The Question Settled! WEILE various speculations have for some time absorbed the public mind in relation to the cause of so much dark weather, it has recently been discovered that it is the effect of such immense piles of Goods (on paper) as have been heralded forth by all the public newspapers of me place, since the return of a few of our merchants from New York, Buston and Philadelphia. Believing this to be the case, and knowing that the notice of our Stock would most likely produce to-tal darkness, we have until now, deferred any notice of it, and in doing so we would ask the good citizens of Erie and Vicinity to bear with us, if another digit of the Sun's disc-be intruded upon by our piles of New Goods, and console themselves while carrying off the precious parcels, that as the pile grows less the darkness gradually te-

portunity thus ouesed of containing light to the community.
