the State, says the Spirit, under the soubriquet of Mary? You emancipated, to have slaves in your "Major Duply," was entertaining a party of his ac-ownland? Oh, yes, said she, with great simplicty, quaintances the other night by narrating some must do as they do in old Virginia. facts "of portance in his travel's history." One of the crowd inquired, "Major, what was the tightest

place you ever got into?"
The Major looked reflecting for a moment took The Major looked reflecting for a moment took a big drink, and began—"Well, the first time I went down South, going from Natchez to Orleans, on the old Moselle, the same that's bursted her biler since, I come across a tough up-country, sort of fellow—a varmint looking chap from some-where back of Memph's. I hadn't been aboard long before he and me got yoked at a game of Twenty lleck, and by the time we tied up at the Levee in Orleans, I'd got pretty much all he had, (about \$400) and had 'gin him a wrinkle in a gin'ral way, into the had gin him a wrinkle in a gin'ral way, into the had gin him a wrinkle in a gin'ral way, into the land of the same house in the same house i had 'gin him a wrinkle in a gin'ral way, into the bargin.' We both stooped at the same house in Mr. A. He is so handsome and so graceful! What Camp Street, and the first night we got there, just an eye, and what a set of teeth he has!" affer supper, my up-country friend beckoned me out of the bar-room, and taking me some ways up a flark alley, that was next the hotel, he put his lowing foppish fashions. "They are really conhaud to the back of his neck and drew an eighteen temptible," said he, "and I am sure all who see you a dark alley, that was next the hotel, he put his inch Bowie-a real cleaver. Gemini! I thought must think you ridiculous." "I don't value the he was going to divide me, and I sung out "Stranger, opinion of the world," answered the irritated fop." put up your scythe-how much do you want?"to me, and I found out that he wanted to 'spout' his knife to me for a 'Ten, to go to the Masquerade .-I reckon I hanled out my old wallet quicker and handed over the X-at the same time just taking the cutlary by way of indemnity for the past and secu-

rity for the future."

A Good one.-The following is an extract of a letter dated Satifle. Near a pretty village, called Seguin, a few of us fell in with an odd fish, enjoying a Colonel's com-mission. He has a strange habit of using the longest words, and invariably misapplying them for instance, (he wished to sell us some lots,) Buy here, gentlemen, if you wish to make fortunes here's he location for a magnanimous city; we're at the foot of navigation. Next year I'll put up a lawyer's apothecary's doins, and a blacksmith's institution, and afterwards a regular cimetry, when all the folks from the circum-jasper counties will send in their boys and girls of both sexes to be McAdamized into a college edication. Then I'll instruct a meetin-house, and the stores and taverns, will spring up. in course. I can't do this till next year, cos I havn't got hard cash enough yet, and I'll have nothing to do with the darned bank bills; let a man offer me one, and it I don't make a sacrement of him. Do you see that well?-I'll put a pumphandle linto it, and fix an anecdote to fetch the water through the meandering and turpentine walks in my sass gar-ding, and the effects of the arrogation will be such that the very air will be polluted with the odnriferous execrations protruded from the flowers-(if I'm an accoucher in anything, it's in flowers)—I'll put up a diarrhora in the middle of 'em for the women folks to store the milk and butter, &c., and then run a condition through my house, and provision it off, but I'll run up a real edifice next year and clap a chronology on the top, so that the ladies and gentlemen may look at the milkey way through a horoscope that I'll export from Galveston. I can't do it all at once, as my women folks are growing up, and getting more and more costive and expensive every year. Come in, gentlemen-let us liquor.

"I CAN'T SPARE TIME."-The four words with which we head this article, in the effects which they have produced, have been the cause of a great deal of mischief, and have kept many from embarking manfully in the work of storing up intellectual treasures. When a young man is urged to commence at once the work of study, he turns and lets fall the four simple words, "I can't spare time," and thinks he has given sufficent excuse from further uttention to the subject.

There are many mechanics too, who, instead of doing their part towards the cultivation of their own minds, and throwing their influence and talent into the general stock for the improvement of an association, satisfy themselves with the observation, and perhaps really think they "can't spare time." The excuse is a very handy one, and has passed current too long, for, in a majority of cases, there is neither sense nor truth in it.

In the first place, it need not occupy partion of time; for by proper management, a large share of invaluable information may be obtained in a short time; of this many may be convinced by

trying the experiment. There is enough lost or wasted in the persuit of what men call pleasure, which, if properly applied, would place them in a high state of cultivation .-Time can be found to ride and dance, and sing-time can be found to lounge and talk nonsence; but alus! how many think they "can't spare the time," to the noblest and best part of their nature; that alone which olevates and causes them to feel the "divinity

