CALIFORNIA GOLD SIGNOR D'ALVEAR'S GOLDOMETOR!!

THE GOLD-SEEKER'S GUIDE Or Secret art of finding Mines of Gold, Silver, Iron, Lead, Copper, Coal, and other Mineral Riches. The first discovery of Gold in California was made by DON JOSE D'ALVEAR, an eminent Spanish Geologist, Chemist and

Natural Philosopher, by means of a newly invented Magnetic instrument, called the COLDOMETER, or GOLD-SE: KER'S GUIDD Signor D'Alvear has just arrived at New York from the Gold gions of California, by way of Panama, Chagres, and New Or-ans, bringing with him a very large quantity of Gold Ore, val-d at nearly one million of Dollars, which he collected there

the existence of the Gold mines became known to the dents of California generally. HISTORY OF THE DISCOVERY.

Signor D Alvear went out to California nearly two years ago, in consequence of certain information which he had received of the geological character of that country, with the firm behel that vast mines of precious metals would be reveated there upon careful investigation. He was encouraged to the enterprise, also, by his confidence in a certain Magnetic instrument which he had invented, called the "Goldometer," by whose aid the expected to be directed at once to the "Gold Platers," if any such existed.—Nor were his expectations disappointed. His selicutific calculations proved to be founded in truth and profound wisdom, and his new instrument, the "Goldometer," fulfilled his highest boyes. In less man two months after reaching Ga ifornia, he struck upon one of the richest Gold mines in that country, upon an obscure branch of the Sacramento river, in a gorse of hitts extremely rocky and difficult of access, and seldom visited by the native Californians. Disquising his object under the prefence of purely scientific research, he obtained the hid of some fifteen or twenty simple and faultful lindians, and steadily pursued his task, collecting often more than \$3,000 worth of Gold in a single day, which he concealed in a deep ravine, without exciting any suspicion whatever, until after the discovery of gold at Capt. Sutter's Mill, when the mountains were ransacked by gold seekers, and Signor D'Alvear's "gold placer." the richest in all California, was beset with greedy adventurers. It is now found that the real mines or sources of the gold, lie in the gorges of the mountains, and not in the beds or sands of the rivers. Previous to leaving California, Signor D'Alvear sold his instrument, the Goldometer, a very imperfect one, for £3,000. The person who purchased it confidently expected to make a handsome fortune, by simply finding "gold placer," and selling the right of digging to the gold workers. expected to make a handsome fortune, by simply finding "gold placers" and selling the right of digging to the gold workers. Signor D'Alvear, in compliance with the request of numerous scientific gentlemen, has commenced the manufacture of this new Magnetic instrument, the GOLDOMETER, which he now offer sale, in the United States, at the remarkable low price of THREE DOLEARS each, accompanied by full instructions for use, and a variety of Philosophical limits drawn from ancient and modern sciences; or the

Persons going to California cannot make a better investment than by purchasing one of these instruments, which will not only be worth tifty times its value there, to self again, but will be of mestimable worth to those who go mesarch of Gold, as has been groved by the most abundant experiment both in California and the United States. TESTIMON: ALS.

Signor D'Alveat does not deem it necessary to encumber this notice with a long list of testimonials, in proof of the value of his GOLDOMETER, and GOLD SEEKER'S GUIDE. The berthant results of his labors in California, and the discovery, this ver week, of fresh veins of gold in Virginia, and heds of Coal i week, or rest vents of sign in virginia, and reas or von in Rhode Island, by its use, are alone sufficient to stamp it as the greatest discovery of the age. Nothing but the extreme cheap-ness of the mixtument, and his desire to see it used for the benefit of mankind, induces him to dispose of it at the low price for which he offers it. «Besides this, his own desire for wealth is near-

The following Testimonials, in proof of the value of the Goldometer, selected from a great number equally satisfactory, must suffice for the present:

N. B.—No Booksetter allowed to sell this work.

THIS WORK contains recently discovered information upon a subject of the highest importance to Married Persons, or those contemplating Marriage.

It will be found of special value to fitted whose means, health Important Caution. flewate of a base counterfeit of Wistar's Balsam of Wild Cherry, signed by one Win. M. Spear, who, in order to palm his vite imitation upon the public, has obtained a fac simile of our bottle, and copied our label of directions rerbatim, substituting his own name for that of Henry Wistar, M. D, which is found on the genuine. or other circumstances, do not permit them to increase the number of their family, great inconvenience, suffering, or perhaps risk of life. A method of avoiding these troubles and dangers, at will, (recently discovered by a celebrated French Physician.) is fully communicated in this work, so that any person may avail himself it at once, without cost. The means of prevention here set forth are therefore within the reach of all. The process is new, safe indilible, convenient, simple, and cannot injure the health of the most delicate. nine. Remember, the outside labefor wrapper of the genuine Hal-am Is a finely executed steel plate engraving, bearing the signature of Henry Wister, M. D. and Sanford & Park—none other can be genuine.

ANOTHER INVALID RESTORED TO HEALTH. (Read the following statement of facts from Mr Eli Balley, a lighly respectable merchant of Vienna, Johnson co, Illinois.)

(ERTLE MEN:—A desire to Jeneth the afflicted throughout the land has alone induced me to make the following statement of facts respecting one of the most astonishing cures ever recorded. My son, now seventeen years of age, has been afflicted during his whole life, with a constant cough, pain in the 'side and chest, accompanied with night sweats and heetic fever, which produced with night sweats and heetic fever, which produced even gented clothing—when me Boy et Girl thrown upon great emaclation and debility; and at intervals during the might, his expectantion would become so great as to endanger his life from strangulation. During the time he was attended by many physicians of the highest repute, whose press, iptions gave but temporary relife—in fact, so alarming were the sumptions and solutions. in elerate was his lisease, that I was compelled to believe him teand the reach of Medical aid?
All of our neighbors and friends who saw him, regarded him as All of our neighbors and friends who saw him, regarded him as ofte who was rapidly approaching an early and premature yeave. After having thus exhausted the skill of the less physicians with thout obtaining relief, I was prevailed upon by the advice of a friend to make use of Wistar's Ra'saw of Wid Cherry.

He commenced its use about the 30th of December, 1844, the first bottle of which gave astonishing relief, and I began again to indulge in the fond hope that he might yet be restored to leath.

After having continued the use of it until three bottles had been taken, the disease was entirely overcome, and his shattered constitution and emaciated form restored to sound and permanent health, which he continues to enjoy up to the present time.

I believe the gensine Dri Wistar's Balasm of Wild Cherry to be one of the most valuable medicines ever discoverel—knowing, as I do, that the above cure was effected solely by its use.

I am, gentlemen, very respectfully,

Your most obedient servant,

FLI BAILEY.

all other remedies now before the public of the same character. Coxyoos, Ind, Jan, 28, 1818. It is no less a duty than a plearure to state for the Tenefit of the afflicted, that I consider Britar's Balsam of Wild Cherry a grent blessing to the human race. Having tried it in case of severe affliction of the lungs, I unbesitatingly recommend it to those similarly afflicted as the best remedy I have ever tried and one which cured me when physicians said I must die, and when I thought myself, that my time to depart was near at hand.

There is a difference between WISTAR'S BALSAM OF WILD CHERRY, and all other preparations of Wild Cherry. The true and genuine Balsam, as sold by us, contains, besides the extract of Wild Cherry bark, other medical agents of great character and efficacy in the cure of coughs, ends, and general diseases of the chest and angs. But all the important difference between this medicine, and all others of the kind [is, that Wistar']. Balsam cures, while other remedies give only temporary relief to the sufferer.
