But eager for a chance to drill their master!-Such squads of office-seekers!-I'm afraid You'll be quite murdered by the hungry band Claiming "appointments" from your noble hand. That really are "not fitting to be made!"

From 6.es, good General, you have nought to fear-You've faced their cannons' mid their loudest roars-But how'll you stand the thousand "friendly" beres That point their brazen muzzles at your ear? I'rom "hostile troops" no danger now impends-

his boat, a very uncomfortable shower came pantering down, at the moment when he was about BUSINESS DIRECTORY ropping auchor to sketch the picturesque establithment of a squatter. He hesitated a moment, but fineally let go, and his boat swung around in the stream.

"Vot, ish you going to pictur him mit der rain?

inquired his german boatman.
'No," says sam, "but I'm going to pictur' him mit the pencil. We are now about at the right spot to take a good view of that odd-looking cabin and if we go on we will lose it. So hawl out the old umbrella, and I will try a sketch. Perhaps by the time we finish our view the proprietor wil invite us to take some buttermilk with him."

The old umbrella-had, by certain violent concussions received on the trip, become quite a curiosity.

One half of the whale bones were gone, and when it was hoisted, it hang like a wo begone sambrero over its owner. The pitching of it carelessly into the heat on sandry occasions had introduced ill

States. Sam, however, worked away beneath the "gingham" until he finished his sketch. All this time an affuent from the top of his cone-like covering poured a flood of dark-tinged water through one of the holes and down his neck. His German watched this stream with intense interest, as if calculating how much the arrtist's cloths would hold before they would leak. When he had finished, George, the German, broke in admiration: "Vell, for a little mans you soaks more vater den

"You're an electioneerer, ar you?" inquired the squatter.

A BALL-Room,—What a scene of commonplace is the ball-room! how hackneyed in hovels! how trite in ordinary life! And yet, ball rooms have a character and a sentiment of their own, for all tempers and all ages. Something in the lights-the crowd -the music-conduces to stir up many of the thoughts that belong to fancy and romance. It revives many of those lighter and more graceful imuges connected with the wandering desires of youth; shadows that crossed us, and seemed love, but were not; having much of the grace and charm, but none of the passion and tragedy of love. Somehow or other, it is one scene that remind us most forcibly of the loss of youth! We are brought so closely in contact with the young and the short lived pleasures that once pleased us, and have forfeited all bloom. Happy the man who turns from "the twinkling cymbal," and the "gallery of pic-tures," and can think of some watchful eye and some kind heart at home. But those who have no home-and they are a numerous tribe-never feel lonelier hermits or sadder moralitats, than in such a crowd.

A PLAIN CASE PLAINLY STATED .- The ministry and churches have a weighty responsibility in reference to the poor and afflicted, which is not met by learned, elegant sermons, or by steady going to church and listening on comfortable cushions to fine preaching.

Vice, poverty, suffering, sickness, are all around our churches, and the great Master of Chistians wills that his disciples should follow his own exampic, and go about doing good. It will not do to suffer people to pine and want and die in sight of the churches. It will not do to say we give of our means to send Bibles, tracts and missionaries. It will not do to say we pay poer taxes and belong to

charitable societies and all that.

Here are hundreds of miserable people, they want food, clothing, fuel, medicine, sympathy. Shall they have these things? Yes or no?

GEN. TAYLOR AND THE SMITH FAMILY .- Among the thousands who introduced themselves to Gen. Taylor, at Baltimore, was one of the ubiquitous Smith family. On hearing the name; Gen. Taylor remarked, with a mere twinkling of the eye-"That's no name at all."

"That's no name at an ."
"Why, General," replied Mr. Smith, "you should have no objection to the name-Mrs. Taylor was a

For the Removal and Permanent Cure of all NERVOUS DISEASE'S, And of those Complaints which are caused by an impaired, weakened or unhealthy condition of the NERVOUS SYSTEM.

This beautiful and convenient application of the mysterious powers of GALVANISM and MAGNETISM, has been pronounced by distinguished physicians, both in Europe and the United States, to be the most valuable medicinal discovery of the Age.

Dr. CHRISTIE'S GALVANIC BELT

which complaints arise from one simple cause, namely, A Derangement of the Nervous System. A Derangement of the Norvous System.

(T)— In NERVOUS COMPLAINTS, Drugs and Metheines increase the disease, for they weaken the vital energies of the aiready prostrated system; while under the strengthening, life-giving, vitalizing influence of Gulvansan, as applied by this beautiful and wonderful discovery, the exhausted patient and weakened sufferer is restored to former health, strength, elasticity and vigor.

The great peculiarity and excellence of Dr. Christie's Galvanic Curatives. consists, in the fact that they arrost and cure disease by out-ward application, in place of the usual mode of drugging and physicking the patient, till exhausted Nature sinks hope-lessly under the inflation.

