SCATHING REBUKE OF JUDGE McLEAN. Mr. Senator Foote, of Mississippi, on the 9th inst., alluded to the late anti-war and anti-American letter of Judge McLean in the following justly se

"Sir, one of the Judges of the Supreme court has lately taken it upon himself, whilst the country was ongaged in a war with a neighboring nation, to throw the whole weight of his personal character and official influence against his own government and in favor of the public enemy. He has declared the war with Mexico unjust, cruel and uncristian. He has done more: he has undertaken to dictate to Congress as to the legislation proper to be adopted in relation to this war, and has recommended measures such as would have disgraced the nation, and which no true friend to his country in either house of Congress could ever have sanctioned. He has urged that no supplies should be granted for the support of our army in Mexico—that no authority should be given to Congress for the issuance of treasury notes, so that the government might be compelled, if the war should be continued, to resort to the most grinding taxation; and thus, by the influence of serious suffering upon our people, to con-strain them to demand of the President the recall of our brave troops from Mexico, and the termination of the war, without such indemnity for the past and security for the future as can alone secure the national honor. Sir, I have no words strong enough to express the contempt which I feel for such sentificult juncture of our affairs. It is certain that he has been guilty of a high offence against public decency—that he has expressed sentiments which if acted out, would consign him to the scaffold as a traitor to his contry—that he has soiled, and deeply soiled, the pure ermine of justice, with which he stands invested—that he has soiled, and deeply but a true American in heart, and a wretched devotee to faction in its worst and most accursed form. I will not say that his conduct has been precisely as bad as that of the notorious Arnold: but I do say that our public councils have been profuned by insiduous harrangues that Lucius Cataline himself would have been ashamed to pronounce; and even the high tribunal where a Marshall was once seen to preside with a majestic dignity which acknowledge no affinity with the low feeling of partizian warfare, has been so discredited by a presidency-seeking official, that neither gentleman nor patriot can consent hereafter to be elevated to the noblest and most sacced office in the republic, without feeling that he is hard for the notorious from the high tribunal where a feet of a consent hereafter to be elevated to the noblest and most sacced office in the republic, without feeling that he is should a suspend our subsided—till the first efferencence is a little subsided—till the first efference on a little subsided—till the first efference on a little subsided—till the first efference on a little subsided—till the Consumption. Currently decay at little first efference on the injudy of a troubled and frontly surface.

It is first efferencenc is a little subsided—till the first efference on the injudy of a troubled and frontly surface.

It is first efferencenc in the first efference on the injudy of a troubled and frontly surface.

It is first efferencenc in a little subsided—till the Consumption. Lear Consumption. L cred office in the republic, without feeling that he is disgraced even by the attempt to advance him.

THE PROSPECTS OF PEACE.—The New Orleans Delta, of the 12th, says the last news from Quereraro, up to the 25th of April, again sends the peace stock down. The unanimous opinion of all the officers who have lately come from Mexico was that the treaty would be ratified; but within a few days, says the Delta, intelligence observes have indicated some doubts and apprehensions on the subject. We quote

"The Mexicans are a strange people, and their government is a queer government. The rules and notives which sway and control the actions of other people, and the circumstances which influence the government of other countries, are unsafe premises from which to draw conclusions in reference to the conduct of the Mexicans. They are a peculiar people, who defy all the ordinary principles of human conduct, and put at fault the sagacity of the most profound philosophers and observers. Hence the uncertainty of their political affairs—hence the utter folly of predicting to-day what will occur in Mexico to morrow. Though we have ever been distrustful of appearance in that country, and have had faint hopes of a speedy conclusion of hostilities, we sately yielded to the many concurring proofs in favor of the probability of an early ratification of the treaty. The retiracy of Santa Accounts the sate of the probability of Santa Accounts the sate of the probability of an early ratification of the bridge on?".

