## PUNCTUATION.

A country schoolmaster, who found it rather dif-ficult to make his pupils diserve the difference between a comma and a full point, adopted a plan of his own, which be flattered himself would make them proficients in the art of punctuation; thus, in reading, when they came to a comma, they were to say tick, and read on to a colon or a semi-colon, tick, tick, and when a full point, tick, tick, tick. Now it so happened that the worthy dominie received notice that the parish minister was to pay a visit of examination to his school, and as he was desirous that his pupils should show off to the best advantage, he gave them an extra drill the day before the examination.

"Now," said he, addressing his pupils, "when you read before the minister, to morrow, leave out the ticks, though you must think them as you go along, for the sake of elecution." Next day came, and with it the minister, ushered

into the school-room by the Domine, who with smiles and bows, hoped that the training of the scholars would meet his approval. Now it so happened that the first boy called up by the minister, had been absent the preceding day, and in a hurry, the master had forgotten to give him his instructions how to act. The minister asked the boy to tend a chapter in the Old Tostament, which he pointed out. The boy complied, and in his best accent, began to read; "And the Lord spake unto Moses saying, tickspeak unto the children of Israel: tick-tick-and thus shalt thou say unto them, tick, tick, tick .-This unfortunate sally, in his own style, acted like a shower bath on poor Dominie, whilst the minister and his friends almost died of langhter.

A GAME OF "POKER" IN CALIFORNIA. - The Cincinnati Chronicle gets the following story from a friend "just up from New Orleans," and we cannot presume to doubt it, as the information was obtained from persons "recently returned from California;" It appears that four persons had seated themselves in the mines to play a game of poker-the ante, as a substitute for money, being a handful of gold dust. They continued playing some time without either who had a good hand, went a handful "better." "I

see that, and go a pint better," cried another, who also had a "strong" hand. "I see that," responded the first, "and go a quart better." "Well, I see that, and go you a gallon better," responded the first. This rather disconcerted his adversary for a moment, as it "over-sized his pile"—but, confident in the superior strength of his hand, he collected together all the gold dust he had left, and putting it aside, coolly remarked to one of his companions: "Here Jim, watch my pile till I go out and dig enough to

A Publican.-There is a good deal of character in an anecdote just related to us of "an heathen man and a publican." in a down-eastern region. A Suvepipe, &c., corner of French and Fifth streets, Eric. narty of young men were "making merry" in an KELSO & LOOMIS, party of young men were "making merry" upper room, when the landlord came up and said; "Gentleman, I wish you would make a little less se here, for there is a man below who is very sick.'

"Silence like a poultice came "To heal the wounded ear" of the sick manfor abwile, but presently the frollicking was resumed. The landlord come up again and said—Gentleman, I wish you'd make a leetle less racket; the man is dying." All was now still; when all at once the door was opened, and Boniface popped in his head to say, "Go ahead now, gentlemen make as much noise as you like. The man is dead. Knickerbocker

IDLENESS .- Carlyle says :- Nine tenths of the miseries and vices of manhood proceed from idleness, with men of quick minds, to whom it is especially pernicious, this habit is commonly the frui of many disappointments and schemes oft bafiled; and men fail in their schemes not so much for the want of strength, as from the ill direction of it. The weakest living creature, by concentrating his powers on a single object, can accomplish something; the strongest, by dispersing his over many, may fail to accomplish anything. The drop, by continued falling, bores its passage through the hardest rock-the hasty torrent rushes over it with hideous uproar and leaves no trace behind.

The New Haven Boat leaves New York at an earley hour, and the passengers generally come at the last minute, in a desperate hurry. One day last week, a lady and her husband stepped on board just as they were drawing in the plank, but just; then she remembered that she had forgotten something, and screaming out-

Modest .- "My dear, don't say tale, say narrative," said a modest lady to her little son who was relating a very interesting "tale," he had just read in the newspaper. While the little fellow was thinking of his mistake, the old house dog walked in shaking his tail and looking quite familiar at the boy, when he exclaimed: "Ma, make Sancho

quit shaking his narrative." Old Coffin moved from Black River because he didn't like the climate. "In winter," says he, giving his reasons, "you have a cold day and then a colder, and then a colder yet, and then a d-n cold day, and then comes on cold weather." Black

For the Removal and Permanent Cure of all NERVOUS DISEASES, of those Complaints which are caused by an impaired, and or unhealthy condition of the

omplaints arise from one simple cause, namely, A Derangement of the Nervous System. Or- in NERVOUS COMPLAINTS, Drugs and Molicines interease the disease, for they weaken the vital energies of the already prostrated system; while under the strengthening, lifegiving, vitalizing influence of Galvanism, as applied by this beautiful and wonderful discovery, the exhausted patient and weakened sufferer is restored to former health, strength, elasticity and vigor.

The great peculiarity and excellence of Dr. Christie's Galvanic Curatives, consists, in the fact that they arrest and cure disease by outtord application, in place of the usual mode of drugging
and physicking the patient, till exhausted Nature sinks hopelessly under the infliction.

