Children Cry FOR FLEISCHER'S GASTORIA

MRS. MARGARET C. ALE.

Margaret C. Ale, widow of the late Samuel Ale, passed to the other world, March 7th, 1910, at her home 5 1/2 miles north of Carthage, Mo. Her death was due to a tumor which first developed last September. She bore her suffering with great patience, and died in the triumph of faith.

Mrs. Ale was born September 3d 1820, near Bloomsburg, Columbia county, Pa., being in her 90th year at her death. Her maiden name was Margaret C. Dildine, and she was married to Samuel Ale, in Pennsylvania, February 13th, 1845. To this union were born seven children, four of whom survive her, viz: Clark, Will, and Elizabeth, who reside in Missouri, and Mrs. E. M. Chilcoat, of Bloomsburg, Pa. She has six grandchildren, Grace, Minnie and Marguerite Ale who reside in Missouri. Mrs. Eugene Baird, Clark Chilcoat, of Ridgway, Pa., Clyde Samuel Chilcoat, of Washington, D. C. There are four great grandchildren.

Mr. and Mrs. Ale, with their family, moved to Carthage, Jasper county, Missouri, in February, 1878, and bought a farm 5 1/2 miles northwest of Carthage, which they improved and added to until it is among the finest in Jasper county. Since the death of Mr. Ale, seven years ago, Mrs. Ale and daughter Lizzie have lived together on the home place. All of Mrs. Ale's children have been kind and thoughtful, but Lizzie has been devoted, and has given her whole life to making her parents happy.

The family is among the most loved and respected in the community.

The funeral of Mrs. Ale was held at the home on Wednesday afternoon, at 1 o'clock. A large concourse of people attended. The floral offerings were profuse and very beautiful.

Mrs. Ale was a remarkable woman, not only that she was so well preserved for her age, but for her many good qualities as well.

Built That Fence, Quick.

John G. Harman, Esq., town Solicitor, has decided that the Council has the right to give permission for the fencing in of Athletic Park, for baseball, and he will so render his opinion to the body at its next meeting.

It is to be hoped that Council will act upon this quickly in the affirmative. The place is practically useless and entirely unbecomingly, and its restoration to a baseball ground would not depreciate its present value. It would furnish a suitable field for the games of the Bloomsburg League Team, the promotion of which is being held up by the delay in securing grounds.

Joseph Priestley was born on March 13, 1733, near Leeds, England, and came to this country June 4, 1794 landing in New York. He lived for a time in Philadelphia, where he was offered the professorship of chemistry in the University of Pennsylvania with a good salary, but declined, preferring to choose his own occupation in retirement. Shortly after he went to Northumberland and built for himself a laboratory and an extensive library, where he worked studiously up to a short period before his death, which occurred on February 6th, 1804. He is buried in the little Quakers' burial ground at Northumberland, and on August 1, 1874—the centennial of the discovery of oxygen—many distinguished scientists met there in celebration of the anniversary.

BISHOP FAVORS SUFFRAGE.

Churchman Argues That Women Should Have Right to Vote.

"Be patient—not too patient, but reasonably patient, and you will undoubtedly succeed" said Bishop James H. Darlington, of Harrisburg, in concluding his address before the Pennsylvania Limited Suffrage league, at the New Century club, Philadelphia, Monday afternoon.

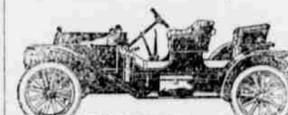

"The justice and necessity of woman suffrage are so evident that I don't know where to begin," the speaker remarked at the opening of his talk. "Why should women be deprived of this privilege? I am a believer in women. They have a higher tone than men. Women have leisure for study and thought. As for their intelligence, I believe it is greater than that of men. Women remain in school longer, and it is the women who originate the charitable institutions of our cities, who know what the municipal requirements are. Why then do we class them with criminals, idiots and imbeciles? Give them a chance; they could not, at least, do worse than men."

AS AGENT FOR THE Pullman Motor Car Company

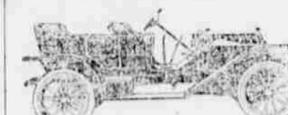

I present herewith cuts of five of the best selling models of the Pullman Car for 1910.

The 1909 models have more than fulfilled their guarantees in all of the many tests to which they have been subjected.

I have oversold my allotment for this year, and have secured a special option on a few cars for a limited time only.

I am fully justified in saying that the Pullman is one of the most popular medium priced cars on the market today.

I would urge prospective buyers to avoid disappointment by placing their orders as soon as possible.

I will be glad to furnish detailed illustrations of the different models.