the government at Queretaro by all the States, the c influences of the armistace, and the failure of Paredes, were all most favorable indications of an approaching peace. The French Revolution was not without its happy effects on the peace prospects. That event prostrated the monarchical party in Mexico, which had some strength, independent of Paredes, who, personally, has but little influence. The foreigners, Spaniards and others, forming a body, at a friend who had fallen overbeard? Would you sources and influence, embraced with arder the pro- len on a brother? Would you throw a keg of powjet of introducing a foreign prince into Mexico. But native Mexicans, who were as bitter against royalty, red from the path duty? Why denounce him and as we are in this county. The Puros, or Radicals, spurn him from your presence? Can you be a stranregarded this intrigue with the most passionate jeal- ger to the human heart-you who have so often falouswand hostility. They naturally exaggerated its len? and dwelt upon its horrors to such a degree, that it inflamed their minds to a fever heat. Prompt ed by this strong apprehension, they have heretofore opposed a peace with the United States, thinking that a retiracy of our army would leave Mexico in so poor and defenceless a state, that she would become an easy prey to the monarchists. They preferred the temporary and mild government of our martial law, to the chances of the permanent and oppressive domination of a fore on prince. Being admirers of domination of a fore gn prince. Being admirers of moment. The only paper on board was the Free our institutions, they hoped, too, to bring about a American, of the 5th inst., containing dates from more intimate intercourse between the two Republics, and the adoption into the Mexican Government of some of those elemets of strength which characterize our Constitution. But the French Revolu tion, it would seem, had swept away all the pretext and grounds for these apprehensions and fears in regard to the monarchists. With Louis Phillippe fell the Mexican monarchy, with many anothe scheme for the extension of monarchical principles and influence. All the power and energies of old Europe will be taxed to preserve her present kingly systems, without leaving to any of her states the means or the desire to propagate monarchism in dis-and steamer Scourge in port, officers and crew all tant and foreign lands. The utter demolition, then, well, schre. Exit Amy, Captain Gunby, was lost of this whole Mexican intrigue, set on foot by Louis off Frontaro, on or about the 30th ult., loadedd with Philippe, Queen Christian, and Paredes, leaves the coal for the government. of Construction, Equipments and Repairs has within the last year essentially economized the system of building T. S. vessels, so as to reduce their cost, it may prove, twenty-five per cent. This has been effeeted by simply putting no unnecessary "finished" work on the frame and other parts of the vessel

ship and unship, and thus remain serviceable as ong as the vessel may last. This is anadmirable reform, and bids fair in the end to prove of equal value to the public treasury and the service.

THE USE OF PHILOSOPHY.

A philosopher stepped on board a ferry boat to cross a stream. On his passage he inquired of the ferryman if he understood Arithmetic. The man looked astonished. "Arithmetic! No sir! I never heard of it be-

The philosopher replied. "I am very sorry, for one quarter of your life is gone." A few minutes afterwards he asked the ferryman "Do you know anything of Mathematics?" The boatman smiled and again replied,

"Well, then," said the Phiospher, "another quar-

A third question was asked the ferryman-"Do ou understand Astronomy?" "Oh, no sir-never heard of such a thing." "Well, my friend, then another quarter of you

Just at that moment the boat ran on a snag and was sinking, when the ferryman jumped up, pulled off his coat, and asked the philosopher, with great earnestness of manner, "Sir, can you swim?"

"No," said the philosopher. "Well, then," said the ferryman, "your whole life lost, for the boat is going to the bottom."

What Edmund Burke said in 1790, is what al ments as thir judicial functionary has dared to avow. What Edmund Burke said in 1790, is what all I know not which most to condemu, the 'unpatriotic thinking men say now:—"When I see the spirit views which he promulged, or his unblushing au- of therty in action, I see a strong principle at work; decity in attempting to dictate to Congress as to the proper course to be pursued at this delicate and difficult juncture of our affairs. It is certain that he loose; but we ought to suspend our judgment until has been guilty of a high offence against public detthe first efferescence is a little subsided—till the

> having in charge the funds, &c., contributed by our citizens for the sufferers by the late fire, met vesterday afternoon at the Merchants' Exchange .-The committee have labored assiduously in the discharge of their duties, and have thus far expended about five hendred dollars in reliving the immediate wants of a great numerb of poor families thrown upon the charity of our citizens, without hardly a mouthful of bread saved from the ruins. Applications in great number still continued to be made for relief, which are promptly attended to. The whole amount of contributions that have thus far been made, we learn, is about two thousand dollars, which will probably be yet increased .- Detroit

