Sin.—Sometime last January. I was taken with a violent cold, attended with a distressing cough, which in the course of a few days brought on a bleeding of the lungs, with much soreners of the chest, pain in the side andy much soreness of the breast. After being confined to my hed for some days and getting no tetter, Mr. Pardke, formerly Deputy Sheriff of this county, recommended me to get a bottle of Dr. Buchan's Hungarian Balsam of Lite, observing that he had been similarly afflicted, and, by the use of that medi-cine had been speedily and entirely cured. I immediately got a bottle, and after using it a short time the result was as he predicted—I got entirely well. From the benefit received from the Balsam and from the universal good name it bears among my friends who have used it for discases of the hungs and chest, I am induced to believe it to be one of the best medicines now in use for those discases, and as such recommend it at the puble.
