Timely Topics of Plants and Pests Discussed Weekly, by H. A. Surface, State Zoologist.

ORCHARD INSTRUCTION HAS COMMENCED IN PENNSYLVANIA.

Prof. H. A. Surface, State Zoologist, commenced this week to give demonstrations, with lecturers on orchard management, in such Pennsylvania orchards as have been taken in charge by the Division of Zoology of the Department of Agriculture, to be shaped into "Model Orchards," to serve as object lessons in fruit culture in the different counties of the State.

With the exception of three counties (Elk, Fayette and Fulton,) there are from two to five such orchards in every county, according to its size as well as its importance as a fruit growing district, or a total of over two hundred. In fact, York County has six. While these orchards will be used primarily for demonstration and instruction purposes, another class, designated as Supervision Orchards, (numbering over five hundred,) will be under the care of the Division of Zoology, whose owners will receive suggestions and help, from time to time, so as to obtain the best results.

Meetings will only be held in the "Public Meeting Demonstration Model Orchards." It is proposed to hold three such meetings during the year, for the purpose of demonstrating methods of fruit culture, viz: pruning, spraying of trees, cultivation and fertilization. There will be lectures pertaining to horticulture at each public meeting, and State Zoologist will endeavor to attend at least one meeting in each county. His places and dates will be announced through the press.

The meetings of the first series, now in progress, will be devoted mainly to spraying for the control of the San Jose Scale and similar pernicious insects, but pruning and other orchard methods will be taught. Besides Professor Surface being in attendance, or one of his assistants from the office of the State Zoologist in Harrisburg, two of the State's orchard inspectors will be present at each meeting, rain or shine.

The dates of the meetings, and the places where they will be held, will be announced through the newspapers each week. Everybody interested should attend the meeting easiest of access, because of the valuable information to be obtained by a personal observance of the improved methods, that will be shown and explained, of dealing with insect pests and fungous diseases, as well as of managing an orchard.

After La Grippe

"I had suffered several weeks with LaGrippe. Had pains in my head and eyes. It felt as though there was a heavy weight on the top of my head, until it seemed that my brain would burst. I was so nervous that I could not rest or sleep. When I dozed off I would awake with a sudden jerking of my whole body. Dr. Miles' Nervine, Heart Remedy and Nerve and Liver Pills cured me. A number of friends have since realized the same benefits."

MRS. ALVIN H. LOCKS, Seabrook, N. H.

The after effects of LaGrippe are often more serious than the disease, as it leaves the system in a weakened condition that invites more serious troubles, such as pneumonia, etc.

Dr. Miles'

Restorative Nervine

should be taken for some time to thoroughly restore nerve strength.

Dr. Miles' Nervine is sold by all druggists. If the first bottle does not benefit, your druggist will return your money. MILES MEDICAL CO., Elkhart, Ind.

BIG POSTAL APPROPRIATION.

Bill Provides \$38,000,000 For Rural Free Delivery.

The House of Representatives at Washington last week passed the postoffice appropriation bill carrying authorized expenditures of \$241,000,000 to maintain the postal service in the fiscal year beginning July 1 next. This is an increase of \$7,800,000 over the amount for the current fiscal year.

The bill provides an appropriation of \$38,000,000 for rural free delivery, of which \$1,000,000 is allotted for extension of the service.

The committee reported only \$500,000 for new rural routes, but an amendment increasing the amount that would have authorized the postmaster general to increase the salaries of rural carriers was defeated.