Free Press. As we stood talking with a volunteer, the other lay, who was returning from Mexico to his home in Massachusetts, the veteran solder happened to notice a dog on the opposite side of the street whose jaws were very substantially and securely fasteard together by a large leather strap, which encircled his nose, thence over the forehead, under his throat ond then around the neck—somewhat resembling a halter. The man in blue looked at the quadruped

for a moment, and then inquired:

ranged in that manner to keep his mouth shut, so that he may injute no one; and also in obedience to the law. "Well," sa'd the patriotic old soldies, after a mo-

ment's pause, "I'll be d if I don't think you had better take it off the dog, and put it on Tom Corroin. -N. O. Crescent. ERRING BROTHER .- Would you throw a brickbat gather stones and pile them on a bank that had ful-

der to a friend who had fallen in the fire?-Thenhis idea never met with the slightest favor from the why heap words of repreach upon him who has er-

He cannot know the human heart, Who, when a lweeker brother errs, Instead of acting Mercy's part, Each base malignant passion stirs. Harsh words and epithets but prove That he binneff is in the wrong— That first he needs a brother's love. To nerve his heart and guide his tongue.

MEXICO .- The barque Catharine, Captain Butler. arrived here last night from Vera Cruz, having left that port on the 7th inst. She brings no news of the city of Queretaro to the 25th ult. The only subject of interest noticed therein is the treaty .-The deputies to the Mexican Congress are severely commented on, by their indifference and supineness in allowing the government to languish in inaction, through the want of a quorum to go to buisness. The editor of the Free American finds great fault with the authorities at Vera Cruz, for vexations conduct to the trades-beople there.

FRONTARO-Mexico.-Captain Lentz, of the sch Relampago, from Frontaro, (Mexico,) the 6th inst., reports, the United States bomb-brig Et na well; schrs. Exit Amy, Captain Gunby, was lost loss. No lives lost. The schr. Galena was at ment. The brig Detroit, of New York, and the brig Lawrence, of New Orleans, for Havana, were

calculate upon the ascendancy in the future p litical contests of Mexico. They would therefore have strong motives for peace. Their accession to the peace-party would place the ratification of the treaty beyond all doubt. But they still hold against peace. The most prominent of them, Gomez Farias and others, stand aloof from public affairs, whilst Rejon, an able and astate man, as ex-Minister Shannon perhaps remembers, and Almonte, are openly and strongly opposed to the party.

The old cry, "no quorum," still reaches, us from Queretaro. As fast as new members come to fill the vavancies, new vacancies are caused by departure. Pena y Pena's work of organizing his Congress, is very much like the punishment to which the daughters of Dariaus were condemned. They were required to fill with water a vessel, whose butter m was full of holes, so that the water ran out as soon as poured into jit. "Thus," saith the poeting their labor was infinite, and their punishment eterpial."

DR. TOWNSENDS BARBAPARULA.

THE MOST EXTRAORDINARY MEDICINE IN THE
WORLD.—This extract is put up in quart bottlest it is six
times cheaper, pleasanter, and warranted superior to any sold. It
cures diseases without vomiting, jurging, sickening or debilitating
the nation.

cures diseases without vointing, jurging stacking or destinating the patient.

GREAT FALL AND WINTER MEDICINE.

The great heauty and superiority of this Sarsaparilla over all other medicine is, while it eradicines diseases, it invigorates the body. It is one of the very besi Fall and Winter medicines ever known; it not only purifies the whole system, strengthen the person, but it creates new, pure and tich blood; a power possessed by no other medicine. And in this lies the grand secret of its wonderful success. It has performed within the past two years, more than 33,000 cures of severe cases of disease; at least 20,000 of these were considered incurable.

derful success. It has performed within the past two years, more than 33,000 cures of severe cause of disease; at least 20,000 of these were considered incurable.