They strengthen the whole system, equalize the circulation
of the blood, promote the secretions, and never do the slightest
injury under any circumstances. Since their introduction in
the United States, only three years since, more than

including all ages, classes and conditions, among which were a large number of ladies, who are peculiarly subject to Nervous Complaints, have been ENTIRELY AND PERMANENTLY CURED, when all hope of relief had been given up, and every thing else been tried in vain! To illustrate the use of the GALVANIC BELT, suppose To illustrate the use of the GALVANIC RELT, suppose the case of a person afflicted with that hone of civilization, DVSEPSIA, or any other Chipmic or Nervous Disorder. In ordinary cases, stimulants are taken, which, by their action on the nerves and muscles of the stomach, afford temporary relief, but which leave the patient in a lower-state, and with injured faculties; after the action thus excited has ceased. Now compare this with the effect resulting from the application of the GALVANIC BELT. Take a Dyspeptic surferer, even in the worse symptoms of an attack, and simply the the Belt around the body, using the Magnetic Fluid as directed. In a short period the insensible perspiration will act on the positive element of the Belt, thereby causing a Galvanic circulation which will pass on to the negative, and thence back again to the positive, thus keeping up a continuous Galvanic circulation throughout the system. Thus the most severecases of DYSPEPSIA are fermaneer. Thus the most severecases of DYSPEPSIA are fermaneer.

A CHAIN OF EVIDENCE.

No. 1.

The following letter is from Mr. Alonzo D. Felter, of Kingston, N. Y., a gentleman of high respectability and influence. KINGSTON, Ulster Co., N. Y., Jan. 21, 1848 KINGSTON, Ulster Co., N. Y., Jan. 21, 1848
To Dr. A. H. Christie—
About the first of November last I called at your office and purchased one of your Galvanic Belts, and I am happy to say that it has made a slew man of me. For years I have been troubled with Ringstarian, very severe, and a general weakness of the whole system, and very nervous, with pain in the head, so severe that! would have to take to my bed three or four times a day! My friends are astonished at the perfect and wonderful cure wrought on me. I never was better in my life than row, and I know that this is altogether owing to your GALVANIC BELT, for I had had the best physicians, and had trued every thing previous to using it, without

My Dean Docton,
You ask me to give you an account of the success of your GALVANG BELFS in this region. I can truly say that they continue to do wonders; hundreds wear them, and I do not know of a solitary case of faither in their use. I sold a Belt and the Magnetic Fluid to a lady here some weeks since. She had a complication of nervous disorders, and was very low. Dr. Nelson attended her, but did her no good; and the Doctor blew out considerably when she got the belt, and ridiculed it; but the lady used the Belt and was cured. Now this Doctor had the Dy spepsia for a great while, and could not cure himself, but gets this lady's Belt, wishes it kept p secret, puts it on himself, and it did him so much good, that yesterday he called on me and got one for his wife.

secret, puts it on himself, and it did him so much good, that yesterday he called on me and got one for his wife.

No. 3.

Miss Vandemark, of this town, lay all winter with the Rheumatism. She got to be perfectly helpless. Every one who saw her raid she could not live. She sent for a GAL-VANIC BELT—put it on—used the Fluit freely, and in elemt days she went out visiting, and is to be not assumed that he had been assumed to the Belt, but now says there is certainly a remarkable curative power in your Belts.

Mr. John Eman, merchant of this place, was reduced to a mere skeleton, by Dyspensia and general chronic disease; he got a Belt and the Fluid, and is now as healthy a man as we have got in Kingsion. He has spent large saims of money in various nostrums previously, but they all proved useless.

No. 5.

An old gentleman by the naine of Newkirk, had the Dyspensia for thirty years. He tells not that he could not cat any thing without its rising on his stomach; he was very much emaciated and looked miserable; but he purchased a Belt from me, and after wearing it 3 or 4 weeks, he drove up to the door and said he had come to thank me for selling him Christie Brat, as it had made a well man of him. He says that he now eats and digrests perfectly, and that he is as hearty as any of his neighbors. He is about 60 years of age.

Mr. Wood, of Marbletown, was drawn up with Croup and Rheumatism, to that he could not move. His brother got a Belt for him, and in one week he was so well that he was about attending to his business. He says it is the greatest thing on earth.

The wife of Mr. Joseph King, of Kingston, has been complaining of lassitude and general weakness for several years, and also troubled with indigestion. She got the Belt and Fluid, and Mr. King told me this day, that his wife was like another woman, it had done her so much good. I could give you a great many more cases, equally successful, but I suppose these will be sufficient. I may say that I never was engaged in any business that has been so fortunate and satisfactory to all concerned.

Very truly yours. ALONZO D. FELTER.

TAILORING.

THE undersigned takes this method of informing the citizens of Eric and vicinity, that he still continues the business of TAILORING at his old stand, where he will be happy to cave them from the horrors of slop shop clothing, by making a fair and handsome garment his a very reasonable price. It returns his thanks to the public generally for its kind and liberal patronage hereofore, and trusts, by strict attention to business, to merit and reactive the same for the future; as he feels confident that from long experience in some of the principal shops of London and New York, he can execute any work entrusted to him in the most workmanlike, fashionable and satisfactory manner.
