POLITICAL TRASH .- Last week the Editor of the Gatourise a proposition that if we would publish a certain sticle which he named, he would lay before his readers the celebrated "blood hound" letter of Gon. Taylor .-We accepted the proposition. He has fulfilled his part of the contract, and we now fulfil ours. The following is the article.

"Are you in favor of protection, General?" "Are you in layor of protection, General?"

"If you are a Northern man, I refer you to my letter to the Indiana Convention in 1843; but if you are a Southern man, you will find my opinions embodied in my recent votes and speeches in the Senate."

"Are you for or against the Wilmot Proviso, General?"

"Are you for or against the without crovise, General?"
"If you are a Northern man, I refer you to the edition
of my life just published in the Globe office for the
North; but if you are a Southern man you will find some
very good reading in the edition of my life published in the same office for the South." "Do you approve or disapprove the annexation of Texas, General?".

Texas, General?".
"If you are an anti-annexation man, I refer you to the Detroit Advertiser for proof that I opposed the project most wormly; but if you are an annexation man, you will find my views very satisfactorily set forth in my votes and speeches in favor of that measure." " Are you for or against the dynasty of Louis Phillippe,

"If you are a Louis Phillippe man, you will be so good as to read my book on the French King and Court; but if you are an anti-Louis Phillippe man, I will send vou a package of my late speeches in favor of the French

"Are you for or against the improvement of rivers and lake harbors, General ?"

"The noise and confusion would prevent my answer from being heard, if I were to tell you."

Is n't this very convincing? Remember, too, it is se lected by the Editor of the Gazette, as the most availa-We ammunition in his cartridge box against our candidate. Remember, too, that it is an irresponsible newspaper article, and does not contain a word of truth, direct r by insinuation. The first insinuation that Gen. Cass has advocated both sides of the tariff question, the Ganette knows to be false! The records show he never roted for the Wilmot proviso, and however much he may have sympathized with the agitators of that project, when he saw that it was seized upon by designing and desperate demagogues for the purpose of self-aggrandizement and personal revenge for fancied wrongs, he, like a true atnot, ranged himself on the side of the Union, and corded his vote against it. Subsequent reflection and accestigation confirmed him in the opinion that his otes on this question were right. And this he frankly owns in his letter to Mr. Nicholson of Tennessee. The asimuation that he was opposed to the annexation of Texas, is equally false—the authority referred to, the Detroit Advertiser, a whig paper, is sufficient evidence of this. The slur at Gen. Cass on account of his book entitled, "France, her King and Court," is not worthy of notice-there is nothing in that work unworthy an American at the time it was written; when Louis Philhppe was the most popular monarch in Europe. There is one circumstance, however, we cannot help noticing in this connection. How long is it since these same men who now slur Gen. Cass for speaking of Souis Philhppe as the whole world spoke of him at that time, denounced Gen. Jackson for forcing this same Louis Philhppe to pay the twenty-five million indemnity! Then Louis Phillippe was a most proper nice man-a jewel of a king-and Gon. Jackson and the Democratic party the most ungrateful ingrates in the world. Does the Gazette think people have forgot this? Does it imagine this escunstance is obliterated entirely? Who then were he apologists and culogizers of "France, her King and 'ourt" but these same whigs, who now, after a lapse a number of years, find something very awful in Gen. 'ass' book. Hypocrites that ye are, do you think these things are obliterated from the minds of the peopleon the records of the nation ? What party in this country has truckled to royalty more than these same ahigs! Look at your Websters, your Biddles, and the he! Look at one half of Maine surrendered, basely surrendered, to unjust Bruish demands. But it is usesa to pursue the subject-the history of the past reids the base truckling of the leaders of this party to eign dictation, in letters of fire, and, to use a favorite spression of the Gazette, it will stick to them as closely as e poisoned "shirt of Nessus." The remaining insination is fully and triumphantly answered by Gen. Cass' corded votes in the Senate. It may be that we have levoted more space to these frivolous and childish charges han we ought. We are aware that we might have anwered a foot according to his folly, and been justified

Still LABORING UNDER INSANIIA .- We are under the punful necessity of announcing that the unfortunate "Esq." of the Commercial still labors under the hallucination of mind, noticed some time since. Whether like his cousin, that unfortunate damsel "Lucy Neal," the doctors have given him up or not, we have no means of doubtable gentleman who officiated in 1841, at the ncconchment of the said "Miss Lucy," keeps him closely guarded. We see, however, by the last number of that sheet that his insanity has taken a new turn. Instead now of imagining that every body is attempting to "demolish" him, and take away his "tolerable spirits," upon which he appears to set so much store, he has imbibed the notion that he is a painter-not a house and sign painter, reader; not by a jug full-but a delineator of persons and things, a sketcher of bipeds and quadrupeds. And upon the well known law of nature, that like legets like, he has presented his renders in his last number, with a "pen and ink sketch" of himself and employ-. And herein is exhibited one of the curious phases his madness. While he draws, with a master hand, his own portrait, he imagines all the time it is that of mebody else. Poor fellow! Weekly he goes through he same pantomine of exhibiting himself in all his naked eformity, without even the trouble of removing his inexpressibles, and thinks the public are gazing upon another. Aside from the disgust such an exibition is looked upon by the public, we do not know that we can objectbesides, when a monkey is paid for showing his a-ntics, even if he is a little cracked and only gets three cents for he operation, his keepers ought to compell him to fulfill their contract. . |

