THE FUTURE. Years are coming-speed thou onward! When the sword shall gather rust, And the hemiet, hance and faichion.

Sleep in silent dust! Earth has heard too long of battle, Heard the trumpet's voice too long;

But another age advances, Seers foretold in song. In the past, the age of irop, Those who slaughtering met their kind,

Have too often worn the chaplet Honor's hand has twined. But the heroes of the future

Shall be men whose hearts are strong; Men whose words and acts shall only War against the wrong.

But the sabre, in their contests Shall no part, no honor own: War's dread art shall be forgotten, Carnage all unknown.

Years are coming, when forever War's dread banner shall be furied, And the angel. Peace, be welcomed Regent of the world!

Hail with song that glorious era, When the sword shall gather rust. And the hemlet, lauce and falchion, Steep in silent dust!

ROMANCE IN REAL LIFE. - A few days since a young man arrived here from one of the Eastern Arrived here from one of the Eastern Arrived here from one of the Eastern Co seen, the father having left the place of his nativity, in England, before he was born. For years, the young man had been endeavoring to discover the whereabouts of his parent, without success, and at last, by one of those startling incidents which give a character of romance to truth itself, he found his parent, under circumstances as painful as they were peculiar. In walking through one of the principal streets of our metropolies, he met a gentleman from the same city in which he resided, and who was acquainted with his history, and who thus ac-costed him:-"Well J-----, | beleive I have discovered where your father is," an i proceeded to relate that in looking over a copy of the "Lives of the Felons" he was struck by the resumblance which he bore to the portrait of Honeyman, the barge robber. The young man laughed at the idea, and regarde. it almost as an impossibility that his father should be an inmate of the State Prison; but, finally, a copy of the book was purchased. The youth was himself struck with the resemblance he bore to the portrait of the convict, and was induced to read the biography accompanying it, when incidents and localities Arrows vi Law-Officeup strins in Tammany llall building recurred to his memory, which impressed him with north of the Prothonotary's office, Erie. recurred to his memory, which impressed him with the painful conviction, that he had at last discovered his father in a convicted felon. The agony of the young man may be conceived; he resolved to visit Sing Sing and obtain an interview with Honeyman -he did so, and when brought into each other's presence, the resemblance between them was still more strikingly apparent. Honeyman trembled with agitation as he admitted that when he left England in company with the female who passed here as his wife, the female to whom he was actually married, was likely to have a son, who, if alive, would be of the same age as the young man who stood weeping and agitated before him. There can scarcely be a' doubt as to his identity, but as his mother is somewhere in the Western part of this State, measures have been taken to solve the mys tery, which now surrounds the matter .- N. Y. Morning Star,

----MIND YOUR OWN BUSINESS .--- Yes, mind your own business! What need it concern you if John Snooks is courting Sall Thompson? They are undoubtly rational beings, and can conduct their love affairs in a becoming manner, without any of our inter-ference. What if Deb Short has got a new dress? It is probably paid for and cost you nothing. Therefore, why need you interest yourself so deeply about it. What if the principal merchant in the village has become insolvent? You are not among his creditors, and for heaven,s sake why can't you let the man have a little enjoyment? Suppose Dorcas Swilt does go to a dancing school, it costs you nothing, and as she has a frail constitution a little exercise of this kind will benefit her general health. This intermeddling with the affairs of others, to the utter neglect of your own, is becoming a great deat too prevalent, with a certain class in small villages. There are none of us who escape misfortune, or are free from error; but to be made the butt and by-word of a set of gossipping, intermeddling simpletons. merely on account of inevitable misfortune or a isngle error committed, is far from being agreeable. If this class of beings have any buisness of their own, we hope that out of shame for themselves, and for the credit of their relatives, they will attend to Leic, Eastern Western and Southern stage office. it.-{ Exchange paper. FIENDISH OUTRAGE.--- A gentleman from Boone county, Ky., yesterday related to one of our reporters an outrageous transaction, as it occurred in said county of late, altogether too horrible and mon-strous for publication in detail. The blood chills ught. A young lady, of tender years and at the tho form, had been in the habit of visiting a neighbor, living some little distance from her father's by crossing a field and copse of bushes, through which led a path. A large negro, being acquainted with her custome, ensconced himself in the loneliest spot along the path, and pounced upon the young lady, throwing her upon the ground showing a large butcher knife, and commanding silence, on pain of instant death. , His purpose was the basest, and to accomplish it, extraordinary means were used, in which a knife was brought into requisition! The wrotched young lady was eventually left senseless, bleeding on the earth, her bair dishevelled, showing features similar, we presume, to the victims of the inquisition. She did not recover sufficiently to wak for several hours. When she reached home, she fell fainting upon the door steps. She did not know the perpetrator of this awful outrage upon her.-Cincinnati Commercial. RIGER, THE DESERTER .- A letter in the Pawtucket Chronicle, from one of a party bound to California, by the way of Mexico has the following :---"At Jalapa we were called on by Col. Biley, the Irish deserter, (so called.) He is an officer in the Mexican army, and says he has been unjustly punished by Gen. Scott, as he never was an American citizen, nor was he enrolled in the American army. He came to Mexico on h's own hook, and asked a commission from Gen. Taylor; was refused, and as his object was to make money, he joined the Mexicans, and after serving in all the battlys, was taken at Cherubusca. He received two hundred stripes, the letter D was burnt in his cheek, and he imprisoned nine months. He intends, as soon as Gen. Taylor takes his seat, to apply to the United States for redress, which, if his story is true, he will undoubt. edly get. It is said Gen. Taylor never considered him a desertar. He is a fine specimen of an Irish gentleman, and a friend to all Americans. He has great influence here, and has helped many Americans that were in trouble here. We dined with him on Sunday and had a very pleasant time.'

