A Two FACED PARTY .- While the Whigs of the North dantly claiming Gen. Taylor as opposed to the ension of Slavery over the territories of New Mexico A California, the Whig press of the South are equally Adja claiming the exact reverse. Now which is right! a Gazette, of this city, says it has the "best evidence a" Gen. Taylor "is disposed to favor the great Northmovement of opposition to the extension of slavery." that is that evidence? Why don't the Gazette publish For the simple reason that it does not exist. They art not got it, and on the contrary when Gen. Taylor reasked by Mr. McConkey, of Cincinnati, to define his, sion on this very question, ho said, "I haro laid it doron" principle sor to give my opinions upon, or prejudge any way, the rarious questions of policy now at issue lower prices.

ween the political parties of the country, nor promise at I would or would not do, were I elected to the Presmey of the United States." And yet in the face of semporary exclaims, "What matters it whether our addate for President resides North or South of Mason merican citizen? And at this juncture, what matters when we are assured upon the best evidence that at candidate is disposed to favor the great Northern rement of opposition to the extension of Slavery?-"we must stop." We should think it was time you copped," after easing your stomach of such a whopper. perhaps the editors of the Gazette had better read following indiguant denial of its reckless and unaded assortion above, from the Mississippi Courier, a cal Taylor paper.

"How dare those unscrupulous maligners (that's the wite) say that Gen. Taylor- a man of such pure, noand unsullied character-would prove a traitor to seatnong whom he was born and raised?-that he A betra the southern people on this vital question?d prove false to his own interests, and scornturn his back upon his old associations? What ground they (the Editors of the Gazette) for putting forth vile and unfounded statements? In the course of and the second state of the second se tor! No! Let his vilest traducers (the Editors of Gazette, again, )point to a single act of his life that acks of treason!

ANOTHER NAME FOR FEDERALISM .- The whigs are we more preparing to change their name. The last are Convention was not called as a convention of the g but of the TAYLOR party of Pennsylvania. The point of the Arthor party of A charge and a the point of the same rous that cause the loaders to fulfil the phery, made ten years ago, that while the principles (rederalism) are the same, (however disayowed,) its mete are constantly changing. Whiggery opposed the re with Mexico, and is therefore odious to the country. detocated the Bankrupt Law, which is another proof is unpopularity. It was for a Bank in 1841, and that ile to universal execution. Besides, it was ligery that headed off the old leaders that stood by the on so long, and this adds yet another to the macauses that clamor for a new name. Nativism will hall the new appellation be ? rst, in order to carry Taylor, the opposition will be the arron party, and failing in that, as it will, it will asae the cognomen of the "Free Soil party." Democracy will hold on to its old and, unsullied title,

d win a new victory under it—a rictory over the enc is of the Union.

We clip the above from the Pennsulranian, for the more of putting on record and endorsing the prophevitcontains. That whigery is doomed to an overelming defeat in November, there is now not a shadof doubt. No event, not yet unwound from the woof ime, is more certain. Cut up, divided, distracted trian and Prussian ministry had both taken measures to disheartened, they will make but a feeble resistance the united and confident hosts of Democracy, under whead of those tried statesmen. Cass and Butler .th such defeat will disappear from the political vo alary the name of whig, and in its place, be inscribed Free Soil." Democrats, honest democrats will then the object of those men who have mounted this hobfor the purpose of working out th ir rerenge against Democratic party for fancied injuries. All such men Iremain, and the party, freed from their weight, will stronger than ever. We wish them joy in advance in r new associations.

All was dark at the time as to the result. The most that could be estimated was, that the princi-ples adopted as the basis to build upon vere sound. So much re-liance was placed upon calomel and the lancet, that the ill success of the new experiment would have tended to confirm that reli-ance, while it shook the purpose of the projector. Now, however, all doubt and dufficulty is at an end. Every-where thus medicine has been greated with welcome, every where has its use been attended with the most gratifying success. Erom small beginnings, its safes are now connied by millions 1 and it is held in higher estimation at the present time than when it was originally introduced.