Coop Apvirg.-The Gazette says the whigs "should unitate their opponents in devotion and energy, and, like them, stand by their principles and candidates with unswerving faithfulness." That is excellent advice, aside from the very important admissions it contains. Our cos ear, we stand by our candidate only because they are Polk, in 1844, but, if so, it was not because he regarded delged to carry out our principles. Not so, however, with the whigh—they succeeded in 1840 because they ood by their candidates, but both their candidates were ot pledged to stand by their principles. In fact princide was a thing little thought of in that campaign. In H they stood by their "principles and candidates with naswerving faithfulness," and the result proved that they were neither acceptable to the American people. What would have been the result, had they pursued the same ourse in this campaign, of course, we cannot know-If the signs of the times indicate that they would have resented an unkroken front from the Rio Grande to the mobscott; and in the distracted state of our party in w York, the result would have been doubtful. But by did not do this—in an ovil hour they listened to the ten song of "availibility," and forsook "their principles d their candidates," and coalesced with Nativism .-Their party is distracted-Ohio, New York, and New England is in open rebellion, and the result is no longer oubtful! The Free soil movement, out of the State of New York, will take ten whigs for one democrat, and thus give us three or four whig states, which we othervise would not have got, and enable us to do without New York, and thus vindicate again the policy of standing by "principles and candidates." County Convention.—We call attention to the fact

that to-morrow (Saturday) evening, the delegates are to chosen to the County Convention which will asseme on Monday next. It is not necessary to urge a gental attendance, as its importance is obvious to all.

Mr. Marsh made a speech on the Northern side, and in the course of his remarks, said he had authority for saying slavery now existed in Oregon. | Wilmot followed in a speech in favor of his Proviso—he was willing slavery should exist where it now is, but warned Congress against extending it over territory now free.

CONVERTS TO TAYLORISM .- The Penusylvanian, in no-Converts to Taylorism.—The Pennsylvanian, in noticing the claim set up by the whig press that Hon. Calvin Blythe, Wm. B. Potts, Esq., of Scuylkill, and Hon. John C. Bucher, of Harrisburgh, were converts to Taylife the second story, the second story the second story, the second story that second story the sec lerism, says, so far as Judges Blythe and Butcher are concerned, we have every assurance that neither will support Taylor, now that he has made himself the Federal candidate-the former has stated that he would not vote for him, and the latter has too long been identified with the Democratic party not to sustain it now. W. B. temporary admits, in so many words, that we succeed Potts, of Orwigsburg, never was a Democrat, but a true standing by our principles; and let us whisper it in and consistent whig. It is believed that he voted for

> himself a member of the Democratic party. The converts to Taylor in this State are all of this character, and bear about as much comparison with the number that have declared for Cass and Butler, as single spies to whole battalions.

> Cool, Veny!-Speaking of Corwin's recent speech in the Senate, the Guzette says: Never before has Slavery been exhibited in a darker light-never has its Godhating enormities and Heaven blighting tendencies been more eloquently and forcibly portrayed." That's decidedly cool, is n't it, when we consider the fact that the candidate of its author participates in the "God-hating enormities and Heaven-blighting tendencies" of Slavery, by holding about three hundred of his fellow men in

bondage. The Chambersburg Whig says - The administration folks are peculiar in their tastes. In 1840, we gave them a general who had whipped the called him a granny. In 1840, they bring forward, a General who has surrendered to the "red coats" and they pronounce him a hero.

We clip the above from the Philadelphia North American that the Democracy may see to what a low depth of infamy whigery is compelled to descend in order to vilify and traduce Gen. Cass. Not a school boy in the land but that knows the base insinuation contained in the above paragraph to be false.

CHEERING FOR OUR CAUSE.

