From the N. O. Delta. The Louisiana Floridan of the 7th August contains the following very remarkable letter from General Taylor. It is addressed to Dr. Delony, of Clinton, in this State, who is one of the most radical, determined, out-and-out democrats in Louisiana, or in the south. The General replies to the direct interrogatories of the Doctor in regard to his opinions on the ledding topics involved in the contests of the two great political parties, by declining, very properly, to give an opinion upon the justice of a war which he is himself conducting.

As to the tariff and national bank questions, he says he knows but little of these matters. never having given them much attention, and that he will be under the necessity of studying them will before he can come to any decided opinion. We think the Old Hero has a more serious work before him than whipping the Mexicans, if he has got to conquer all the difficulties, fight over all the battles, read all the speeches, and master all the intricacies involved in the eternal and illimitable contests which have for years past agitated the country on these subjects of the tariff and national bank.

From the Louisiana Floridan We have been permitted by Dr. Delony, to whom it was addressed, to give publicity to the following letter from General Taylor. It may be proper to say that, it was not his intention to have it published; but, from the great interest which seems to engross the public mind, and the variety of conflicting views as to General Taylor's opinions and intentions in connexion with the question of the presidency, and as there is no impropriety in so doing, i

CAMP NEAR MONTEREY, MEXICO, June 9. __ DEAR SIR: Your letter of the 15th ult. from Clinton, La., has, just reached me, in which you are pleased to say, "the signs of the times in relation to the next presidency, and the prominent position of your name in connexion with it, is a sufficient excuse for this letter." That wit is a happy feature in our government that official functionaries under it, from the lowest to the highest station. are not beyond the reach and partial supervision of the humblest citizen; and that it is a right inherent in every freeman to possess himself of the political principles and opinions of those into whose hands the administration of the government may be placed," &c .: to (all of which I fully coincide with you in opinion. Asking my views on several subjects-"First, As to the justice and necessity of this war with Mexico on our part. Second. As to the necessity of a national bank and the power of Congress for creating such an institution. Third. As to the effects of a high protective tariff, and the right of Congress under the constitution to create such a system of revenue.

As regards the first interrogatory, my dutics and the position I occupy, I do not consider it would be proper in me to give my opin-ion in regard to the same; as a citizen, and particularly as a soldier, it is sufficient for ME TO KNOW that our country is at war with a foreign nation, to do all in my power to bring it to a speedy and honorable termination, by the most vigorous and energetic operations, without inquiring about its justice, or anything else connected with it; believing, as I do, it is our wisest policy to be at peace with all the world, as long as it can be done without endangering the honor and interests. of the country. As regards the second and third inquiries,

I am not prepared to answer them; I could only do so after duly investigating those subjects, which I cannot now do; my whole time being fully occupied in attending to my proper official duties, which must not be neglected under any circumstances; and I must say to you in substance what I have said to others n regard to similar mutters, that I am no politician. Near forty years of my life have been passed in the public service, in the army, most of which in the field, the camp, on our western frontier, or in the Indian country; and for nearly the two last, in this or Texus. during which time I have not passed one night under the roof of a house.

As regards being a candidate for the presidency at the coming election, I have no aspirations in that way, and regiet the subject has been agitated at this early day, and that it had not been deferred until the close of this war, or until the end of the next session of Congress, especially if I am to be mixed up with it, as it is possible it may lead to the injury of the public service in this quarter, by my operations being embarrassed, as well as to produce snuch excitement in the country, growing out of the discussion of the merits, &c., of the different aspirants for that high office, which might have been very much allayed, if not prevented, had the subject been deferred, as suggested; besiles very many changes may take place between now and 1848, so much so. as to make it desirable for the interest of the self, better qualified for the situation, should be selected; and could he be elected. I would but would rejoice that the epublic had one citizen, and no doubt there are thousands more deserving than I am, and better qualified to discharge the duties of said office. If I have been named by others, and considered a candidate for the presidency, it has been by no agency of mine in the matter; and if the good people think my services important in that station, and elect me, I will feel bound to serve them, and all the pledges and explanations I can enter into and make, as regards this or that policy, is, that I will do so honestly and faithfully to the best of my abilities, strictly in compliance with the constitution. Should l ever occupy the White House, it must be by the spontaneous move of the people, and by no act of mine, so that I could go into the office untrammelled, and be the Chief Magistrate of the nation, and not of a party.