More than 3,000 cases of Chronic Rheumatism;
2,000 cases of General debility and Want of Energy;
7,000 cases of General debility and Want of Energy;
7,000 cases of General debility and Want of Energy;
7,000 cases of General debility and Propsy;
8,000 cases of General debility and Propsy;
8,000 cases of General debility and Propsy;
9,000 cases of Consumption;
And thousands of cases of the Kidneys and Propsy;
1,000 cases of Consumption;
And thousands of cases of diseases of the blood, viz: Ulcers, Erysipelas, Salt Rheum, Pinples on hie Face, &c., togother with numerous cases of Sick Headache, Pain in the Bide and Chest, Spinal Affections, &c., &c.

This, we are awate, must appear incredible, but we have letters from Physicians and our Agents from all parts of the United States, informing us of extraordinary cures. R. Van Buskirk, Esq., one of the most respectable Bruggists in Newark, N. J., informs us that he can refer to more than 13t cases in that place alone. There are thousands of cases in the City of New York, which we will refer to with pleasure and to men of character. It is the best medecine for the preventative of disease, and prepared them for the Summer season. It has never been known to injure in the least the most delicate child.

This Sarsaparilla is used with the most perfect success in Rheumatic complaints, however severe or chronic. The astonishing cures it has performed are indeed wonderful. Other remedies sometimes give temporary relief; this entirely eradicales it from the system even when the limbs are dreadfully swollen.

The Arm N. Seth Terry, one of the oldest and most respectable lawyers in Hartford, Conn. The following is an extract of a letter received from him:

Bar Townsen.— In the tendence of the contract of a letter received from him:

lawyers in Hartford, Conn. The following is an extract of a fetter received from him:

Da, Townsend.—I have used one bottle of your Sarsoparilla, and find it is excellent in its effects upon a chronic Rheumatic pain to which I am subject, from an injury occasioned several years ago, in a public stage. Please send me two bottles to the care of Dr. Seymour. I have conversed with two of our principal physicians, and they recommend your Sarsoparilla.

Hartford, March 12, 1845.

SETH TERRY. CONSUMPTION CURED.

s. W. CONANT.

GIRLS, READ THIS. You who have pale complexions, dull eyes, blotches on the face, rough skin, are "out of Spirits," use a bottle or two of the Boctor Townsend's Sarsaparilla. It will cleanse your blood, remose the freekles and blotches, and give you animation, spatkling eyes, fine spirits, and beautiful complex on—all of which are of immense value to unmarried ladies.

TO MOTHERS & MARRIED LADIES.

This Extract of Sarsaparilla has been expressly prepared in reference to female complaints. No female who has reason to suppose she is approaching tilat critical period, 'the turn of life,' should neglect to take it, as it is a certain preventative for any of the numerous and latrille diseases to which females are subject at this time of life. This period may be delayed several years by using this medicine. Nor is it less valuable for those approaching womanhood, as it is calculated to assist nature, by quickening the blood and invigorating the system. Indeed this medicine is invaluable for all the diseases to which women are subject. ubject.

It braces the whole system, renews permanently the natural en-rigities—by removing the impurities of the body—not so far stimu-ating the system as to produce a subsequent relaxation which is the case of most medicines taken for female weakness and disease.

SCROTULA CURED. SCROFULA CURED.

This certificate conclusively proves that this Saraparilla has periect control over the most oblifficity diseases of the thood. Three persons cured in one house is disprecedented.

Dr. Townsend—Rear Sir: I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine. They were afflicted very severely with bad sores, have taken only four totites; it took them away, for which I teel myself under deep obligation.

Yours respectively.

Now York, March 1, 1847.

Now York, March 1, 1817.

CAUTION.

