## A Sailor's Tuneral:

He is not where his fathers lie. He sleeps not where they sleep-His name, a wreck of memory, His dwelling place the deep-Down 'mid unfathomed gulfs he lies, And occan's unveiled mysteries.

For he is gone, where cave and hall With coral garnished. And darkness for their funeral pall, Receive the ocean dead: Where the sea monsters have their home, But men and sunbeams never come.

Grey was the dawn, and not a braid Curl'd on the billow's brow. While on the deck the prayer was said, And he was cast below. Into the waveless, glittering sea, That closed above him tranquilly.

We watched the circle on the wave. The dreary plunge had given, And saw it widen o'er his grave, And pass away, where heaven Met the smooth waters' darker blue, And blended their ethereal hac.

They wrapped no shroud his limbs around, No bier sustain'd his form; About the corpse its bed they bound, Which, oft in calm and storm, The slumberer and dreamer bore, Who now shall dream and wake no more.

Sicken'd and sad we turn'd away, From that sad sight of gloom; The solitude of sea that day Seemed but one mighty tomb, Burying all thoughts but thoughts of woe-Asking who next shall plunge below!

ARREST OF A NEGRO DESPERADO.

At Natchez, Miss., on the 8th instant, the police officers of that place, at the imminent hazard of their lives, succeed in arresting a runaway, almost an outlaw, named Sol, or Solomon. He was formerly owned by Philip Sisloff, of this city-has been sold twice at least, since, and now probably belongs to some planter on the Yazoo, or in the northern part of the State. He has been a ruaway for nearly two years, and had his hiding place, with all the stolen comforts of life around him, in some bayou, miles distant from Natchez; yet such was the hardihood of his character, that he daily visited the city-had a home in some quasi free negro's house, and defied the law, and the officers of the law. In the double character of preacher of the gospel and conjurer, he had acquired quite an ascendancy over the negro people with whom he became acquainted; has seriously proposed marriage to a negro woman, slave of one of our citizens; and at the same time amused himself with abducting Charlotte, a young colored girl belonging to Mr. Vinnigerholz, of Natchez, whom he decoved to his retreat, where he reigned as chief bandit over the runaways and outlaws. Like his namesake, Solomon of old, Sol was fond

of the fair sex; but justice was too quick on foot for him. His retreats and character became known. He was hunted by the officers of the police, and the girl, Charlette, was run down, when the information extracted from her, led to his arrest day before yesterday, after a despernte and bloody resistance. He was found in the house of a colored man named Green, from which he ran, pursued by the officers. In getting over a fence, he fired a pistol, and came\_almost within a hair's breadth of hitting police officer Bonbrook. He gained the house of Mr. Purnell, ran into the parlor, bolted and barricaded the doors. He exploded the cap of another pistel at the breast of captain Dillon, of the City Guard, intending to with an axe, when the officers brought him within range . He even then, with the hair triggers drawn upon him, for a time refused to surrender, demanding that the officers should disarm benally captured, with some wounds and will now have to where I am."-Albauy Bee. await his trial for life. A number of the fugitives he commanded in his den, are well known by name, and it is hoped that the capture of so attrocious a villain will lead to their arrest, - Natchez Free Trader.

## LENGTH OF HUMAN LIFE.

We notice in sue of the New York papers a brief report of a lecture delivered recently in that city by Prof. Mason, on the economy of individual life, from which we are able to select some interesting facts in relation to the average extent of human life. This of course has varied ut different periods of the world, and still varies in different countries under the influence of education, morals, food and other circumstances. As an instance of the variation alluded to, we may remark that in the 16th century the average extent of life in Geneva, Switzerland, was so remarkably fow as nine years, which the professor attributed to epideniical diseases, bad food, bad dwellings and continued warfare. The learned men of that country, however, directed their attention to the cause of premature death; and under their care a system so per fect, has been established, that the citizens of Geneva now live to a greater age than those of any other city on the globe. Similar changes have taken place in Great Britain since by the means of the improvements in science, the average of human life has been elevated from .17 to 50 years. The scripture gives three score years and ten as the limit of human eixstence, and Prof. Mason contends that whenever the medical jurisprudence of a recentry can, as in England and this country, enlarge the average duration to 50 years, the remaining twenty of the scriptural limit are generally cut off by intemperance and hereditery disease. In Mexico the average of human life is only 15 years, which circumstance alone is sufficient to show the vast difference existing between the the moral and physical condition of that people and our

THE Doc.-The Cincinnati Signal reports a case canine sagncity worth repeating. A poor, ragged, scrub of a cur lay on the pavement, revelling in the warmth of the sun, and near him an infant was amusing itself, without any guard save the dog. The child in its gambols progressed into the road, up which a horse was proceeding at a smart pace; the dog, watchful ever, bounded from his position, with a loud bark, and before the horse came mear, had caught his little charge by the clothes, and deposited him safely at the step of the door. He then imanediately resumed his old posture.