Nervous Diseases,

A Derangement of the Nervous System.

GO- In NERVOUS COMPLAINTS, Drugs and Medicines increase the disease, for they weaken the vital energies of the already prostrated system; while under the strengthen-ing; life-giving, vitalizing influence of Galvanism, as applied by this beautiful and wonderful discovery, the exhousted patient and weakened sufferer is restored to forever health, strength; elasticity and vigor.

Dr. Christie's Galvanio Curatives,

Dr. Onristie's Galvanic Curatives, consists, in the fact that they arrest and cure disease by out-word application, in place of the usual mode of drugging and physicking the patient, till exhausted Nature sinks hope-leastly under the initiction. They strengthen the whole system, equalize the circulation of the blood, promote the scorehoms, and never do the slightest injurg under any circumstances. Since their introduction in the United States, only three years since, more than

60,000 Persons

including all ages, classes and conditions, among which were a large number of Relies, who are peculiarly subject to Nervous Complaints, have been

ENTIRELY AND FERMANENTLY CURED,

when all hope of relief had been given up, and every thing else been tried in vain !

when all hope of relief had been given up, and every thing elve been tried in vam! To illustrate the use of the GALVANIC BELT, suppose the case of a person afflicted with that bane of civilization, DVSPEPSIA, or any other Chrmnic or Nervous Divorder. In ordinary cases, stimulants are taken, which, by their action on the nerves and muxcles of the stomach, afford *temporary* relief, but which leave the patient in a lower state, and with injured faculties; after the action thus excited has ceased. Now compare thus with the effect resulting from the applica-tion of the GALVANIC BEET Take a Dyspeptic stalerer, even in the worke symptoms of an attack, and simply the the Belt around the body, using the Magnetic Fluid as directed, In a short period the insensible perspiration will act on the pasitive element of the Belt, thereby causing a Galvanic circu-lation which will puss on to the negative, and thence back again to the positive, thus keeping up a continuous Galvanic circulation throughout the system. Thus the most severe cases of DYSPEPSIA are FEIMANENTLY CURED. A FEW DAYS IS OFTEN AMPLY SUFFICIENT TO ERADI-CATE THE DISEASE. OF YEARS.

To Dr. A. H. CHRISTIN-About the first of November last I called at your office and purchased one of your Galvanic Bolts, and I am happy to any that it has made a new man of me. For years I have been troubled with BREENATION, very sovere, and a general ueak-ment of the whole system, and very nervous, with pain in the head, so severe that I would have to take to my bed three or four times a day. My friends are astonished at the per-fect and wonderful cure wrought on me. I never was better in my life than now, and I know that this is allogether owing to your GALVANIC BELT, for I had had the best physicians, and had trued every thing provious to using ut, without effect.

 GENTLEMENT—A desire to Length the afficient throughout the hand has alone induced me to make the following statement of facts respecting one of the most astonishing cures ever recorded. My son, now seventeen years of age, has been afficient during his whole life, with a constant cough, pain in the side and check, accompanied with night sweats and hertic fever, which produced great emaciation and debitity ; and at intervals during the night, his expectoration would be come so great as to endanger his life from strangulation.  All of our neighbors and friends who saw him, regarded him as one who was rapidly approaching an early and premature grave. After having thus exhemised the skill of the lest pluy icinas without obtaining relief. I was prevailed upon by the advice of a friend to make use of Wind Cherry.

FRASTING .--- A Kentuckian, on hearing praised the Rutt and punch-bowl, which on the christening of the young marquis, was built so large that a small boat was actually set a sailing upon it, in which a boy sat, who ladled out the liquor, exclaimed, "I guess I've seen a bowl that 'nd beat that all to smash; for, at my brother's christening, the bowl was so deep that when we young uus said it warn't sweet enough father sent a man down in a diving bell to stir up the sugar at the bottom."

ECONOMY ILLUSTRATED .--- A man who had purchased a pair of new shoes, finding the road to be rather a rough one, concluded to put the shoes under his arm, and walk home bare footed. After awhile he "stubbed" his great toe taking the nail off as "clear as a whistle" "How lucky!" he exclaimed; what a tremendious

lick that would have been for the shoes!"

A young prating lawyer, one day boasting to a facetious counsellor that he had received five and twenty guineas for speaking in a certain cause. "And I," said the counsellor, "received double that sum for holding my tongue in the same cause."

You ask me to give you an account of the success of your GALVANIU BELT's in this region. I can truly say that they continue to do wonders, blundieds were them, and if do not show of a solitary case of failure in their use. I sold a Belt and the Magnetic Fluid to a lady here some weeks since. She had a complication of nervous disorders, and was very low. Dr. Nelson attended her, but did her nogood ; and the Doctor blew out considerably when sle got the belt, and ridiculed it; but the lady used the Belt and was curied. Now this Doctor had the D yspersion for a great while, and could not cure himself, but gets this lady's Belt, wince it kept a secret, puts it on himself, and it did, him so much good, that yesterday he called on me and got one for his wile. Now 3. Miss VANENSARK, of this town, lay all winter with the fueumatism. She got to be perfectly helpless. Every one who saw her said she could not live. She sent for a 6 AL-YANIC BELT—put it on—used the Fluid fuely, and in her belt, but now says there is excitainly a semarkable cura-tive power m your Belts. No. 4.