Owing to the great success and timenese sale of Dr. Townsend's Sarsaparilla, a number of men who were formerly our Agents, have commenced making Sarsaparilla, Lilairs, Bitters, &c. &c. They generally put it up in the same shaped bottles, claiming that theirs is far superior and four times stronger than Dr. Townsend's, &c., hoping thereby to deceive the public. Some of these unprincipled men publish counterfeit certificates; others have induced their brothers and other interested persons to allow the use of their rannes, to which they put esquire to give them respectable names procured by using Dr. Townsend's Sarsaparilla, publishes them as cared by his shaff. He also publishes the certificate of a person who styles himself an M. D., who mends hoes, digs wells, and doctors horses by tarus for a livedipout. They also published certificates signed by fictitious names stating they have used Dr. Townsend's Sarsaparilla, not that it fourted them &c. These, and a Counterfeits.

Notice.—After the first of Japhary, 1849, none will be genuine unless they are put up with a diagnificent copper plate label, containing the fac simile of Dr. Tewnsend's name, thus—S. P. Town-

100 M. SHINGLES for sale at the Eric Steam Foundry.
April 29, 1848. LESTER, SENNETT & CHESTER. Fairview Woolen Factory.

Weallister's All-Bealing Cintment.

A BOUT the year 1847, I was living in the western part of this state pursuing the occupation of a farmer. One day while chopping in the wood! I foolishly chopped my foot nearly off, instead of the tree. During this mistoriume I employed myself in perusing the fragment leaves of an old volume, printed in England some hundred of years ugo. Among these scattered leaves I read of an herb which had been analyzed by some of England's ancient Alchemysts, showing properties and qualities never before! o und in any plant that was ever discovered.

This one herb, under the force of the Retori and Crucible, developed more than ten distinct properties. This fact struck my mind so forcibly, that it was impossible for me to get rid of it. Bomething seemed to tell me that Providence, whose special care is extended toward all his creatures, had never concentrated into one small herb so many medical qualities, as various and as complicated, although perfectly identical as the human blood, without a wise and good purpose. Here was to be found the acids, the alkalies, the oils, the water, the air, the saits, the soda, &c., all combined, concentrated, and chemically united into one single element of power, forming substance more allied and in affilinity to the human blood than was ever before discovered in the works of nature.

Laboring under these impressions for several years I became uneasy and discontented, and unwilling to confine myself to the duties of a farmer.

Leverything seemed to point my mind to one object, viz: the preparation of this liter's into medicine. I then determined to return

Laboring index meses impressions for several years years and discontented, and unwilling to confine myself to the duties of a farmer.

Lyerything seemed to point my mind to one object, viz: the preparation of this lieft into medicine. I then determined to return to the city of New York. I did so, and immediately inquired for the herb. It was not to be found. I then sent to Europe and there found it under another name.

Hat ing prepared the article to my satisfaction, I gave it away to all who would use it. Illundreds, I might say thousands, took it into their families and used it, some for one thing and some for another, all from the very first to the very last, pronounced it of unrivalted excellence and power.

The first case that came under my observation was a man that had lost the use of his arm for some years. This surprised me as much as it did the patient. After him came a man with sore eyes produced by gunpowder—a very bad one indeed. One lox only, sufficed to make a perfect cure. And I would here remark that hundreds have been cured of sore eyes who never found any relief save in this ointment.

There next came a woman who was suffering excruciating pain from the ague in the face. Her physician (thinking it the toothache) had extracted seven of her teeth. But the difficulty remained as bad as ever. The application of the All-Healing Ointment was attended with immediate cessation of pain. Her face quovere tegan to swell, and the surface was covered over with pimples eruption like prickly hebt. In one day all this disappeared. About the same time, a lady made application with it for the headache of long standing, and a falling of the hair. Sleec this I have known

months.

Rheumanism, Fever, Quincy, Sore Throat, Cutaneous Eruptions Diseases of the Spine, and Nervous Complaints were treated with unheard of success. But for Chest diseases, such as Asthma, Pain and oppression, I believe is no letter remedy. Also, the common diseases, such as Ulcer Sores, Scald Head, Humors of the Skin, Infamation, Piles, Sore eyes, Spains, Bruises and Buras, if seems to be a perfect antidote. People would come into the store suiting, wishing to klow if I was really the Seventh Son, or whether the Ointment that I gave them was, indeed, All-Healing in its nature. For said they, not one single application has failed to cure. Liver Complaint, particularly, was treated with great and universal success.

