

her she had taken care to provide for her future life. Many years passed over. Always in motion, they made many acquaintances, but no permanent friends. Suddenly, the old lady died, and without having time to do anything for Ross. This was in a foreign capital—Germany. Ross, who had become quite a woman on his own, was left with the lady's affairs; and, after paying herself the balance of her salary, caused the produce of the lady's effects to be remitted to the bankers in London. All they knew of the lady was, that she had left with them a power of attorney to receive her dividends, and pay them to her order. The cause of the lady's eccentricity had been some family affairs, and she had never given Ross the slightest clue to her relations. Therefore Ross determined, when she returned to England, to apply to Mr. Faber. He was gone abroad. But, in the meanwhile, her funds were being exhausted; and she sought employment, and found it in the way I have described. Positively she had no means of identifying herself but by giving my name and address. I observed, good reader, if I were afraid of that bugbear of the super-vice, "improbability," I should not dare to record the fact of this singular "coincidence," which brought Rose face to face with her seducer, the very night when the beauty and the virtue, the character and property of Eliza were alike to be sacrificed to his cupidity. "Probability" would not have made Rose mention my name; and we should not have been brought in contact till after the marriage ceremony, when the discovery would only have aggravated the suffering.

Our thanks are due to those of our contemporaries who have so kindly noticed our forth-coming Tri-weekly. We will take the earliest opportunity to repay the obligation.  
Marshal for the Western District.  
We learn that the President has appointed JOHN KEATLY, Esq., of Clarion county, Marshal of the Western district of Pennsylvania, vice Hon. Arnold Plumer, resigned. This is an excellent appointment. Mr. K. is a gentleman of ability, and a democrat of the right sort. Besides the excellence of the appointment, it is a flattering tribute to the indomitable democracy of Clarion county.  
Ex-President Van Buren arrived in Philadelphia the latter part of last week, and was the guest of Henry D. Gilpin, with whom he intended to remain a few days. A public dinner was tendered him by his democratic friends, which he declined.  
Gone Back.  
Col. Richardson, a prominent supporter of Gen. Taylor in Louisiana, has gone back to the democratic ranks, because he believed Gen. Taylor to be a whig.  
Odd Fellows.  
An exchange paper says there are in the United States more than 1,000 Lodges, with 100,000 members, who pay for the relief of destitute families and sick brothers \$200,000 a year. By the by, we had forgot to notice the institution of a new Lodge of this order in this place, week before last, by D. D. G. M., O. D. Spafford, called the Philadelphia Lodge, No. 293. This is the fourth lodge in the county, and the second one instituted since the establishment of a paper here in opposition to the order. The rate of increase of membership has been in about the same proportion—or about ten for every article wrote against them.

**THE INFAMY OF FEDERALISM.**  
The Belfast (Maine) Journal, in noticing the hostility of federal leaders, to the present war with Mexico, brings up some reminiscences of the same kind, during the war of 1812, which we should think far more applicable. They consist of two toasts drunk in that town at a federal celebration, with approbation. "To show the sameness of federalism a third of a century since, and now, we give those specimens of verbal patriotism. One toast reads thus:—"The Democrats—Their hats off and their heads in them."  
The second toast was against the soldiers, and breathed a similar thought. It reads thus:—"The Soldier's Bounty Land—Let it be six feet by two."  
The man now living who drank and cheered these infamous toasts are still federalists—are changed only in name. In the war of 1812 they called themselves federalists, now they call themselves whigs.  
The Belfast Journal, in connection with these events, gives the following from a recent number of the Lynn Pioneer, a bitter whig sheet, who, in speaking of the brave men who were killed in the battles of their country, exultingly says:—"Many of the boys were induced to enlist in the Mexican war by promise of land; and it is no more than just to our government to say that some 20,000 have already had their portion (six feet by two) allotted them, and are now in the possession of it."  
In commenting upon these facts, the Trumbull Democrat, says:—"We need not go out of this town for men who have expressed themselves in similar terms relative to our brave army. Frequently they have expressed the wish that every man who went to fight in this unjust and murderous war, should be given six feet by two of his bounty land, and the natives having cruel lands to resist any settlement by the English, it had to be abandoned. Ill will arose, an Englishman, dared not trust himself at any distance from the factories, and at last six veterans were supposed by the Chinese to be signing over to possess the land, and a general massacre followed. Several Chinese were beheaded on suspicion of having committed this atrocity, but the native organizations still continue, and are determined to prevent British aggression. A great disturbance has broken out at Tean-chow in Kwang-se. Upwards of 50,000 of the people have risen in arms against the authorities, the District Magistrate of Tean-chow has been killed, and his Yamen been in possession of, with all the money in the Treasury. The rebels are masters of Tean-chow, and it is said, they are meditating an attempt to take possession of the two neighboring Prefectures, Ping-lo and Nan-ning."  
EFFECTS OF SLAVERY.—The following from a late number of the Troy (N. Y.) Post, is an awful result of a resort to brute force, on the part of a parent. Many of our legislators recognize children as the property of the State; and we agree with them in sentiment. What do they say should be done with any parent, as a guardian of the property, who shows that he can forget his obligations? There are many, in every community, no more considerate about their duty to children than this man has proved himself. A girl by the name of Mary Donoghue, about 12 or 13 years of age, who had been living out at service, was sent home, being accused of dishonesty in some things, and she had taken being found at home, where she told what were present. Her father took a r.w.-hide and gave her a terrible and inhuman beating, of the effects of which she died on Monday last, one week after the punishment was inflicted; she was buried yesterday.—The father who is an indolent and trust-worthy man, is almost crazy at the sad result of his ill-judged treatment of his only daughter."

