Flated with a partial success, or rather at the fact that they are not in a minority of ten or fifteen thousand in the State, the whige are just now boasting largely on carrying the State for Taylor in November. When reminded that at that election they cannot have the barnburner and the abolition vote, which has just been almost manimously cast for Johnston, they shrug their shoulders, make up for such a loss. What do they mean by "hurrah.boys"? Nothing more nor less than a class of voters moment to transfer their allegiance and votes to the candidate and cause most likely to succeed. Now we are of those who do not believe in the existence of any such class of voters! We have more faith in the intelligence of the people-the integrity and moral firmness of the masses, than to suppose that there are from four to six thousand in this State who are so devoid of all that constitutes the internal man as to be ready to vote with a party merely because it has the appearance of being successfull. It is well enough for politicians who are constantly spitting out their hate and venom against the ignorant rabble," as they please to term them, to indulge in such idle dreams, but we prefer to look upon our fellow citizens in a better light-as reasoning, re- yoke of 4 year old Oxen; Warren Foot, 1st Premium for flecting and voting men! The Websters, and Botts of the party pronounce the nomination "not fit to be made," and the Clay men for a long' time refuse to lend it their countenance, and only vote for it out of pure necessity-but in spite of all this the "hurrah-boys" triumphantly bear the old here into the Presidential chair! MILLARD FILLMORE ROWING SOUTH.

If there was ever a bigger humbug than the present effort to induce the people at the North to believe Taylor in favor of the non-extension of slavery, we have never heard, of it. There is one, however, which is not far behind it, and that is the effort at the South to prove Miland Fillmore opposed to the Wilmot proviso, while here that fact is claimed of sufficient importance to induce whigs, who otherwise would not, to vote for Taylor. Like Lidn. Taylor, in regard to the Northern "swindle," Millard Fillmore is helping, by writing letters, this Southem "swindle." For proof, we adduce the following: A meeting in Louisiana, of which J. B. Peyton was President-the proceedings of which are published in the Bacna Vista-passed the following, among other reso-

Sir.—Having personally experienced the good effects of Dr. Osgood's India Cholagogue, I most cheerfully comply with your request by presenting my testimony in its favor. In my own case, as well as in many others which have come under my observation, this inedictine has effected a speedy and permanent cure; and I have the fullest confidence in it as a presenties against, and an effectual remedy for feeer and agus. It is said to be equally beneficial in bilious diseases generally, but my knowledge of it is confined to cures of feeer and aguse, and as a remedy for such, I cordially recommend it. My Dear Sir:—I feel not the slightest hesitancy in saying that I consiper the India Cholagogue an invaluable medicine in bilious affections. My reason is samply this: I have used it. On my recommendation, many others have used it, and I have yet to learn the instance in which it has failed to effect a cure.

Yours very respectfully, CHARLES REIGHLEY.

WRIGHT'S INDIAN VEGETABLE PILLS.

CARCELY have ten short years clapsed since an humble attempt was made to combine, in a suitable medical preparation, a tew of the berbs of the Indiant. All was dark at the time as to the result. The most that could be estimated was, that the principles adopted as the basis to byild upon were sound. So much resiliancely as placed upon calonical and the lancet, that the ill success of the new experiment would, have tended to contirm that relatince, while it shook the parpose of the projector.

Now, however, all doubt and difficult Brit an end. Everywhere this medicine has been greeted with welcome everywhere has its use been attended with the most gratifying sinezess. Office of the Common Democration Bloomsburg, Columbia Co. Pa., March 4, 1838.

Dr. William Wright—Bear Sir: I am one of the many whose aversion to quack nostrums has deprived them of the benefits resulting from the use of good medicines. Acting under this influence, I have seldom resorted to the Pill box. Last March, when you communiced advertising in my paper, I was induced to give your Indian Vegetable Pills a trial, and after having fairly usted their merics for myself and family, gave them a decided preference over every other preparation.

In every instance when afflicted with sick beadache, or when the stream of life was encambered with morbid bumors; I found speedy relief from the use of your Pills. By taking from four to six on going to bed, when indisposed, I have always been restored to health, without loss of time, and without the expense of a physician. Wright's Indian Vesetable Pills possess the distinguished merit of operating effectually without disturbing the rest of the patient, and in my case without ever producing sickness to the stomach. Without's Indian Veortable Plan.—Although not particularity friendly to patent medicines, we must confess that we have become a convert so these pills, having an opportunity on two or three occasions to test their efficacy. For a gentle medicine, one or two will be found mild though effective. Where bile or other impurities have accumulated, and more thorough medicine is required, a dose of three of four of these pills taken on going to bed, will be found effectival in cleansing the splomach, and restoring the bowels to a healthy state. We speak from experience; and take pleasure in commending the pills to the public.