Liver Complaint, particularly, was treated with great and universal success.

It produced such good results in all cases, that it has been noised abroad, and I was offered sums of money for a receipt, to make it for private use merely. Every man spoke well of it, as it had done so much good.

Notwithstanding all, I have been cateful not to recommend it, except in cases I know it would do good. I was never willing to lend myself to any thing without testing its merits. This I caured exacted to do on every occasion, and when I acted as one as the Sick Committee in the Lodge of I. O. of O. F. I then tested it upon Brothers in the most critical conditions, and had abundant opportunity of proving its worth.

And in conclusion, I would remark that I have placed this Ointment before the people of the U. Sunes during the last 9 or 12 mo's and so general has been the satisfaction, and so general mount of good done, that more than half a million of boxes has been sold. I do really believe there never was a medicine which gained such wide spread, universal and unanimous satisfaction as the Ali-Ilcaling Ointment. From all parts of the land there have come up one deep, sincere, and universal voice of approbation, saying Mc-Alister, thy tongue hath dropped the word of truth and love, while health forever nitends thy footsteps." And were I now to give all the good sayings of the people, their unqualified approval, their thankfulness and gratitude, their joy at recovering from disease and sickness, I could fill a volume.

sickness, I could fill a volume.

JAMES McALISTER, New York.

The above medicine may be bad at the Drug and Cheinics

Store of BURTON & PERKINS, Eric.

HEAVES! HEAVES! HEAVES!

THERE never was a remedy discovered, by the ingenuity of man for removing discases from Hores, that equalled COLEMAN'S HEAVE POWDERS, in curing that most troublesome, obstinate and dangerous complaint. If a case is at all curable, these powders will just as surely remove it as they are taken. This is no fiction, as many of the most respectable persons in different parts of fletion, as many of the most respectable persons in different parts of the country, can testify from actual trial. One, two, or three bottles at most, is all that is necessary to cure the worst cases; also in cough and where the wind has been injured, ONE bottle will be found of great service. And what is the cost of three bottles compared to the loss of even an ordinary horse? Try it then, you who have horses suffering for the want of slech an article. Price Sucs. GREATEST MEDICINE OF THE AGE: GREATEST REDICINE OF THE AGE!
STANTION'S EXTERNAL REMEDY, CALLED HUNT'S
LINEMENT, has received the above title from thousands who
have been benefitted by its use. Its operation is wonderful. Never failing to give immediate relief, and permanently curing the discases for which it is recommended. For the last year I have placed before the public testimony of undoubted character from immy
persons well known throughout the county of Westchester, where
the great reputation of this medicine was first established. During
the past year I have received from all parts of the county a mass
of evidence of the great value of this celebrated remedy sufficient
to fill volumes, of which I have selected a few certificates. For
the following diseases Hunt's Liniment is a certain, safe and speedy cure

the following diseases Hun's Limment is a certain, said and specific of cure.

Rheumatism, Spinal affection, Weakness and Pains in the back and chest, contractions of the muscles, sore Thront, Quinsey, Issues, Ulcers, Ague in the breast and face, Tooth ache, Sprains, Bruises, Sait Rheum, Burns, Croup, froated Feet, Bunions, Corns, and all diseases of the Nerves. As a strengther of the Nervous Spstem it exceeds all the players and medicines in the world. It is only necessary to try it to be convinced that it will do all that the proprietors professes. Its reputation is constantly increasing, and in every instance where it has been used it is always kept as a necessary Family Medicine. Read the evidence from abroad.

CERTIFICATE.

Geo. E. Sunton—Dear Sir: 1 consider it my duty to express my sentiments in behalf of your invaluable medicine, Hust's Limiment. I have for some time past used the Liniument in my practice, for various diseases, and feel satisfied, from the success attending its applications, that it merits all that can be said it a its behalf. I consider it one of the best external remedies I have ever used in care of Teuer, Ringworm, Salt Rheum, Fains, Bruises, Swellings, Cuts, &c. The cheap rate at which the article is to be had, places it within the reach of all. It should form the principal external remedy of every family.

