17 RIFLFCT! what a moment must be that when the last flutter expires on our lips! What a chalge Tell me, ye who are deepest read in nature and in God, to what new world are we borne! What new being do we receive? Whither has that spark, that unseen, that incomprehensible intelligence fled?before you? That was but a shell, a gross and earthly covering, which held the immortal essence that has now left us; left to range, perhaps through illimitable space; to receive new capacities of delight new powers of thousand fancies rush upon the mind as it contemplates the awful moment between life and death! It is a moment big with imiginations, hopes and fears; it is the consummation that clears up all mystery-solves all doubts-which removes contradiction and destroys errors. Great Grd! what a flood of rapture may at once burst upon the departed soul. The unclouded brightness of the celestial region-the solumn secrets of nature may be past, the present, and the future; strains of ununginable harmony, forms of impressionable beauty, may then suddenly disclose themselves, bursting upon the delighted senses, and bathing them in immeasurable bliss! The mind is lost in this excess of wonderous delight, and dates not turn from the heaventy wision to one so gloomy, so tremendous as the departure of the wicked! Human fancy shrinks back appalled!

BE GENTLE .--- A man with an irritable temper is more to be pitied than one lowered to earth by poverty. The latter evil can be ameliorated, while the former is a devil that makes havoc with all the fluer qualities of heart and mind, taking the helm from reason, and running the possesser against rocks and corners. A petulant man in a family of clublen even of his own, is worse than a small case of the small pax, from his influence on their young minds. The old adage, "As the old cock crows the young one learns," is a great truth, and we see it here illustrated. 'The old fellows that sputter and grow! around their homes, are sure to be imitated faithfully by the little watchers for paternal squalls, and a nest of hornets is made where peace and harmony alone should prevail. The fractious man should be consigned to valerian and penitence, and kept by force from speaking his contagion. What right has a man to poison the happiness of any, more than the food of his family.

The text might be made to apply to all the relalations of life where misery is cultivated and growl-ing made the order of all days. Block women in the and parties were the old saw about "dogs with sore heads" would give but a faint indication of their con-

For the Removal and Permanent Cure of all NERVOUS DISEASES, of those Complaints which are caused by an impaired aned or unhealthy combition of the

NERVOUS SYSTEM.

This beautiful and convenient application of the mysterious powers of GALVANISM and MAGN: TISM, has been pro-nounced by distinguished physicians, both in Kurope and the United States, to be the most valuable medicinal dis-covery of the Age.

Dr. CHRISTIE'S GALVANIC BELT MAGNETIC FLUID,

is used with the most perfect and certain success in all cases of

GENERAL DEBILITY,

Strengthening the weakened body, giving tone to the various organs, and invigorating the entire system. Also in FITS, CRAMP, PARALYSIS AND PALSY, Dyspepsia or Indigention,

BREUNATISM, Acute and Chronic, OUT, EPI-LEPSY, LUMBAGO, DEAFNESS, NERVOUS TREMORS, PALPITATION OF THE HEART, APOPLEXY, NEURALGIA, PAINS in the SIDE and CHEST,

Nervous Discases,

which complaints are trom one simple cause, namely,

A Derangement of the Nervous System. A Dorangement of the Norvous System. ' for in NERVOUS COMPLAINTS, Drugs and Medicines increase the direars, for they worken the vital energies of the already prostrated system; while under the strengthen-ing, life giving, vitalizing influence of Galvan and as applied by this beautiful and wonderful discovery, the exhausted patient and weakened sufferer is restored to forever health, strength, elasticity and vigor.