Guro of Fever and Ague. Rasselfville, Putnam Co. In., July 17, 1847. Dr. Wright-Some time since, your agent left me a supply of your Indian Vegetable Pulk. I have found said pills to be in great demand lately for the euro of Fever jand Vane. Mr. James Boyd has a son who has been laid up with I'es er and Ague, and had tried various other remedies, all of which proved of no avail.— He determined to try your Indiane Vegetable Pills, and by using one box is now sound and well. Mr. T. Spencer had a daughter, Mr. II. Groves a son, and Mr. C. William Wright—Dear Sir: I am one of the many whose aver-ion to quack nostrums has deprived them of the benefits result-ing from the use of good medicines. Acting under this influence, I have seldom resorted to the Pull box. Last March, when you com-menced advertising in my paper, I was induced to give your Indi-an Vegetable Pills a trial, and after having fairly tested their mer-tie for mesself and family, gave them a decided preference over evits for myself and family, gave them a decided preference over ev

For a gentle medicine, one or two will be found mild though effective. Where bile or other impurities have accumulated, and more thorough medicine is re-quired, a dose of three or four of these pills taken on going to bed, will be found helic uncleansing the stomach, and restoring the bowels to a healthy state. A Democratic Meeting will be held at the Borough of Connoautville, on the 20th inst., at 2 o clock, P. M. A general attendance of the Democracy of the county is

Grand Democratic Rally!! WEDNESDAY EVENING, SEPT. 20, 1848,

that eloquent champion of CASS, BUTLER, and demcratic measures,

mother column for a grand Democratic Rally at th art Houselon Wednesday evening next. Hon. H. K. un, of Buffalo, who is announced to address the Deouries on that occasion, is one of the most eloquent didnied advocates of Class and Butler, of whom the appre State can boast. We trust that the Spartan Deweney of Erie and vicinity, will be on hand and weltme hum in such a manuer, that when he returns to is own State, he can give a good account of our zeal ial enthusiasin in the good cause.

FROM MR. CLAY .- It is stated on competent authority, sys the Buffalo Courier, that Matthew L. Davis, Esq., -"the old boy in specs"-has received a letter from Henry Clay, declaring that he will feel it his duty to accepta nomination from any respectable body of his felow whigs, whether representing a State or County .--Another letter is also said to to have been received by a Frent person, corroborating this. If this is so, and thentaken in connection with the recent important totement in New York city, and the short but signifihat telegraphic dispatch from Mr. Botts, there can arrely he a doubt, what becomes of the Gazette's muthorized boast that "Mr. C. will put his veto upon it the N.Y. movement) as soon as he hears of it'??

buy M. BOTTS OUT FOR CLAY .- The well known Her-is out for Clay, and against Taylor, in a letter to ha Cay committee in New York. The letter we shall his occasion to publish on Monday-our colums are too toxded to allow us to do so to-day. Botts, it will be Pmembered, is a Mémber of Congress, from the Richhand district. Virginia, and is one of the most promi-1-at whigs of the South. Our readers undoubtedly reflect his letter to the Chicago Convention, and how tompt the Gazette was in publishing it. Will that paper " as prompt to publish this? Wo shall see!

MAINE ELECTION .- We have as yet, but few roturns om Maine, though such as have already been received, onfirm our expectations of a decided democratic majoriover Taylor Whigs and the Bolters and Abolitionists.--ere faternized and managed to double the scattering We at the preceding election.

TINOTHY IVES, has withdrawn his name from the ather Electoral ticket of Pennsylvania.-Buffalo Re-

Tae above is a fair specimen of "barnburner" honesty. inference intended to be conveyed by this simple an-Concement, is that Mr. Ives has withdrawn from the <sup>h</sup>aperatic electoral ticket because he cannot support 419. Such is not the fact. Mr. Ives has received a imination by the friends of Cass and Butler for State thator, and is consequently ineligible for an Elector.

