Proscription! Proscription!!

THE above is at this day by far the most general cry throughout our land. Scatce any one exerges its ofnum. Even Gen. Taylor, that great and good man, is trequently accused of it. He, however, as often denies the charge as it is made, and boldly asserts that the "removes for cause only."

The Subscribers have quite recently got out a NEW STOVE on the elevated oven principle, which they call the KEYSTONE COOKING STOVE. Sand Sibys is o decided an improvement on all and every Stove heretofore Made (having o many good qualities otherware void of) that those engaged in the manufacture of a much inferior article have taken the sharm, and at once raise the cry of proceiption, and expect by this to eccape a general rome. Such cry, however is a useless waste of the raw material. The edict has been issued—community claim the right to select the heatstoveout! Hence the Keystone Stove must supercede and remove all others, including Sement's Patent. The verdict, however, will be, "Removed for cause only?" so we stand in a position similar to General Taylor, and as he is justified so shall we be.

A good assortment of other COOKING STOVES, including the celebrated Carpenter Stove, as well as the Genere Painer and Clinton. Air-tight Cook Stoves, Air-tight Parlor and Box Stoves—ulsa Cauldom and Sugar kettles of different sizes constantly on hail. In fact no better assortment of CASTINGS can be found elsewhere.

It is a fact that the tremendous inroad that was made upon the afore mentioned branch of my business last summer, by the tolbery, somewhat discouraaged me, and I was for a while in a straight whether or no to launch into that trade. After pondering on the subject a good while—fortunate, happy communiy—I came to the determination to resume it. Consider for a moment what your rimation would have been had I determined otherwise. One or two stores would have been had I determined otherwise. One or two stores would have been had I determined otherwise. One or two stores would have been had I determined otherwise. One or two stores would have been had been flourished about your cars to draw attention, and any and every means resorted to obtain motoricy. This would of course have been all perfectly tight. All the the thunder, singke and dust that can be evoked will amount to nothing, as this community are too enlightened to be deceived by such non-sense—they care nothing about names and fections, but resort to the places where rich and fashiomable goods are kept and sold at reasonable prices! MIBSISSIPPI RIVER.

St. Lours, Missouri, February 22d, 1849.

DR. W. B. Sloan—are: About two years ago, while rafting on the Mississippi river, in passing over the rapide, I was plunged in the water, and by the rait dashed against a reck, crushing my leg and otherwise seriously injuring use, so much that I lost all sensibility. When consciousness returned I found myself ig St. Lours, surrounded by my weeping family. Good naving and medical nid, enabled me in about two months to hobble around with the assistance of a crute. The wounds only partially healed, leaving large running sores at the knee, which for many months discharged blood and matter of the most offensite denarcter. My pains were inexpressable, at times my suffering was so great that death would have received a hearty welcome. Forunately Mr. Wilson, (one of my neighbors) advised me to try your Ointment, I obtained a box and applied it according to direction—the coreston began to assume a healthy appearance, and in three months I was entirely cured, and able to endure that labor. Your Old't. Servant, mighbors of H. W. Thomas, were acquainted with the case above stated and, knowing the circumstances, most cheerfully confirm said Thomas' statement.

Du Buque, Iowa, March, 15th, 1649.

MR. W. B. Sloan—Dear sir. Last February 1eth, near Mount
Mortis, Illinois, I had a horse wounded in the stifle joint,
so deep that the joint water issued freely, many good judges of
horses gave it as their opinion that the horse would never recover!
I applied your Ointment freely and often, and notwithstanding,
the animal could searcely hear any weight on the diseased leg,
yet in concequence of pressing business. I contract to start with
the horse on my return to Du Buque, a distance of some 100 miles,
just at the breaking up of streams, through which I was obliged to
ford and expose the leg and wound of the horse to frequent dreachings of water, snow and deep mud, still the horse continued to
improve. One 50 cent box of your extraordinary olument entirety cured the horse in less than 20 days. Yours, truly,