**FROM MEXICO.**  
Correspondence of the Erie Observer.  
CAMP NEAR MIER, MEXICO, February 25, 1848.  
Messrs. Editors.—In these weak piping times of peace, one grasps with a miser's grip at the very shadow of news—anything in fact, to vary the form of the ennui, if nothing more. "It is so with us, and I do not suppose you and your subscribers are so much removed from the frailties common to men, as not to say aye, aye, to the above premises.  
Under this impression I have concluded to bore you with an account of the capture, and (so far as it has proceeded) the trial of Signor Don (hardname) Gonzalez, a captain of Guerrillas.  
About six days ago the commanding officer of the district despatched an officer and 30 men of the 34 Dragons, to the town of Guirera, about thirty miles distant, to take the "Don." The command made the town just before daylight in the morning. Sentries were placed all about it, and when everything was in order, the gent was woke up and informed that he was a prisoner. This of course raised what might, in chaste language, be called a *pos-tout* among the villagers, who through the "padre" or priest, besought his release. But it was "no-go;" he was brought to Mier and placed in close confinement.  
Yesterday the "council of war" was convened and the charges read to the prisoner.—From these it would appear that he and some of his men were taken prisoners by some Texan rangers in the spring of '47, that he was paroled on his word of honor to return to peaceful life, nor again to raise a menacing hand until legally exchanged, or the war concluded.  
This sacred pledge, it is affirmed, he afterwards violated, and in one or two skirmishes, bore arms against "Los Yankees" contrary to all established rules of honorable warfare. He denies all the premises whereon he is charged with unsoldierlike conduct, and affirms that "by competent false witnesses" he will maintain his innocence. In doing this he manages to account for all the time that has elapsed since he accepted the parole, save the months of August and September, 1847, and I suppose he would for these, only it is notorious that at this period he was with Canales. The Signor answers: "I was pay-master under Canales at the time of my first capture, (in fact he is so designated in the specifications,) and during the aforesaid months I was at head-quarters settling up my pay accounts." Moreover the priest swears to it.  
Gonzalez is a man about forty, of middle stature, slightly silvered with gray, an intelligent eye and countenance, and altogether calculated to excite interest.  
Our witnesses are good, but I think the Mexicans will out-guess us, and the Don be cleared "by the skin of his teeth," sufficiently scared to cure him of all taste for Guerrilla glory.  
There is but one line of conduct to be pursued toward these gentlemen. For the first infraction you must "razzo" with them; (that means give them fifty lashes) and the second offence you must "adjudicate upon," (under this term we understand, hang them by the neck, God bless them.) They don't appreciate our character; yankee lenity is to them but so many evidences of fear and cowardice on our part. So mote it be. "OMEGO."  
The great Iron Master's Convention which came off at Harrisburg lately, appears to have emphatically "went into labor and brought forth a mouse." Its sayings and doings hardly create a ripple in the stream of time—as it certainly did not raise a storm on the political ocean. These conventions to forward private interest are arant humbugs at the best—they never result in any good—and this one has awakened even less interest than any of its predecessors. The correspondent of the Philadelphia Bulletin, in speaking of it, says:—"A number of resolutions have been passed, short addresses delivered, and a great number of fowls and other edibles devoured. It was in contemplation to roast Congress for rejecting the tariff of '45, and Frisco's Mr. Polk for his unnumbered obnoxiousness; but I believe the greatest amount of damage done, was, as I have said, in ridding our land of the tables. In the resolutions adopted, sparse grains of ill-humor are observable, but nothing of a very serious character. A week's time will sweep away the remembrance of its doings, and the world will move on as formerly."  
The National Intelligencer shows its sympathy with the French people, in their endeavors to establish a Republic, after the following Federal fashion:  
The government may have been imprudent, but surely not guilty, as it could have had no other intention than to present tumult. The sympathies of disinterested auditors of the news will, we should think, would be with the French people, who have become obnoxious to the revolutionary party chiefly from its successful exertions to keep France out of war, and to maintain undisturbed the peace of Europe.  
A CHARGE OF MURDER COMMITTED FOURTEEN YEARS AGO.—Mr. John Cook, Sr., of Wicklonden, was arrested on the 13th, on a warrant from Justice Phillips, of Fitchburg, charging him with the murder of his wife, in 1834, by administering arsenic. The friends of the deceased had some suspicion of poisoning at the time of her death, and some recent developments have greatly increased the suspicions. The body was kept in a tomb, and has continued in a remarkable state of preservation. The remains of the stomach and bowels were brought to this city, a few weeks since, by Dr. Alfred Hitchcock, of Ashby, and a chemical analysis was made by Professor Webster, at the Medical College, who obtained four or five grains of arsenic, as testified before the magistrate. The testimony of the nurse of Mrs. Cook, the sexton, and some eight or ten medical gentlemen, showed a strong *prima facie* case against the prisoner, who was committed by the Justice to the Worcester jail, to take his trial for murder at the next term of the Supreme Court.—Boston Courier.