We are permitted, says the Pennsylvanian, to make the following extract from a letter, written at St. Louis, on the 10th inst., by a gentleman from Baltimore to his friend. The writer has been traveling on business since the first of June, through the states of Pennsylva iia, Ohio, Indian, Illinois, Iowa and Missouri; and, to hi: le:ter on business, adds the following postscript:

"Pennsylvania, Ohio, Michigan, Wisconsin, Indian Pennsylvania, Ohio, Michigan, Visconsin, Indian't Illinois, Iowa and Missouri, are certain for Cass and But-ler, by large majorities. The Whigs generally are luke-warm and indifferent. Many of thom declare they will never vote for another non-committal John Tyler. Gen. Taylor, as a politician, is considered 'small pota-toes' in the great West. His nomination fell upon the western Whigs like a wet blanket. They had cleared their throats for a tremendous harral for 'that same old coon,' Henry Clay, and when the nomination of Taylor came among them, their disappointment was deep and damning to to the cause of whigery. The Whigs upon the river boats, generally speaking, yield Tennessee to the Democrats, and say Kentucky will go for the Democratic nominees. The Democrats all look 'heads up,

COMBS BEAT .- Gen. Combs will have to knock under to Corwin-that gentleman, in giving a description of old Rough and Ready, a few days ago, says a cotemporary, represented him as a man possessing an iron constitution, able to endure all the hardships incident to a military life, and at the same time fatten upon the privations of comfort. "He has not," remarked the swarthy senator. " slept beneath a roof for four years; his belly and back are covered with ticks, and his legs and arms with moss." We think Corwin entitled to the hat !

II It is curious that Gen. Taylor, who has "no conconliment," should request the Maryland independents "not to publish" his letter!

Another Whig Bolter.-Hon, S. D. Culver, Whig representative in Congress of the Washington District, New York, is out in a long letter to the Washington County Journal, defining his position on the subject of the Presidency. He avows himself "among the many Whigs who hesitate to swallow Gen. Taylor," and promnent among these, he names Daniel Webster, Tom Corwin, Gov. Soward, Judge McLean, and Henry Clay .-Gon. Taylor himself, he says, hesitates about endorsing his own nomination-not having yet accepted as the candidate of the whig party.

"Extension of SLAVERY."-The charge so often made in the Federal and Barnburner papers, that Gen. Cass is in favor of extending Slavery to Territories now free, IS UNTRUE. He denies the power of conguess to take action upon the subject in any way, either to establish or prohibit slavery, and is in favor of leaving the whole question to the decision of the people .- [Owego Gazelle.

It never tails while there remains sufficient life to restore a natural and healthy action to the capillary vessels of the body, and to equalize the excetalation of the blood. By this means, a controlling power is gained over the most motignant Jorms of DISEASI, that cannot be obtained from any other remedy. Such is the power of this combination that it penetrates to every portion of the human frame; every bone and muscle, vein, nerve and ligament is scarched out and made sensible of purifying and healing influence.—Hence, it objects as readily with internal as external discretes.

Numerous instances are on record where this remedy has restored health to patients so near the grave that the most powerful internal remedies failed to produce any effect. Such has trequently been the case in INFLAMMATION of the BOWELS—no paucal ever need due with this discare where the Magnetic Omtured can be obtained. DR. BINGHAM'S CERTIFICATE.

In reply to your queries with regard to the results of the Experiments I have made with your justly celebrated Magnetic Offinement I can say with pleasure, that I deem it one of the GREAT-EST DISCOVERIES OF THE AGE.

It is now nearly two years since I commenced using it in my practice, and I have tested It in cases of Inflammation, both local and generally of the most malignant kind, with universal success; even where all internal remedies failed, I have succeeded with is.

1 have treated cases of Inflammation of the Brain, Inflammation I have trivated cayes of Inflammation of the Brain, Inflammation of the Lungs, Inflammation of the Bowels, Inflammatory Rheumatism, and Child-led Feyers, with perfect success, also cases of Scatlet Feyer, Canker Rast, and Uterated Lungs and Thront with like success.

In the Epidemic known as the Putrid Erysipelas, by which so many valuable lives were lost, I tested it frequently, and it never finited of effecting a speedy and certain cure.

In cases of Burns, Sprains, Brur es, Frozen Limbs' &c., it acts like a charm. No Physician or family will be a single day without this medi-

becoming acquainted with its power to cure.

WRIGHT'S INDIAN VEGETABLE PILLS.

CICARCELY have ten short years chapsed since an humble atDiempt was made to combine, in a suntable medical preparation,
a few of the herbs of the Indian. All was dark at the time as to
the result. The most that could be estimated was, that the principles adopted as the Jais's to baild upon were sound. So much reliance was placed upon calimit and the lancet, that the ill success
of the new experiment would have tended to confirm that reliance, while it shook the purpose of the projector.

Now, however, all doubt and dishemly is at an end. Everywhere this medicine has being receively with welcome; everywhere
has its use been attended with the most gratifying success. Erron
small beginnings, its sales are now counted by millions! and it is
held, in by the restingation at the present time than when it was
originally introduced.