California.-The Washington Union contains an extract from a letter, written by an officer at Montrey, California, from which we take the following: "California cannot support a dense population; there is too much open country, only fit for grazing purposes; extensive ridges of mountains, with large level plains between them, most of which are destitute of timber, and, with small exceptions, cannot be cultivated for want of mois are; no rains from March to the latter part of November or some time in December: Some of the valleys might be irrigated, and made to produce the most abundant crops. The country, I have no doubt, is rich, very rich, in minerals—quicksi ver, silver, gold, and copper. A mine, some eighty miles north of this, owned by a Mr. Forbes, has within the last four or five months yielding more than \$20,000 worth of quicksilver; the whole of which, in truth I may say, was made in the way of experiment in ascertaining the extent and value of the mine, and with the most rude and simple apparatus; nothing more than one or two whalers' kettles, such as are used trying our whalp oil, converted into oven for heating the ore. There is not a single navigable river in California, except these entering into the bay of San Francisco. How far they are navigable, and for what sized boats-must be small ones-1 know not. San Francisco bay will be the great commercial point of this coast-it cannot be any ther place. Monterey is a handsome site for a large town-has a population perhaps a little rai-ing o 1200, but no back country; harbor easy of access and altogether an open roadstead, is perfectly safe, as the northerly winds never blow home, (as the scilors say,) and it is protected from the southeasters. Climate most delightful; the ground never treezes, and seldom any frost; wollen.cothing comfortable the whole year round. This is along the coast. A short distance (say 15 or 20 miles) in the interior, the weather is very warm in the summer; vegetation commences with the first rain in November or December, and by July the grass is all parched by the sun."

An Honest Boy .- That "honesty is the best policy," was illustrated some years since under the following circumstances, detailed by the Rochester Democrat. A lad was proceeding to an uncle sto-petetion him for aid for a sick sister and her children, when he found a wallet containing fifty dollars. The aid was refused, and the distresself family were pinched for want. The boy revealed the fortune to his mother, but expressed a doubt about using any portion of the money. His mother donfirmed the good resolution—the pocket book was advertised, and the owner found. Being a man of wealth, upon learning the history of the family, he presented the fifty dollars to the sick mother, and look the boy into his service, and he is now one of the most successful merchants in Ohio. Honesty always brings its reward-to the mind if not the pocket.

EMIGRATION TO TEXAS .- It is a circlimstance significant of the times, in connection with the failure of the potato crop in Ireland again this season, that a large number of landed proprietors—upwards of sixty altogether—left Dublin for Liverpool a few days ago, on their way to Texas, where they are about to locate, having purchased a tract of land with the view of forming a settlement. They take out with them a number of their rationers, and upwards of £60,000 in gold.

"Force of Habit." - A gentleman recently from Africa, while at one of the civilized colonies on the Coast, met a colored woman whom he had known in old Virginia, who had obtained her freedom for good conduct, and had migrated to Liberia. "Where the conditions of the civilized colored woman whom he had known in old Virginia, who had obtained her freedom for good conduct, and had migrated to Liberia. A REASON FOR LAUGHING .- A Person was remonstrating with a friend, on the absurdity of folmust think you ridiculous." "I don't value the laugh at all those who think me ridiculous." "Then Maybe I didn't feel better when he broke his mind you must be the merriest man alive," was the reply.

DR. TOWNSHIND'S SARSAPARILLA. THE MOST EXTRAORDINARY MEDICINE IN THE WORLD.—This extract is put up in quart bottles; it is six times cheaper, pleasurer, and warranted superior to any sold.—It cures diseases without vomiting, purging, sickening or debil-GREAT FALL AND WINTER MEDICINE.

The great beauty and superiority of this Strangarilla over all other medicine is, while it cradicated diseases, it invigorates the body. It is one of the very best Fal and Winter medicines ever known; it not only purifies the whole system, strengthens the person, but it creates new, pure and rich blood; a power possessed by no other medicine. And in this lies the grand secret of its wonderful success. It has performed within the past two years, more than 33,000 cures of severe cases of disease; at least 20,000 of these were considered incurable.

More than 3,000 cases of Chronic Rheumatism;
2,000 cases of dispension. 2,000 cases of dispensia; 4,000 cases of General debility and Want of Energy; 7,000 cases of the different Female Complaints; 2,000 cases of Scrofula; 1,500 cases of disease of the Kidneys and Dropsy;

1,500 cases of disease of the Kidneys and Dropsy; 8,000 cases of Consumption; And thousands of cases of diseases of the blood, viz. Ulcers, Erysipelas, Sait Rheum, Pimples on the Face, &c., together with numerous cases of Sick Readache, Pain in the Side and Chest, Spinal Affections, &c., &c.

This, we are aware, must appear incredible, but we have letters from Physicians and our Agents from all parts of the United States, informing us of extraordinary cures. R. Van Buskirk, Esq., one of the most respectable Druggists in Newark, N. J., informs us that he can refer to more than 130 cases in that place above. There are thousands of cases in the City of New York, which we will refer to with pleasure and to men of character. It is the best medicine for the preventative of disease known. It undoubtedly saved the lives of more than 3,000 CHILDREN THE PAST SEASON.

As it removed the cause of disease, and prepared them for the Sum-

As it removed the cause of disease, and prepared them for the Summer season. It has never been known to injure in the least the nost delicate child, RIICUMATISM.

RHEUMATISM.