**REQUISITION UNDER THE FRENCH REPUBLIC.**  
Justice Drinker, says the New York Herald, of the 28th ult., received yesterday, from the French vice-consul of this city, a requisition for the arrest of several French sailors, deserters from which has become obnoxious to the revolutionary party. This is, it is said, the first requisition issued under the new republic in this city.  
INTERPRETATION A CRIME.—A committee has been appointed by the Canadian Legislature with instruction to inquire whether drunkenness should not be made punishable, on indictment, as a crime.

**BY TELEGRAPH.**  
Buffalo, April 7.—A. O. C. 10 o'clock 45 P. M. Buffalo Local News.—Two colored named Nathan Porter and Owen Smith committed yesterday for passing a \$100 counterfeit bill of the Chesire Bank, Keeseauville, N. Hampshire, at a Millers' shop in this city. Mr. Ira Osborne has succeeded Colton as landlord of the Westside Hotel. There has seldom been a more general interest pervading our city than upon the recent news from France. It is difficult to give with any approach to accuracy the numbers of those present; but we include the dense mass of spectators who were Main street from Geneva Square to the liberty pole at the time the proceedings, 12,000 would not be too high an estimate.  
New York News.—James A. Black, agent of Congress from S. Carolina, died in England last night. The steamship *Harriet* bound for Southampton, put in to the 28th ult., having experienced heavy weather on the 25th, during which her engine was considerably damaged, her sails, masts, &c. The Tribune has news from Congress sufficient to show the Whig Senators are all re-elected over the Democrats and Abolitionists. So far Whig States are pretty certain chosen in a few counties. Whig Senators are chosen about fifteen of the twenty-one districts. House as far as heard from stands Whig Democrats 75. About twenty towns to be chosen. These will doubtless increase Whig majority as they have nearly all Whig pluralities. The brokers of W. have refused to buy the bills of the Har Grace Bank to-day.  
New York News.—Horace Mann has chosen a member of Congress from the district lately represented by John Q. Adams. A despatch from Augustus, announces arrival at New Orleans with dates to the 15th ult. Later accounts have been received from the City of Mexico. The Telegraph renewal of the difficulties between Gen. Scott and Worth had taken place. Mr. T. had been retained at the Capitol as a witness against Gen. Scott, but he will leave for United States when the Court of Inquiry begins. Gen. Twiggs and a number of officers had arrived at New Orleans. Henry Wilson has succeeded Gen. Taylor as Governor of Vera Cruz. No more policies than are necessary are to be sent superior in view of the immediate withdrawal of the troops.  
Buffalo, April 6.—S. J. P. M. ITEMS OF LOCAL NEWS.—Martin A. Worth, mate of the schooner *Eudora*, lying at the creek near the foot of Commercial, from the jib-boom of the vessel, yesterday afternoon at 2 1/2 o'clock, and was drowned. A flag of all the vessels in the harbor waving at half-mast during the afternoon in token of respect to the deceased.  
New York, April 6.—S. J. P. M. A telegraphic dispatch from Washington states that the funeral of Mr. Black was in the House of Representatives to-day. Members of both Houses, and the President and Cabinet, were present. Rev. Mr. G. ley, chaplain of the House, preached an appropriate sermon on the occasion, from a chapter and 23d verse of the Gospel of John. A large procession attended the main to the Congressional Burying Ground.  
An arrival from Tampico brings intelligence of an attack, which was made upon town of Ocuilama by a considerable force of Indians, but which was repulsed by the inhabitants with considerable gallantry. The attack was made on the 11th ult., by a party of 180 were armed with guns, and the Indians with bows and arrows and small arms. The commenced the attack at 3 o'clock in the morning, and fought till 6 o'clock when they fled in dismay, leaving one dead, and wounded on the field—their exact loss, however, cannot be ascertained, but from appearances it must have been heavy. The town was defended by only 43 men.  