But should they (the people) change their views and opinions between this and the time of holding the election, and cast their votes for the presidency for some one else, I will not

With considerations of respect, I remain your obedient servant, Z. TAYLOR. Mr. EDWARD DELONY.

P. S. I write in great haste, and under constant interruption. Corwin Meeting.—A whig meeting was held at Dublin, Ia. on Saturday last, the 7th

inst. and a resolution warmly applauding the course of Senator Conwin, and nominating him for the Presidency, unanimously adopted. The meeting also expressed their preference for Gov. SEWARD of New York, as a candidate for the Vice Presidency .- Cin. Chronicle.

Don't Wish it to Succeed. The Public Ledger snys:—The journals which have been predicting the ruin of the country and the diminution of the Treasury, on account of the present tariff, have fuiled in their predictions most signally. The country never was more prosperous, and the revenue has yielded a million and a half ofdollars in seven months over the receipts under the old tariff. Some of them are now betting that the next six months will show a different state of things. We shall see. Our only wish is that they thay be again as signally disappointed.

Dr. M L INE'S LIVER PILLS are not held forth or recommended (like most of the popular medicines of the day) as universal cure alls, but simply for LIVER COM PLAINTS, and those symptoms connected with a demaged state of that organ.

DIRECTIONS.—Take 2 or 3 going to bed every second or third night. If they do not purse 2 or 3 times by sext morning, take one or twomore. A slight breakfast ought to follow their use. The Liver Pills may be used when pursing is imply necessary. As an antibilious purgative they are inferior to none—and in doses of 3 or 3 they give astonishing relief in 81CK HEADACH—also in slight deraugements of the stomach.

Thust poisoness there valuable properties, is fearlessly asserted—still claiming the additional advantages of height of the dreuching area in small bulk, and requiring uone of the dreuching which Worm Tea and other supposed Verminges demand. During its brilliant cureer, it has been introduced into many families, where overy other known and accessible Verminge has been tried without the least success, where it has promptly expelled Worms to au almost incredable amount.

As evidence of the surprising effects of Dr. M'Lano's Worm Specific, we give the following:

Ou Saturduy, February 7th, 1866, Mr. James Richardson called at the Drug Store of J. Kidd & Co. corner of Wood and Fourth streets, Pittsburgh, Pa. and made the following statement. "A child of mine had been very sick for some ten days—we had give a her purgative medicines to but it had done her no good. One of our neighborszenme in and soid it was worms that were destroying the child,

in and said it was worms that were destroying the child, and at the rame time spoke of the wonderful effects she had witnessed from using Dr. M'Lane's Worm Specific, in had withersed from using Dr. M'Lanc's Worm Specific, in that neighborhood. We procured a vial-gave one teasponful, and the child discharged forty-two worms. I then gave another tea-sponful, which brought forty six more, making in all eighty-eight worms. As a duty I owe to you and the community at large, I freely make known these facts, My child is now well. What is most remarkable, the Worm Specific expelled the Worms alive, in about four hours litter I ways it to the child. ours after I gave it to the child

DR. BINGHAM'S CERTIFICATE.

In reply to your queries with regard to the results of the Experiments I have made with your justly celebrated Magnet Ontonent: I can say with pleasure that I deem it one of the GREATESP DISCOVERIES of THE AGE.

It is now nearly two years since, commenced being it in my practice, and I have tested it in cases of lufammation, both local and general, of the most maglignant kind with universal success; even where ull interpul remedies failed, I have succeeded with this.

I have treated cases of infammation of the Brain, Infammatory Rheum itism, and Child bad Fevers, with perfect success; also cases of Scarlet Peyer, Canher Rach, and Ulcerated I broat and Lungs with like success.

In the Episdemic k own as the Patrid Ervsipelas, by which so many valuable lives were lost, I tested it frequently, and it never fuiled of effecting a speedy and certain cure.

In cases of turns, Sprains, Bruizes, Frozen Limbs, &c. it acts like a charm.