Who is Old?-A wise man will never rust out. As long as he can move or breathe, he will be doing somesomething for himself, for his neighbor, or for posterity. Almost to the last hour of his life Washington was at work. So were Fronklin, and Adams, and Young, and Howard, and Newton. The vigor of their lives never elecayed. No rust marred their spirits. It is a foolish RAISINS.—Best quality by the box or single lb. at No. 5 Bonne Richest and Raising and Rai idea to suppose we must lie down and die because we are laborer in science, art or benevolence; but he only who saffers his energies to waste away, and the springs of life to become motionless; on whose hand the hours drag heavily, and to whom all things wear the garb of gloom.

Is be old? should not be put; but, is he active?—can he old. Who is old? Not the man of energy; not the day hreathe freely and with agility? There are scores of grey-headed men we should prefer in any important enterprise, to those young gentlemen who fear and tremble at approaching shadows, and turn pale at a lion in their path, a haish word or a frown.

HAS THE WORLD A TAIL?-"Pa, has the world got a tail?" asked an archin of its father. "No, child," replied the old un impatiently; "how could it have one green it is round?" "Well," persisted the heir, "why goes the tobers soy. to wake the world, if it sint got tail to wag about?" "Your ma wants you," replied the non-plussed daddy.

FRANCE.-Paris is still agitated. The resignation of Louis Napoleon postponed the trouble for the present.-Six candidates for President are already in the field. M. Lamartine, Thiers, Prolio, Louis Bonaparte, M Marast, Caviagnae and Causidiere, Ex-prefect of Police. The Orleans party will support Thiers, and Berryer has declared in his favor. The legitimists are divided between M. Thiers and Lamartine. If the elections were soon to take place little doubt exists that Louis Bonaparte would be the successful candidate. The feeling exhibited by the French in his favor leaves no doubt in the event of a Presidential election, in almost every electoral college in France. Accordingly the constitution has already been altered to meet the first difficulty in the working, and the President instead of being elected directly by the people, unless he has an absolute majority of the votes given, is to be elected by the National Assembly, from 5 persons retained by the people. The election of Prince Louis Napoleon as Colonel of the 48th Legion of the National Guards, of the Baulcue, vice

The war in Denmark continues unabated. There was an outbroak at Berlin on the 13th of June, with the Burghr guard, arising out of an attempt to disperse some laorers who had gone to the minister to demand work or noncy. Being refused, the guard attempted to disperse hem, and they were surrounded. The news went like ightning. Barricades were formed and the arsonal was unroofed. At 11 o'clock at night an attack was made on it, and about 2000 stands of arms taken as trophics of var. The next day was quiet, and it was moved that the Assembly should send away all the troops, and put themselves under the protection of the people. It was arried, and the Government resigned.

At Prague, the King having refused to confirm the provisional government, and Prince Winvscutgratez saving erected batteries around the town, the mob and he students arose en masse, and demanded arms.

A REMARKABLE HEN .-- Mr. Blucher, of Farm Isle, (Isle of Shoals) owns a hen that accompanies him daily in his fishing boat, and denotes satisfaction at unusual success, by audible demonstrations. The hen also goes in his boat to Portsmouth, scrambles on to the wharf, picks about in the vicinity never failing to be "on hand" when wanted. Mr. Blucher brought up this hen by hand, and she would never roose or keep with the poultry; she also has the crow of the male and the bearing of the game cock. All the animals on the farm, pay the hen marked respect; even the great house dog, and an immense tom cat, seems to take it as a matter of course to obey the hen. CERTIFICATE.

