CALIFORNIA GOLD SIGNOR D'ALVEAR'S GOLDOMETOR!!

THE GOLD-SEEKER'S GUIDE! Or Secret art of finding Mines of Gold, Silver, Iron, Lead, Copper, Coal, and other Mineral Riches. The first discovery of Gold in California was made by DON JOSE D'ALVEAR, an eminent Spanish Geologist, Chemist and Natural Philosopher, by means of a newly invented Magnetic instrument, called the

GOLDOMETER, or GOLD-SETKER'S GUIDE Signor P Alvear has just arrived at New York from the Gold regions of California, by way of Panama, Chagres, and New Origans, bringing with him a very targe quantity of Gold Ore, valued at nearly one multion of Dollars, which he collected there long before the existence of the Gold mines became known to the residents of California generally.

HISTORY OF THE DISCOVERY.

Signor D'Alvert went out to California nearly two years ago, in consequence of certain information which he had received of the geological character of that country, with the firm belief that vast mines of precious, metals would be revealed there upon carcial investigation. He was encouraged to this enterprise, also, by his condidence in a certain Magnetic instrument which he had invented, called the "Goldoneter," by whose aid he expected to he directed at once to the "Gold Placers," if any such existed.—Nor were his expectations disappointed. His scientific calculations proved to be founded in truth and protound wisdom, and his new instrument, the "Goldoneter," fulfilled his highest hopes. In less than two months after reaching Carlornia, he strock upon one of the richest Gold mines in that country, ipon an obscure branch of the Sacramento river, in a corge of hills extremely rocky and difficult of access, and sedom visited by the native Californians—Disquising his object under the pretonce of purely scientific research, he obtained the aid of some fifteen or tweety simple and Lithial Indians, and steadily pursued his task, collecting often more than \$2,000 worth of Gold in a single day, which he concealed in a deep ravine, without exciting any suspicion whetever, until after the discovery of gold at Capt. Sutter's Mill, when the mountains were ransacked by gold seekers, and Signor D'Alvear's "gold placer," the richest in all California, was beset with greedy adventurers. It is now found that the real mines of sources of the gold, he in the gorges of the mountains, and not in the beds or sands of the rivers. Previous to leaving California, Signor D'Alvear's and list instrument, the Goldometer, a very imperfect one, for \$3,000. The person who purchased it confidently expected to make a bandsome fortune, by simply finding "gold placers" and selling the right of digging to the gold workers. HISTORY OF THE DISCOVERY. Manufacture of the Goldometer and Publica-

tion of the Guide. Signor D'Alvear, in compliance with the request of numerous seientific gentlemen has commenced the manufacture of this new Magnetic instrument, the GOLDOMETER, which he now offers for sale, in the United States, at the remarkable low price of THREE DOLLARS each, accompanied by full instructions for use, and a variety of Philosophical hints drawn from ancient and modern sequences, in the

ANOTHER INVALID RESTORED TO REALTH.

(Read the following statement of facts from Mr Eli Bailey, a ighly respectable merchant of Vicana, Johnson co. Illinois.)
GENTLEMEN:—A desire to benefit the afflicted throughout the great emachine and dehility i and at intervals during the night, his expectoration would become so great as to endanger his life from strangulation. During the time he was attended by many physicians of the highest repairs, whose prescriptions gave but temporary relief—in fact, so alarming were the symptoms and so involvente was his siscase, that I was compelled to believe him beyond the reach of Medical aid!

All of our neighbors and frhyds who saw him, regarded him as one who was rapidly approaching an early and premature grave. After having thus estamated the skill of the best physicians without obtaining relief, I was prevailed upon by the advice of a friend to make use of Wister's Balsom of Wild Cherry.

to make use of Wister's Balsom of Wild Cherry. The commenced its use about the 20th of December, 1844, the first bottle of which gave astonishing relief, and I began again to induffe in the fond hope that he might yet be restored to health. After having continued the use of itunif three bottles had been taken, the divease was entirely overcome, and his shattered constitution, and emacined form restored to sound and permanent health, which he continues to color up to the present time.

1 believe the gensine Br. Wistar's labsam of Wild Cherry to be one of the most valuable medicines ever discovered—knowing, as I do, that the above cure was effected solely by its use.

1 am, resitheren, yety respectfully.

CONSUMPTIVE PATIENTS Will phase read the following statement from the Harrison Ga-citte:—The incredulous are invited to read the following note from Rev. Mr. Coldron, whose character for truth and veracity stands above suspicion, and have their doubt dispelled as to the appriority of WISTARS BALSAN OF WILD CHERRY over superiority of WISTAR'S BAILSAM OF WILD CHERRY over all other remedies now before the public of the same character.

Conviny, Ind. Jan. 226, 1848.

It is no less a duty than a pleasure to state for the benefit of the afflicted, that I consider Wistar's Balsam of Wild Carry a great blessing to the human race. Having tried it in case of severe affliction of the lungs. I unbestatingly recommend it to those similarly afflicted as the best remedy I have ever tried and one which cured me when physicians said I must die, and when I thought myself, that my time to depart was mer at hand.

There is a difference between WISTAR'S BAISAM OF WILD CHERRY, and all other preparations of Wild Cherry. The true and genome Baisam, as sold by us, contains, besides the extract of Wild Cherry bark, other medical agents of great character and efficacy in the cure of congles, colds, and general diseases of the chest and gungs. But all the important difference between this medicine and all others of the kind is, that Wistar's Balsam cures, while other remedies give only temporary relief to the sufference.