IT The Gazette has found out that !"Hon. David Wil-So is not as strong a man at home as he is generally pposed to be." Before the Buffalo nominations we spect the Gazette would not have acknowledged this tren with the same evidence. The fact is this knife wh two odges bogins to draw blood on whigery at an larming rate, hence the sudden change in the tune.

If Since the August Elections, Taylor stock has been constantly on the decline. The fire from the people, comwould be so reduced in his popularity.

THE BITTERNESS OF PAREY .- Before Gen. Cass was the spoken of by men of all partick, as a Statesman who the convention 1 Conferred honor on the American name. The North Atherican Review, the leading periodical of the country, thus spoke of Gen. Cass in 1837:

The history and science, as well as the social pros-prity of Michigan, are not under greater obligations to in individual, living or dead, than to that distinguished "addier, scholar and statesman." • •

NEW YORK, Sept 12-7, P. M. Free Soil ticket succeeded in charter election, in Alton Illinois, by 294 majority.

Arkausas L'egislaturo stands, 76 Democrats, to 23 whice.

Returns from parts of Maine offered no criterion by which to judge of the result. Free Soil vote is about one third as large as the Democratic vote.

Louisville, Kr., Sept. 11, 1848.

You can inform all friends that the whole New Orleans line will be quickly finished and that the part of it already finished will continue to be worked steadily, by new instruments. The injunction only effects the use of one kind of instruments on a short line in Kentucky, and on that short line we now use a different plan. The injunction does not effect any other part of our vast lines. -I refer you to my brief address to the people of Kentucky buildum-or-die Botts-the man that slept with-John You will soon see the lightning flashing from your seaboard to New Orleans by our line through the Mississippi

Valley. I act by the advice of good counsel. H. O'REILLY.

CINCINNATI, Sopt. 13, 1848.

The O'Reilly line between Louisville and New Orleans, is advancing steadily to completion-the section between New Orleans and Baton Rouge has just commenced operations, and the line from Louisville is working successfully through Nashville, Tuscumbia, Memphis, and Holley Springs. The section between Tuscumbia and Baton Rouge requires only a little more wire, and this gap will be filled in a few weeks, when the whole O'Reilly line between New Orleans and the

western cities will be completed So far from being would appear that the fragments and fag-ends of all stopped by injunctions, the lines were never in better or-"tics, hitherto distinguished by the title of 'Scattering,' der, and new instruments are used in Kentucky in place of those which the Judge objected to. There are twenty ways of delegraphing, and Mr. O'Reilly provides several

kinds, so that no delay can over be expected on any line constructed by him. The Kontucky injunction, which is no farther than the single instrument used at Louisville, and there a new one is placed, and other new instruments are ready whenever necessary. In other respects, the O'Reilly lines, which now form an aggregate of four O'Reilly lines, which not their usual way. thousand miles, are working in their usual way. H. O'REILLY.

WE SHOULD LIKE TO SEE IT .- In obedience to a socret circular lately issued to the faithful from headquartors at Harrisburgh, the Gazette proposes to hold a work in a style that is refreshing to all democrats. Two months since, fine dramed that the great military leader work is a style that is refreshing to all democrats. Two months since fine water passing round Locks NO. It is truly refreshing to the able to say here is an article which, though pulled and hauded to the skies, is not praised too highly—is not overrated. In put-ting forth week after week, notices of the Great American Reme-dy. Vaughn's Vegetable Lithoutriptic Mixture, we feel, that we are doing the public great service, and the suffering sick-will nex-er use this medicine without thanking the man'who invented the art of printing. It has restored thousands all over the world; no matter what the complaint may be, it is the panacea for it. Twas only a week since we heard of a case of complicated and truly af-flicting female debility, which has been eured by this article, after the hady had used up hundreds of dollars, and employed many physicians. Six bottles of this mixture cured her, and she is now a strong, healthy woman—six nonthk ago she was completely ta-ken down in spirits and const.t non.