This Sarsuparilla is used with the most perfect success in Rheumantic complaints, however severe or chronic. The astonishing cures it has performed are indeed wonderful. Other remedies sometimes give temporary relief, this entirely eradicates it from the system even when the lumbs are dreadfully swollen,

12 Hear Mr. Seth Terry, one of the oldest and most respectable lawyers in Hartford, Conn. The following is an extract of a letter received from him. Da, Townsen, —I have used one bottle of your Sarsaparilla, and find it is excellent in its effects upon a chronic Rheumatic pain to which I am subject, from an injury occasioned several years lago, in a public stage. Please send me two bottles to the care of Dr. Seymour. I have conversed with two of our principal physicians, and they recommend your Sarsaparilla.

Hartford, March 12, 1815. SETH TERRY.

CONSUMPTION CURED.

Cleanse and Strengthen. Consumption can be Cared. Bronchittes, Consumption, Lacer Complaint, Colds, Catarrh, Coughs, Asthma, Spitting of Blood, Soreness in the Chest, Hectre, fusth, Night Sweets, Deficit or profise Expectoration, Pain in the Side, 6.c., have been and can be cured.

Dr. Townsen—Dear Sir: Nearly twenty years ago I took a violent cold which settled on my langes, and affected severely; indeed, finally it became a constant hacking cough, but not so severe as to prevent me from attending to my busines. Within the last few years it increased on me gradually. At last I became reduced—I breathed with difficulty, and raised with my Cough much bad matter, and for the last nine months previous for my using your Sarsaparilla, had regular night sweats; indeed, my friends and myselfsupposed that I would die with the consumption; but I have the happiness to inform you that to my surprise, after using three bottles of your Sarsaparilla, I find my health gestored. It relieved me gradually, and I am enjoying better health than I have for 26 years. I had almost entirely lost my appetite, which is also returned. You are at fiberty to publish this with my name in the papers, if you choose.

Mydittle girl, who is three years old; had a very baid cough the whole of last Winter. While using the medicine I gave her rome of it; and it soon entirely relieved her, as well as myself, and she is now well and hearty as my child I ever saw. She was also full of little blotches; it took them away and her skin is smooth and fair now; and am satisfied she recovered her health from using your excellent medicine.

GIRLS, READ THIS. CONSUMPTION CURED.

GIRLS, READ THIS. GIRLS, READ THIS.

You who have pale complexions, dull eyes, blotches on the face, ough skin, are "out of Sparits," ase a bottle or two of the Doctor Fownsend's Sarsaparilla. It will ale mee your blood, remove the reckles and blotches, and give you animation, spatking eyes, thus pairits, and beautiful complexion—all of which are of immense value to unmarried ladies.

TO MOTHERS & MARRIED LADIES. TO MOTHERS & MARRIED LADIES.

This Extract of Sarsaparilla has been expressly prepared in reference to female complaints. No female who has reason to suppose she is approaching that critical period, "the turn of life," should neglect to take it, as it is a certain preventative for any of the numerous and horrible diseases to which females are subject at this time of life. This period may be delayed several years by using this medicine. Nor is it less valuable for those approaching womanhood, as it is calculated to assist nature, by quickening the blood and invigorating the system. Indeed this medicine is invaluable for all the diseases to which women are subject.

udject.

It braces the whole system, renews permanently the astural energies—by removing the impurities of the body—not so far stimuating the system as to produce a subsequent relaxation which is the case of most medicines taken for female weakness and disease. - SCROFULA CURED.

This certificate conclusively proves that this Sarsaparilla has effect control over the most obstinate diseases of the blood. Three ersons cured in one house is unprecedented.

THREE CHILDREN. THREE CHILDREN.

Dr. Townsend—Deat Sir: I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine. They were ufflicted very severely with bad sores, have taken only four bottles; it took them away, for which I feel myself under deep obligation.

Yours respectfully.

Now York, March 1, 1817, CAUTION.

CAUTION.

Owing to the great success and immense sale of Dr. Townsend's Sarsaparilla, a number of men who were formerly our Agents, have commenced making Sarsaparilla, Elixirs, Bitters, &c. &c. They, generally put it up in the same shaped bottles, claiming that theirs is far superior and four times stronger than Dr. Townsend's, &c., toping thereby to deceive the public. Some of these unprincipled men publish counterfeit certificates: others have induced their brothers and other interested persons to allow the use of their names, to which they put esquire to give them respectability.—One makes a medicine, and pulls it with respectable names procured by using Dr. Townsend's Sarsaparilla, publishes them as cured by his suff. He also publishes the certificate of a person who styles himself an M. D., who mends hoes, digs wells, and doctors horses by turus for a livelihood. They also published certificates signed by fictitious names, stating they have used Dr. Townstors horses by turns for a livelihood. They also published certificates signed by fictitious names stating they have used Dr. Townscan's Sarsaparilla, and that it injured them &c. These, and a great variety of other tricks are performed by these men, to sell their trash. The public should be on their guard, and look out for counterties. connections.

Notice.—After the first of January, 1819, none will be genuing unless they are put up with a magnificent copper plate label, containing the fac simile of Dr. Townsend's name, thus—S. P.