Geo. E. Stanton—Dear Sir; I consider it my duty to express my sentiments in behalf of your invaluable medicine. Hunt's Limiment. I have for some time past used the Limiment in my practice, for various diseases, and feel satisfied, from the success attending its applications, that it merits all that can be said in its behalf. I consider it one of the best external remedies I have ever used in case of Tetter, Ringworm, Salt Rheum, Pains, Bruises, Swellings, Cuts, &c. The cheap rate at which the article is to be had, places it within the reach of all. It should form the principal external remedy of every family.

RHEUMATISM.

This Sarsaparilla is used with the most perfect success in Rheumatic complaints, however severe or echtonic.

The astonishing cures it has performed are indeed wonderful. Other remedies sometimes give temporary relief, this entirely eradicates it from the system even when the limbs are deadfully swollen.

Dr. Townskin—Dear Sir: Nearly twenty years ago I took a violent cold which settled on my lung, and affected severely; indeed, finally it became a constant hacking cough, but not so severe as to prevent me from attending to my busines. Within the last few years it increased on me gradually. At last I became reduced—I breathed with difficulty, and raised with my Cough much bad matter, and for the last me month sprevious by my using your Sarsaparilla, had regular night sweats; indeed, my friends and my self supposed that I would die with the consumption; but I have the happiness to inform you that to my surprise, after using three bottles of your Sarsaparilla, I find my health restored. It frelieved me gradually, and I am enjoying better health than I have for 28 years. I had almost entirely lost my hyperite, which is also returned. You are at liberty to publish this with my name in the papers, if you choose.

My little girl, who is three years old, had a very bad cough the whole of last Winter. While using the medicine I gave her some of it; and its soon entirely relieved her, as well as myself, and she is now well and hearty as any child I eyer saw. She was also full of little blockes; it took them away and her skin is smooth and fair now; and I am satisfied she recovered her health from using your excellent medicine.

S. W. CONANE.

Vou who have pale complexions dell eyes, lictebes on the face, rough skin, are "our of spirits," use a bottle or two of the Doctor Town-end's Sersaparilla. It will clejmse your blood, remove the freekles and blotches, and give you adjunation, sparkling eyes, fine spirits, and beautiful complexion—all of which are of minense value to unmarried ladies.

TO MOTHERS & MARRIED LADIES,
This Extract of Sarsaparilla has been expressly prepared in reference to lemale complaints. No female who has reason to suppose she is approaching that critical period, "the turn of life?" should, neglect to take it, as it is a certain preventative for any of the numerous and theretied the control of the life. subject.

It braces the whole system, tenews permanently the natural energies—by removing the impartities of the body—not so fir simulating the system as to produce a suffequent relaxation which is the case of most medicine, taken for female weakness and disease.

SCROFULA CURED.

This certificate conclusively proves that this Sursaparilla has perfect control over the most plastimet lifecases of the blood. Three persons cured in one house is unprecedented.

THREE CHILLIPREN.

Dr. Toursend—Dear Sir! I have the pleasure to inform you that three of my children have been curedfor the Scroula by the use of your excellent medicine. They were addicted very severely with bad sores, have taken only four houles; it took them away, for which I feel myself under deep obligation.

Yours respectfully.

McAllister's Alt-Lealing Cintment.

A BOUT the year 1847, I was fiving in the western part of this A state pursuing the occupation of a farmer. One day while chopping in the wood, I foolishly chopped my foot nearly off, instead of the tree. During this misfortune I employed myself in perusing the fragment leaves of lan old volume, printed in England some hundred of years ago. Among these scattered leaves I read of an herb which had been analyzed by some of England's ancient Alchemysts, showing properties and qualities never before 0 and in any plant that was ever discovered. This one herb, under the force of the Recort and Crucible, developed more that ten distinct properties. This fact struck my mind so forcibly, that it was impossible for me to get rid of it. Something seemed to tell me that Providence, whose special care is extended toward all his creatures, had never concentrated into one small herb so many medical qualities, as various and as complicated, although perfectly identical as the human blood, without a wise and good purpose. Here was to be found the acids, the alkalies, the oils, the water, the air, the salta, the soda, &c., all combined, concentrated, and chemically united into one single element of power, forming substance more allied and in affilinity to the human blood than was ever before discovered in the works of natural Laboring under these impressions for several years I became unof power, Jorning substance more allied and in affilmity to the human blood than was ever before discovered in the works of nature.

Laboring under these impressions for several years I became uneasy and discontented, and unwilling to confine myself to the duttes of a farmer.