They strengthen the whole system, equalize the circulation of the blood, promote the secretions, and never do the elightest injury under any circumstances. Since their introduction in the United States, only three years since, more than

60,000 Persons

including all ages, classes and conditions, among which were a large number of ladies, who are peculiarly subject to Nerveus Complaints, have been ENTIRELY AND PERMANENTLY CURED. when all hope of relief had been given up, and every thing else been fried in vain!
To illustrate the use of the GALVANIC BELT, suppose the case of a person addicted with that bane of civilization, To illustrate the use of the GALVANIC BELT, suppose the care of a person afflicted with that bane of divilization, DYSPEPSIA, or any other Chronic or Nervous Bioorder. In ordinary cases, stimulants are taken, which, by their action on the nerves, and muscles of the stomach and not temporary relief, but which leave the patient in a lower late, and with injured faculties; after the action thus excited has ceased. Now compare this with the effect resulting from the application of the CALVANIC BELT. Take a Dyspeptic sufferer, even in the worse is mittoned on attack, and simply to the Belt around the body, using the Magnetic Fluid as directed. In a short period the incussible perspiration will act on the positive clement of the Belt, thereby causing a Galvanic circulation which will puss on to the negative, and thence back again to the positive, thus keeping up a continuous Galvanic circulation throughout the system. Thus the most severe cases of DYSPEISIA are FLEMANENTLY CURED. A FEW DAYS IS OFTEN AMPLY SUFFICIENT TO ERADICATE THE DISEASE OF YEARS

A CHAIN OF EVIDENCE.

The following letter is from Mr. Alonzo D. Felter, of Kingston, N. Y, a gentleman of high respectability and influence. Kingsron, Ulster Co., N. Y., Jan. 24, 1848

To Dr. A. II. Chaisin.—

About the first of November last Lealled at your office and About the first of November last I called at your office and purchased one of your Galkonae fielts, and I om happy to say that it has made a new man of me. For years I have been troubled with Ring system, and received and a general week, sees of the whole system, and received, and a general week head, so severe that I would have to take to my bed three or four times a day. My frends are astonished at the perfect and wonderful cure wrought on me. I never was better in my life than-now, and I know that this is altogether owing to your GAEVANIC BELT, for I had had the best physicians, and had tried every thing previous to using it, without effect.

Very respectfully, ALONZO D. FELTER. Mr. Figran procured a number of the GALVANG BELTS, and having disposed of them among his firends, thus writes:

My Dear Doctor,

You ask me to give you an account of the success of your GALVANIC BELITS in this region. I can truly say that they continue to do wonders; hundreds wear thom, and I dq not know of a solitory care of failure in their use. I sold a Belt and the Magnetic Fluid to a lady here some weeks since. She had a complication of nervous decorders, and was very low. Dr. Nelson attended her, but did her no good; and the Doctor blew out considerably when she got the belt, and rahended it; but the lady used the Belt and was cirred. Now this Doctor had the Ds spepsia for a great while, and could not cure himself, but gets this lady's Belt, whiles it kept, a secret, puts lit on himself, and it did him co much good, that yesterday he called on me and got one for his wife.

Mr. John Eman, merchant of this place, was reduced to a mere skeleton, by Dyspensa and general chronic disease; he got a Belt and the Fluid, and is now as healthy a man as we have got in Kingston. He has spent large sums of money in various nostrums previously, but they all proved useless.

An old gentleman by the name of Newkirk, had the Dyspensia for thirty years. He tells me that he could not eat my thing without its iving on his stomach; he was very much emaciated and looked miserable; but he purchesed a Belt from me, and after wearing it 3 or 4 weeks, he drove up to the Adors and said he had come to thank me for selling him Cintistic Benty, as it had made a well man of him. He says that he now eats and digests perfectly, and that he is as hearty as any of his neighbors. He isobout 60 years of age.

Mr. Wood, of Marbletown, was drawn up with Croup and Rheumatism, so that he could not move. His brother got a Belt for him, and in one week he was so well that he was about attending to his business. He says it is the greatest thirg on earth.

The wife of Mr. Joseph King, of Kingston, has been complaining of lassitude and general weakness for reveral years, and also troubled with indigestion. She got the Belt and Fluid, and Mr. King told me this day, that his wife was like another woman, it lad done her so much good. I could give you a great many more cases, equally successful, but I suppose there will be sufficient. I may say that I never was engaged in any burness that has been so fortunate and satisfactory to all concerned.

Very truly yours. ALONZO D. FELTER.

Eric, March 19, 1815. TAILORING.

THE undersigned takes this method of informing the citizens of Eric and vicinity, that he still continues the business of TAILORING at his old stand, where he will be happy to save them from the horrors of slop shop clothing, by unking a fair and handsome garment at a very reasonable price. He fectures his thanks to the public generally for its kind and liberal patronage heretofore, and trusts, by strict attention to business, to merit and receive the same for the future; as he feels confident that from long experience in some of the principal shops of London and New York, he can execute any work entrusted to him in the most workmantike, fushionable and satisfactory manner.
