in the state of our relations. "No troops have marched towards the fron-

tier for a length of time; and I am told by Mr. Parrott, who left Mexico a few days since, that city in a state of utter poverty. I have, "Commanding Home Squadron. "Brig. General TAYLOR,

"Commanding Army of Occupation." Here then is the information which induced him to modify, under certain contingences-"the intelligence from Mexico"-his advice of October 4th. This same, or similar intelligence, was also communicated to him from the War Department on the 16th of October. Taking the two communications together, Gen. Taylor mu e supposed that the difficulties between the two nations were at that very moment, or were soon to be, in the pro- of this borough, aged 61 years. cess of peaceful adjustment by negotiation .-Both communications, moreover, intimated to government. Under these circumstances, and bearing in mind the objects with a view to Henry, aged 20 years. which he had proposed to move upon the Rio Grande, he wrote the letter given above, which the Gazette pronounces "a positive withdrawal of his first recommendation."-This is "a base perversion," not to say a wil-ful "falsehood," which the careful reader cannot but notice. Gen. Taylor, in that letter, bases the partial change of his views as to the expeliency of marching to the Rio Grande upon the hypothesis that "negotiations may ter will find this a good opportunity. be pending," and that too without any disposition on the part of Mexico "to protract them unreasonably." Thus it will be seen that he did not, as the Gazette falsely asserts he did, positively withdraw his first recommendation. We scarcely need say any thing farther on this part of the subject. The barefaced falsehood and deception attempted to be palmed upon the public is so apparent—the garbling of a part of the evidence, and suppression of the letter of Com. Connor, is so bold, that we cannot doubt the reader will py to accommodate their old customers, and the

But there is another attempt at deception which we wish to notice, and then we are and the right hand leg white. Any one who will done. It is contained in the following: "On the 13th of January mext-while Mr.

Slidell yet remained in Mexico, and two months before he was finally rejected-Gen. Taylor received a communication from the War Department peremptorily ordering him to advance his position. HE COMPLIED, AND WAR FOLLOWED AS A MATTER OF COURSE. A plain statement of facts, derived from offi-

cial documents now before us, we trust will place the falsehood contained in the above in its true light. In October 1845, previous to the reception of Gen. Taylor's letter of the 4th recommending the forward nievement of the army to the Rio Grande, the administration, anxious to settle matters peacefully with Mexico, inquired, through our consul, Mr. Black, whether an American Minister would be received by the Mexican government .-Mr. Black made this enquiry on the 13th of October, and on the 15th it was answered in the affirmative. This affirmative answer lead at once to the withdrawal of our squadron from the investment of Vera Cruz, and also to Gen. Taylor's modification of his recommendation of October 4th. On the 10th of November 1845; Mr. John Slidell, of Louisania, was appointed by the President an envoy extraordinary and minister plenipotentiary with full powers to adjust both the question of the Texas boundary and indemnification to our citizens. He immediately proceeded to Mexico, presented his credentials, and, on the 21st of December the Mexican government refused to accreditation. This information was immediately communicated to our government, and then on the 13th of January, the contingency having been removed on which Gen. Taylor modified his recommendation of the 4th of October, that recommendation was acted upon, and the order given for his forwards movement.

The suppression of a portion of the facts of a case is as much an untruth as any thing else, and in the above extract it will be seen that the fact of Mr. Slidell's rejection on the 21st of December is carefully omitted. Five days after his rejection the government of Herrera was overthrown, and Paredes became dictator. Mr. Slidel then presented his credentials to the new government, and was by it rejected on the 12th of March, 1846. The facts are now before the public-facts

derived from official documents-and we are willing to let the public judge which has been guilty of falsehood-the Gazette or those it so boldly and unjustly accuses.