The great peculiarity and excellence of

Dr. Christle's Galvanic Curatives,

Dr. Chiristic's Calvanic Collectives, consists in the fact that they arrest and care discase by out-ward application, in place of the usual mode of dungeing and physicking the patient, till exhausted Nature sinks hope-leasy under the influcton. -They strengthen the whole system, equalize the circulation of the blood, promote the system, and never do the slightest injury under any circumstance. Since their introduction in the United States, only three years since, more than

60,000 Persons

including all ages, classes and chulithuns, among which were a large number of ladies, who are pseubarly subject to Nervous Complaints, have been

ENTIRELY AND FERMANENTLY CURED. when all hope of relief had been given up, and every thing

when all hope of relief had been given up, and every thing olde been tried in vain! To illustate the use of the GALVANIC BELT, suppore the case of a person afflicted with that bane of erritization, DYSPEPSIA, or any other Chronic or Nevrous Disorder. In ordinary cases, stimulants are taken which, by their action on the nerves and muscles of the stomach, afford temporary relief, but which leave the patient in a lower state, and with injured facultues; after the action this excited has cased. Now compare this with the effect resulting from the applica-tion of the GALVANIC BELT. Take a Dyspeptic sufferer, even in the worse symptoms of an attack, and smiphy the the Belt around the body, using the Magnetic bluid as directed. In a short period the inventible perspiration will act on the pakitive element of the Belt, thereby caseing a tah, and effer-lation which will pres on to the negative, and thence back again to the positive, thus keeping up a continuous Galvanic cross of DYSPENSIA, are p-LRUMANNENTLY CURED. A FEW DAYS IS OFTEN AMPLY SUFFICIENT TO ERADI-CATE THE DISEASE OF YEARS. Cortificates and Testimonicals

dition of mind. We need a society for the promotion of good nature more than for any other philanthropic purpose.

NATIONAL HAPPINESS .- Neither industry, nor sciences, nor machines, nor hooks, can alone make people happy. All these things are useful in their way, and the legislator ought to propagate and mul-tiply them; but if contented with not having devel-oped the intellectual and terrestrial part of man, he neglects to educate the soul, that divine escence of humanity, instead of a happy people, he will see around him only an uneasy multitude, unbridled in its passions and harrassed with the double want of rising and knowing of which the Sublime instinct constitutes its punishment. You have directed it towards the earth, and it remains there in the mid-t of riches and of pleasures which consume it. Why do you not open for it the gates of Heaven? Everything which aggrandize humanity, comes from above. You wish for happiness, for power, it has been placed in heaven! and wie wisest, if it be not also the most religious, can never be the happiest

GEN. TATLOR'S FIRST EXECUTIVE COMMUNICA-TION.-An amound story is hold of Gen. Taylor's first cosay at making an Executive communication. It is customary to appoint a communication. It is customary to appoint a committee of the Sen-ate to wait on the President of the United States to inform him that the body has organized and is ready to receive communications. Gen. Taylor, not ac-quainted with this form, sent Cut. Bliss with some hominations while Mark Atchieve and the other nominations while Mr. Atchison and the other members of the committee were on their way to announce that he Senate was ready to receive communications. The General, shocked that he had kept the Senate waiting, as he thought, started, turned round and exclaimed, "Where is Bliss? I sent those nominations by him two hours ago." Mr. Atchison bit his lips to prevent a smile, while the bysianders were highly amused at the native chagrin of the old General that Bliss had kept the Senate waiting.

HONEY MOON .- The origin of this word is little known, and yet so highly interesting, that we are constrained to give an account of it. It is traceable to a Toutonic origin. Among the Toutones was a favorite drink called metheglin. It was made of honey, and much like the present mead of the same name in European countries. The same beverage was in use among the Saxons, as well as another called morat, which was also made with honcy, but flavored with mulberries. These honied drinks were used in great abundance at festivials. Among the nobility, the marriage was celebrated a whole lunar month, which was called a moon, during which the festivial board was well, supplied with the honey drink. Hence this month of festivials was called the honey moon or honey month. The famous Alaric is said to have died on his wedding night from the offects of too much indulgence in methoglin.

