Paragraph's for the Million.

IF Man's reputation has been very aptly compared a sheet of white paper; if it be once blotted, it can hardly ever made to look as white as before. Apologists f youthful immoralities should think of this.

IF A woman living with her third husband in Hartford, has just had a call from her first spouse, who left her twonty-one years ago for South America, and whom she supposed to be dead. During his absence she has been twice married, her second husband being dead.

ORIOSS AND SESTIMENT .- The following toast was given at a suppor of the New England Society in Chicago. Illinois, on the 22d Docember: The fair onion-weeders of Weathersfield-Angels among vegetables; they always have "a smile on their lip and a tear in their eye." TY William Williams Smith Bliss, otherwise Major Bliss, the son-in-faw of General Taylor, was born in the

nliage of Whitehall, county of Washington, state of New York.

TT The Springfield Republican mentions an elopoment from New Haven, Connecticut. The gentleman is said to be an artist, and the lady one of the "upper ten thousand," handsome, accomplished and romantic.

Tr The latest case of absence of mind reported is that of a man deeply involved in debt, who went on board of a vessel bound for California, to take leavelof his friends, and forgot to come ashore again.

ar Gon. Taylor seems to be destined to be more conpicuous on Sundays than on any other day in the week! He fought the great battle at Buena Vista on that day, and during his tour to the seat of goverment, he made three speeches on Sandays, at Louisville, New Albany, and at Memphis.

17 An English writer, foaming at the mouth over the news from California, says the accounts are atrocious lies "put forth by the pet children of the fathor of lies. the choice cheats of the Universe-the Yankees!"

07 The present generation is getting far ahead of the last. The following is an instance: "John my son," said a doting father, who was about taking his son into business, "what shall be the style of the new fum?"-"Well, governor," said the one-and twenty youth, looking into the heavens to find an answer, "I don't knowbut suppose we have it John II. Sumpling & Father." The old gontleman was struck at the originality of the ides, but couldn't adopt it.

House SKATES .- A writer in the National Intelligener mentions the invention of horse skates, by means of which, in the cold latitudes, an ordinary horse has been known to travel as much as an hundred miles in the short rous of three hours, without an apparent fatigue. A fill soit, ho says, of those marvellous skates bedecked in the Norwegian sigle has been doposited in the Patent Office.

CALIFORNIA EMERALING.-The New York Sun says that one of the most distinguished jowellers in that city has, within a few weeks past, set in gold three of the nost valuacle emeralds ever seen in this country. They were left with him by the wife of Con. FREMONT. The omeralds were presented to Mus. FREMONT on his last return to the United States.

Ar A young compositor in the Office of the Cincinnati Chronicle, has just recoived a letter from GRN. SAM-Ust Horston, stating that his father, who died in Texas some years since, left an estate worth over \$50,000, and offering him his assistance in recovering the possession of the property.

MR. CLAY .- The Washington corresdent of the Jersey City Sentinel, a Taylor paper, says :- "I much fear the appearance of HESNY CLAY in the Senate. He still has power, and was never known to forgive his encinies. The question is, will be sit tamely and acquiesce in the appointment of those who have opposed him in the late canvass. I think not. If he does, he will assuredly show a great change of character. On the contrary, if he adopts opposition, with the assistance of the democrats, would not the union and consequent prosperity of the whig party be in danger?"

CALIFORNIA GOLD

DISCOVERED BY SIGNOR D'ALVEAR'S GOLDOMETOR!!

THE GOLD-SEEKER'S GUIDE! Or Secret art of finding Mines of Gold, Silver, Iron, Lead, Copper, Coal, and other Mineral Rickes. The first discovery of Gold in California was made by DON OSE D'ALVEAR, an eminent Spanish Geologist. Chemist and intural Philosopher, by means of a newly invented Magnetic in-rument, called the

GOLDOMETER, or GOLD-SET KER'S GUIDE Bignor D'Alvear has just arrived at New York from the Gold egions of California, by way of Panaug, Chagres, and New Or-eans, bringing with him a very large quantity of Gold Ore val-ied at nearly one million of Dollars, which he collected three ong before the extrainer of the Gold mines became known to the evidents of California generally.

