing right into the hands of the few, and creating fortunes for the few at the expense of the many. With a fair, square deal, we can compete with any nation in the world in food products, outside of the tropical fruits. If we have a poor year for potatoes, wheat or any other food product, and there is plenty abroad, let the plenty come in and feed the people. The only thing that has frightened the Meat Trust is the threat that Congress would take the tariff off of Argentine beef. But Congress won't do anything of the kind, as long as the tariff fostered trusts, are in control in the Senate and House.

The Zoological Press Bulletin.

Timely Topics of Plants and Pests Discussed Weekly, by H. A. Surface, State Zoologist.

SPRAYING OUTFITS, NOZZLES, ETC. A Philadelphian who owns an orchard at Dimock, Pa., has had some correspondence with Professor H. A. Surface, State Zoologist, Harrisburg, relative to ordering a spraying outfit. The orchard being located on rough, hilly ground, and the trees difficult to reach, even with a spraying tower, further information was requested. When this was furnished showing that there are 125 bearing trees and

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

some 30 young trees, not yet of bearing age, Professor Surface sent the following reply: "I beg to say that the reason I made inquiry concerning the number of trees and size of your orchard at Dimock was in order to let me decide whether I should recommend to you or not a certain hilly orchard sprayer, made by the Friend Manufacturing Company, Gasport, N. Y. The sprayer is all right, but as the list price of the complete outfit is \$275.00 it is more expensive than you would want to pay for an orchard of the size of yours. I am satisfied that a person can afford to invest in a sprayer that will cost him at the rate of one or two dollars for each bearing tree he has, and if he once sees the benefits of spraying he will not be satisfied until he has something that will do thorough work and will give him the most satisfactory results.

"I believe, however, that a good barrel sprayer will give you satisfactory results in an orchard of one hundred and twenty-five trees. The best and most satisfactory hand power apparatus which you can get is one worked by an upright lever, being what is sometimes called a horizontal cylinder pump, rather than being worked by a pump handle. This lever swings to and fro, horizontally, rather than vertically like a pump handle. One man can easily operate it, giving enough power to run two leads of hose, each in the hands of a sprayer, if you should wish. Nearly all firms make such outfits. I really do not think it makes much difference as to the particular brand of pump which you buy. All manufacturers are trying to put out something that will be satisfactory on the market. It will, therefore, pay you to obtain catalogues and compare prices.

"The nozzle is very important, and the 'Friend Angle' nozzle of which you write is as good as any. The Goulds 'Mistry Jr.' is also in this class, as well as the 'Brown' and that 'N. C. Atomic' of the E. C. Brown Co., Rochester, N. Y. If you wish me to send you the names of several manufacturing companies I shall be glad to name them. In comparing prices you should be pretty sure that you are not deceived into buying inferior make or quality by some low quotation."

Forges a Railroad Ticket.

David A. Wilson, a hotelkeeper and politician of Harrisburg, was sentenced by Judge Smith at Clearfield recently to pay \$500 fine and to undergo imprisonment in the Western Penitentiary for not less than eighteen months or more than six years for using a forged ticket on the Pennsylvania Railroad.

During the hunting season Wilson, with other Harrisburgers, was in that county hunting. When he came to go home he had another man buy a ticket from Grampan to Clearfield, a distance of twelve miles. When the ticket was presented to the conductor by Wilson it had been changed to a point near Harrisburg, a station the name of which had to be written in.

Wilson admitted using the ticket but said that another man had changed it, although he admitted that he had in his possession at the time acids for the purpose.

A Great Statesman's Tribute to Washington.

William E. Gladstone once said: "If among all the pedestals supplied by history for public characters of extraordinary nobility and purity I saw one higher than all the rest, and if I were required at a moment's notice to name the fittest occupant for it, I think my choice at any time during the last forty-five years would have lighted, as it would now light, upon Washington."

Battling Nelson Champion No More.

Battling Nelson, who has held the world's light weight pugilistic championship for some time was outfought and badly defeated at San Francisco Tuesday night by Ad. Wolgast in a forty round fight. Eleven thousand people witnessed the fight. The gate receipts were thirty-six thousand dollars.

THE "PURE FOOD LAW" is designed by the Government to protect the public from injurious ingredients in both foods and drugs. It is beneficial both to the public and to the conscientious manufacturer. Ely's Cream Balm, a successful remedy for cold in the head, nasal catarrh, hay fever, etc., containing no injurious drugs, meets fully the requirements of the new law, and that fact is prominently stated on every package. It contains none of the injurious drugs which are required by the law to be mentioned on the label. Hence you can use it safely.