DROWNED .- Dr. Heath, of Lexington, Lake Huron, with his youngest son, a hired man, and Mr. Shook, keeper of the Light House, were drowned on Lake Huron, while attempting to reach Port Huron in a small sail craft. The sufferers left home the early part of the month, favored by a gentle breeze from the north, but in the course of the succeeding night, it blew a tremendous gale from the north and east, which caused their friends to entertain feare for their safety, who went in scarch, finding their boat drifted ashore, with sail set, leaving no doubt that they have perished.

A KNOWING LAD .- A schoolmaster in Conneticut while examining a boy from Rhode Island in his catechism, asked the following question: "How many Gods are there? The boy after scratching his head some time, replied; "I don't know how many you have in Conneticut, but we have none in Rhode Island."

No. I. The following letter is from Mr. Alonzo D. Felter, of Kingston, N. Y, a gentleman of high respectability and influence. KINGSTON, Ulster Co., N. Y., Jan. 24, 1848

To Dr. A. II. CHRISTIN -About the first of November last I called at your office and

About the first of November last I called at your office and purchased one of your Galvanic Bells, und I an happy to my that it has made a new man of me. For years I have been troubled with Rukewsynsy, very kevere, and a general weak west of the whole system, and rere nervor, with poin in the head, so severe this I would have to takk to my bed three or four times a day. My friends are astonished at the per-fect and wonderful curve wrought on me. I never was better in my life than now, and I know that this is hilogether owing to your GALVANIC BELT, for I had had the hest physicians, and had tried every thing previous to using it, without effect. Very respectfully, ALONZO D, FELTER. Go- In consequence of the benefits experienced by himself, Mr. FKLTER procured a number of the GALVANIC BELTS, and having disposed of them among his fuends, thus writes : No. 2. Not Draw Docron. NY DEAR DOCTOR. NY DEAR DOCTOR. You ask me to give you an account of the success of your GALVANIC BELT's in this region. I can tuly say that they continue, to do wonders; hundreds wear them, and I do not know of a solitary case of failure in their use. I solid a Belt and the Magnetic Fluid to a hady here some weeks since. She had a complication of nervous disorders, and was very low. Dr. Nelson tutended her, but did her no good; and the Doctor blew out considerably when she got the belt, and ridiculed it; hat the lady used the Belt and was rursd. New this Doctor had the Dyspesin for a great while, and complia not cure himself, but gets this hady is Dett, wiches it kept a secret, puts it on himself, and it did him yo much good, thut y esterds he called on me and got one to his wife.

No. 4. Mr. John Eman, merchant of this place, was reduced to a mete skelton, by Dyspepsin and general chronic disease is he got a Belt and the Fluid, and is now as healthy eman as we have got in Kingston. He has spent have a ward useles. -No 6. An old gentleman by the name of New kirk, had the Dys pepsia for thirty years. He tells me that he could not eat any thing without its rising on his tomach; he was very much emaciated and looked miserable; but he purchased a Belt from me, and after wearing it 3 or 4 week, he droe up to the door and said he had come to thank me for selling him Churis-tw's Dr.z. as it had made a well mai of him. He says that he now eats and digests perfectly, and that he is as hearly as any of his neighbors. He isshout 60 years of age. Mr. Wood, of Marbletown, was drown up with Croup and Rheumatism, so that he could not not. His brother got a Belt for him, and in one week he was so well that he was about attending to his business. He says well that he was about attending to his business. He says well that he was about attending to his business. He says well that he was about attending to his business. thing on earth. No. 7. The wife of Mr. Joseph King, of Kingston, has been com-plaining of lossitude and general weakness for reveral years, and also troubled with indigestion. She got the Belil and Fluid, and Mr. King told me this day, that has wife was like another woman, it had done her so nuch good. I could give you a great many more cases, equally successful, but I suppose these will be sufficient. I may say that I never was ongaged in any burness that has been so foutunate and satis-factory to all concerned. Yory truly yours. ALONZO D. FELTER. To A. H. CHAISTIK, M. D., NEW-YORK.