The remains of Gen. Hopping have been sent from New Orleans in the packet ship *Queen*. A telegraphic dispatch from Hartford, says they have certain information of the election of 114 whigs to the House and 13 to the Senate.  
New York Markets.—Flour sold at \$5.50, 60, for Brooklyn, Michigan and Western York, and \$6.50, 62 1/2 for good superfine of Genesee.  
Meal is heavy and quiet, and sells at \$2.50 for Jersey. Rye flour \$3.02 1/2, 37 1/2. Corn 50 1/2 for Virginia and Delaware. Rye 74 1/2, and firm. Oats 43 1/4 for West. New York, April 7.—S. J. P. M. MARKET.—The market for flour is dull and prices heavy. Pure Genesee brings \$6.56 1/2 62 1/2 and common brands, Western York and Michigan at \$6.50, and Western York and Troy \$6.44 a 60. Meal is \$4.4 a 2 50.  
Grain Market not active to-day. Wheat could be bought rather cheaper, but there are no buyers at market rates. Corn was very plenty and the market was rather dull. Yellow Jersey 55 a 56. White Southern prime 56. Rye 75, delivered, which is better. Oats are steady at 45 a 46, for 47 a 48, for canal.  
ITEMS OF NEWS.—The N. O. Crescent has farther Mexican intelligence. A letter from Queretaro, states that a quorum of the members of Congress would assemble on the 1st of March, and concludes as follows:—"Nally, I must say, in my opinion, the treaty of peace will be approved. There may be slight alterations, but in the end all will be concluded, as sensible men desire, and aspire only to a tranquil life."  
Buffalo, April 7.—S. J. P. M. MARKET.—There was a sale on Wednesday of 610 bushels, three good brands Michigan Flour for arrival by the 25th at \$5.12 1/2. Holders are asking \$5.12 1/2 50. Mess pork sells at retail at \$10 and in quantities at \$9.75. Butter at 16 1/2.  
ITEMS OF NEWS.—The contractors and permittees on the New York Canal are directed to complete their work by the 20th inst., if the weather proves favorable. The canal can be done and the canal opened immediately afterward.

Col. Richardson, a prominent supporter of Gen. Taylor in Louisiana, has gone back to the democratic ranks, because he believed Gen. Taylor to be a whig.  
Odd Fellows.  
An exchange paper says there are in the United States more than 1,000 Lodges, with 100,000 members, who pay for the relief of destitute families and sick brothers \$200,000 a year. By the by, we had forgot to notice the institution of a new Lodge of this order in this place, week before last, by D. D. G. M., O. D. Spafford, called the Philadelphia Lodge, No. 293. This is the fourth lodge in the county, and the second one instituted since the establishment of a paper here in opposition to the order. The rate of increase of membership has been in about the same proportion—or about ten for every article wrote against them.

"Thus, H. ELLISON is a duly authorized agent to procure subscribers for this paper."  
Our thanks are due to those of our contemporaries who have so kindly noticed our forth-coming Tri-weekly. We will take the earliest opportunity to repay the obligation.  
Marshal for the Western District.  
We learn that the President has appointed JOHN KEATLY, Esq., of Clarion county, Marshal of the Western district of Pennsylvania, vice Hon. Arnold Plumer, resigned. This is an excellent appointment. Mr. K. is a gentleman of ability, and a democrat of the right sort. Besides the excellence of the appointment, it is a flattering tribute to the indomitable democracy of Clarion county.  
Ex-President Van Buren arrived in Philadelphia the latter part of last week, and was the guest of Henry D. Gilpin, with whom he intended to remain a few days. A public dinner was tendered him by his democratic friends, which he declined.  
Gone Back.