Everything seemed to point my mind to one object, viz: the preparation of this herb into medicine. I then determined to return to the city of New York. I did so, and immediately inquired for the herb. It was not to be found. I then sent to Europe and there could it under monther name.

In the left. If was not to be found. I then sent to Europe and there found it under another name.

Having prepared the article to my satisfaction, I gave it away to all who would use it. Hundreds, I might say thousands, took it into their families and used it, some for one thing and some for another, all from the very first to the very last, pronounced it of unvisibled architecture and towns.

another, all from the very first to the very last, panounced it of unrivalled excellence and power.

The list case that came under my observation was a man that had lost the use of his arm completely in a few days. This surprised mans much as it did the patient. After him came a man with sore eyes produced by guppowder—a very bad one indeed. One box only, sufficed to make a perfect cure. And I would here remark that hundreds have been cured of sore eyes who never found any retief save in this oitment.

There next chine a woman who was suffering excruciating pain from the ague in the face. Her physician (thinking it the toothacle) had extracted seven of her teeth. But the difficulty remained as bad as ever. The application of the All-Healing Oinment was attended with immediate cessation of pain. Her face qowerer began to swell, and the surface was covered over with pimples cruption like prickly heat. I none day all this disappeared. About the same time, a lady made application with it for the headache of long standing, and a falling of the hair. Since this I have known the Ontment to cure cases of ten, twenty and forty years standing mplaint.
About this time there were two cases, one of Consumption, and

About this fine there were two cases, one of Consumption, and the other of Sciolina, which had bailled the skill of every physician who prescribed. It was wonderful to witness the effect of the Omthent on these parsons. No one would believe it unless they had personally witnessed it. But it did the work properly. There was no half way business, for they recovered their health in a few transits. mountains, Fever, Quincy, Sore Throat, Cutaneous Eruptions Diseases of the Spine, and Nervous Complaints were treated with unheard of success. But for Chest diseases, such as Asthma, Pain and oppression, I believe is no better remedy. Also, the common diseases, such as Ulere Sores, Scald Head, Humops of the Skin, Inflamation, Piles, Sore eyes, Sprains, Bruises and Burns, if stems to be a perfect antidote. People would come into the stose smiling, wishing to know if I was really the Sevensa Son, or whether the Ointment that I gave them was, indeed, All-Healing in its nature. For said they, not one single application has failed to cure. Liver Complaint, particularly, was treated with great and universit success!

it for private use merely. Every man spoke well of it, as it had done so much good.

Notwithstanling all, I have been careful not to recommend it, except in cases I know it would do good. I was never withing to lend myself to any thing without testing its merits. This I enter-deavored to do on every occasion, and when I acted as one as the Sick Committee in the Lodge of I. O. of O. F. I then tested it upon Brethers in the most critical conditions, and had abundant opportunity of proxing its worth.

And in conclusion, I would remark that I have placed this Ointment before the people of the U. States during the last 0 or 12 mos, and so general has been the satisfaction, and so great amount of good done, that more than half a million of loxes has been sold. I do really believe there never was a medicane, which gained such the lang Ointment. From all parts of the land there have come upone deep, sincere, and universal voice of approbation, saying Me. Alister, thy tolique half dropped the word of truth and love, while beacht forces at most the reads.

Anser, my tangue that aroppen the word of truth and love, while health forever attends thy footsteps." And were I now to give all the good sayings of the people, their inqualified approval, their hankfulness and graitfule, their joy at recovering from disease an sickness, I could fill a volume.

HORRIBLE MISTAKES!!

Are sometimes made by confounding one medicine with another, and administering the wrong article. Equally horrible are those mistikes which are made in supposing that all Palls are a like, and those distinct a made in supposing that all Palls are a like, and those distinct which are taken, and if one kind is bad all are bad logether. This is a very great unstake.—
There is as much difference between Watour's Tourn Viberance Plats and other articles as between midnight and hoonday!—
We do not wish any to take our word merely for this statement.—
Let any one, having taken other medicine, try this. Nothing more will be necessary.

Many persons have been led away by a Coating of Scaan, as it they anticlepated that it would remove the natice of the medicine. But they are generally mistaken. Without the scoar those articles have nothing to recommend them, and world hot le sold a single day. But with the sugar, and by giving the article a same similar to Watour's Indian Vegetaue.