This Liniument is sold by all the respectable Merchants, & Druggiest throughout the country, and by the Proprietor at Sing Sing, N. Y.

GEORGE E. STANTON.

For sale by J. H. Burton, Erie; B. C. Town, North East; S. L. Jones & Co., Girard.

Jones & Co., Girard Erie, May 1, 1842. 6m50 NEW GOODS FOR THE POPULAR TRADE. "VIVE LA REPUBLIQUE!" VIVE LES PILLULES VEGETALES INDIÊNNES DE WRIGHT! LONG LIVE THE REPUBLIC! LONG LIVE WRIGHT'S INDIAN VEGETABLE PILLS !!- Another crisis in the affairs of humrnily has passed: another FEVIR turned; the hostile elements have met—the battle is fought and won!

FRANCE IS PREET
A long struggle it has been—first bursting into the gild excesses of sudden political emancipation—then relapsing under a victorious leader; then snapping the chains imposed by the allied powers -and again yielding to time-serving conservatism. But France had tasted the sweets of Liberty. Could she forget it? No: Her perfidious king was, in the splendor of his power, driven ignomin lously from his throne and France—glorous; liberty-loxing France, has again taken her place in the van of nations. VIVE LES PILULES VEGETALES INDIÈNES DE WRIGHT: Napoleon said that "the stomach governs the world." Nations are distinguished by the quality of their cookery, and are indebted While the ancient Romans lived in simplicity, they were invited lowed, until they were no longer able to resist the more hardy ortherners. By improving digestion, and removing morbitic hoors, Wright's Indian Vegetable Pills become a great moral and political engine. They clear the head, and by the buoyancy of spirits which they impart, improve the heaft. They thus exercise powerful influence in favor of civil liberty. The energy of a people depends measurably upon the health of a people, and the maintenance of their rights depends upon their energy. Therefore give health, and you give energy, and sustain popular government it brings, but for the gigantic interests which depend upon it. Let Wright's Indian Vegetable Pills be used in the spring, to prevent lisease in the fall. Had Louis Philippe been a man of common sagacity, he would have ceded to the people those little reforms for which they asked, and would thus have staved off a revolution .-But he not only denied them, but added insult to injury, by curtailing the few privileges which the people had. Matter and mind

as, by moving in time, the e_{λ} il day is postponed indefinitely. "VIVE LA REPUBLIQUE!" VIVE LES VEGETALES PILULES INDIENES DE WRIGHT

HORRIBLE MISTAKES!! Are sometimes made by confounding one medicine with another, and administering the wrong article. Equally horrible are those mistakes which are made in supposing that all Pills are a like, and that therefore, it is indifferent which are taken, and if one kind is bad all are bad together. This is a very great mistake.—
There is as much difference between Wright's Payar Vegerame Pluts and other articles as between midseight and monday!—
We do not wish any to take our word merely for this statement. We do not wish any to take our word merely for this statement.— Let any one, having taken other medicine, try this. Nothing more

Let any one, having taken other medicine, try this. Nothing more will be necessary.

Many persons have been led away by a Coatiso or Stoam as if they anticipated that it would remove the nausea of the medicine. But they are generally mistaken. Without the scoam those articles have nothing to recommend them, and would not be sold a single day. But with the sugar, and by giving the article a name similar to Wriotit's Indian Vegetable Pills, they gain a temporary motoriety. Wolves they are in sheep's clothing, of whom the public should steer sufficiently clear.

Let it be remembered that Wriotit's Indian Vegetable Pills, are prepared with special reference to the laws governing the human body. Consequently, they are always good, always useful, always effective in rooting out disease. Every family should keep them at hand.

atways elective in rooting out disease. Every taining should keep them at hand.

AGENTS.—O. D. Spafford, Erie; W. & P. Judson & Co., Waterford; John McClure, Sen. Girard; Abraham Tourtellout, Union; Riley Potter, West Springfield: W. H. Townsend, Springfield; B. C. Town & Co., Wattsburg and North East.