HISTORY OF THE DISCOVERY.

HISTORY OF THE DIRCOVERY. Bignor B'Alvear went out to California meanly two years ago, in consequence of certain information which he had received of the geological character of that country, with the firm ledler that vast mines of precious metals would be revealed there u.on careful investigation. He was encouraged to the cuterprise, also, by bis couldence in a certain Magnetic instrument which he had invented, called the "Goldometer," by whose aid he expected to be directed at once to the "Gold Placers," if any such existed.— Nor were his expectations disappointed. His scientific calcula-new instrument, the "Goldometer," fulfilled his highest boyes. In less than two mouths after reaching California, he struck upon one of the richest Gold minest in that country, upon an obscure branch of the Bacramento river, in a gorge of hills extremely rocky and difficult of access, and seldom visited by the naitive Californians. Disguising his object under the pretence of purely scientific research, he columed the aid of some fifted wor twer ty simple and faithful Indians, and steadily pursued his task, collect-ing often more than 93,000 worth of Gold in a single day, which he mountains were ransucked by gold seekers, and Signor D'Alvear's "gold placer." the richest in all California, was beau whith greedy advenuters. It is now found that the real mines or sources of the gold, lie in the gorges of the mountains, and not in the beds or smids of the rivers. Previous to leaving California, Signor D'Alvear's "gold his instrument, the Goldometer, a very im-perfect one, for \$3,000. The person who purchased it confidently expected to make a handsome fortune, by simply inding "gold placers" and selling the right of digging to the gold workers. **Manufacture of the Goldomet r and Fublica-**

Manufacture of the Goldomet r and Fublica tion of the Guide.

Bignor D'Alvear, in compliance with the request of numerou cientific gentienen has commenced the manufacture of this new lagnetic instrument, the GOLDOMETER, which he now offer THREE DOLLARS each, accompanied by full instructions for use, and a variety of Philosophical hints drawn from ancient an use form under a statement of the stat

odern sciences, or the ART OF FINDING MINES OF GOLD! Silver, Platinum, Quicksilver, Coal, Iron, Copper, Lead, and oth er mineral Riches, the whole being given in a publication call of the

for same. The GOLDOMETER is so simple an instrument, that a child may learn to operate with it in five minintes. It is not affected by climate, moisture, or any other known cause, (except the natural magnet), and will retain its power of pointing out mineral tickes in the carth for any number of years. By the aid of the Guide may person may use the inst unneat at once with perfect success. FARMERS AND LAND OWNERS.

Farmers and Land Owners throughout the United States, where reason to suspect the existance of any kind of Mineral riche upon their lands, should avail themselves of this opportunity the study fact, by the surrest of all known tests, before the abunding of discoveries in all parts of the country shall have besche this source of wealth in their estate.

ADVENTURES TO CALIFORNIA.

ADVENTURE: TO CALLEVATERA Persons going to California cannot makes better investment than by purchasing one of these instruments, which will not only be worth fifty times its value there, to sell again, but will be of in-estimable worth to those who go in search of Gold, as has been proved by the most abundant experiment both in California and the United States. **TESTIMONIALS.**

Signor D'Alvear does not deem it necessary to encumber this notice with a long list of festimonials, in proof of the value of his GOLDOMETER, and GOLD SEEKER'S GUIDE. The brilliant

week, of fresh verus of gold in Virginia, and the discovery, this ver-week, of fresh verus of gold in Virginia, and beds of Coal if Rhode Island, by its use, are alone sufficient to stamp it as th greatest discovery of the age. Nothing but the extreme cheap ness of the instrument, and his desire to see it used for the hence

ness of the instrument, and his desire to see it used for the benefit of mankind, induces hun to dispose of it at the low price for which he offers it. Besides this, his own desire for wealth is nearly satisfied.