THE CHINESE JUNK -This strange craft continues to attract numerous visitors .-Through the project originated with a Yankee, it was carried out by an Englishman, who "bough in" for \$10000 premium after the Junk was ready for sea. The Chinese sailor who are on board complain of ill-usage. They belong to a province in China remote from Canton, and were shipped for a coasting voyage. After being some weeks at sea, suspecting foul play, they refused to work and the Junk drifed for two days. But the proprietor and a few English sailors armed themselves and taking advantage of a favorable moment, forced the Chinese to work. Subsequently they determined to starve themselves to death, and

were nearly three days without food. After the Junk had been a week or ten days in New York, an American gentleman who had resided five years in the place from which these men came, went on board, and finding that he spoke their language, (which differs from that spoken at Canton) they made their complaint to him. This gentleman communicated the fact to some merchants, who calted upon the Junk proprietor and asked him to pay the Chinese sailors regular wages and provide for their return in an American ship. Their proposition was at first rejected and resented, but on finding that his Junk would be libelled and his speculation blown up, the gentleman complied, and arrangements are now making for the return of the men who were inveigled from their homes .- Evening

25,000 Copies sold in three months. The great demand of this most important work (or which thousands are sold) has compelled the issue of another edition. It is intended especially for the married, as it discloses important secrets which should be known to them particularly .-

Here every female can discover the causes; symptoms, and the most efficient remedies and most certain mode of cure, in every complaint to which her sex is subject. Married Females would here learn the art whereby they would retain their youth, beauty, vigor, clarificity of body and buoyancy of spirits to an advanced age, instead of being afflicted, as hundreds and thousands, into whose hands this

book has not fallen. This work is designed to be in the hands of every wife and mother who has a regard for her own health and welfare, as well as that of her husband.

The revelations contained in its pages have already groved a blessing to thousands, as the innumerable letters received by the author will at-

It is of course impossible to convey more fully, in a public journal, the various subjects treated of, as they are of a nature strictly intended for the married, or those contemplating marriage; neither is it necessary, since it is every one's duty to become possessed of knowledge whereby the sufferings to which a wife, a mother, or a sister may be subject, can be obviated.

TO THE PUBLIC.

THE increased demand for Dr M'Lanc's Liver Pill,

anner their introduction by us as his agents, has far
exceeded our most sangaine expectations. It is now about
ten years since they were brought pefore the public. During this time houdreds of certificates have been headed us
testifying to their ethexey, and staing the very great relief they had derived from the use of them. We have now
in our postession many certificates from tespectable persous, who have used Dr M LANE SLIVLR PILL with the
most hoppy results, where every other known remedy had
been used in vain. Also, quite a number of regular physicians, of good standing, turough the country, are using
and recommending them in their practice.

It has been our sincere wish, that these Pills should be
fairly and fully tested by experience, and atand or fall by
the effects produced. That they have been so tested, and
that the result has been in every respect favorable, we
call thousands to witness, who have experienced their
beneficial effects.

Dr. M. LANE'S LIVER PILLS are not held forth or
recommended (like most of the popular medicines of the
day) as universal cure alts, but simply for LIVER COM
PILALYS, and those symptoms connected with a derauged staty of that organ.

Directors.—Take 2 or 3 going to bed every secondor third/night. If they do not purge 2 or 3 times by next
morning, take one or twomore. A slight breakfast ough
to follow their use. The Liver Pills may be used when
purging is imply necessary. As an antivitious purgative
they are inferior to none—and in done of 2 or 3 they give
astonishing relief in SiCK HEADACH—also in slight derangements of the stomach.

pels worms with invariable success—and is causly administered to children.

That it possesses there valuable proportics, is fearlessly asserted—attil claiming the additional advantages of being given in small bulk, and requiring none of the direncing which Worm Tea and other supposed Verminges demand. Buring its brilliant career, it has been introduced into many families, where every other known and accessible Vermittigs has been tried without the least success, where it has promptly expelled Worms to unuimost lucreduble amount.

As evidence of the surprising effects of Dr. M. Lane's Worm Specific, we give the following:

On Saturday, February 7th, 1546, Mr. James Richardson called at the Drug Store of J. Kadd & Co. corner of Wood and Fourth streets, Philadrigh, Pr. and made the following statement: "A child of mine had been very sick to some ten days—we had give, her purgative medicines but it had done her no good. One of our neighbors came in and said it was worms that were destroying the child, and at the same time spoke of the wooderful effects she had wituesed from using Dr. M. Lane's Worm Specific, in that neighborhood. We procured a vial—gave one teapontul, and the child discharged forty two worms. I then sugatorhood the child worms. As a duty I owe to you and the community at large, I freely make known these facts. My child is now well. What is most remarkable, the Worm Specific expelled the Worms alive, in about four hours after I gave it to the child
