Correspondence of the Eric Observer.

NEAR DURANGO, Feb. 1, 1849. On leaving the place from which my last was dated, the road ascends for a full league; after which, with much labor among the rocks, and torturing itself into a hundred serpentine folds to avoid "aroyos," it emerges into as beautiful a region as eye could rest upon. Narrow valleys and high mountains are behind us; and vast grassy plains, like the monster waves of a subsiding sea, covered with the grape and the palm, are before us .-The road is generally smooth and hard as cemont. Immense herds are feeding about us—the water is excellent, and the show, an account of which I will give you only ranches and hardeng give token of a more plantial in my next. The road is generally smooth and hard as cement. Imand ranches and hacionadas give token of a more plentiul region. This timberless region continued until we arrived at hacienda "Chora," about fifteen miles back.

In the proprietor of this place we discovered that great rarity in Mexico, a gentleman with an intelligent, wellbred family. We have a very faint recollection of casting two or three (meant to be) very loving glances, at a very beautiful sister-in-law of the Dones, and feeling our vanity cut on finding it "no go." The riddle was solved when looking into our pocket mirror, ah! bless you, the sun had made terrible inroads on our heautythere was a great scab on the end of our proboscis, and "darkness covered the face thereof." For the benefit of those interested. I will give as this gentleman's name Sig. Don Hardname Thunderbank.

Leaving Chora we entered a grove of very fine timber. the first that could be called such, since Walnut Springs were passed. It is a most delightful grove and I believe, together with the place it belongs to, is know as the "Labore do Gaudeloope." Small parties were going and coming with marketing-occasionally a carriage would dash by-and other indications were observable that we were approaching a city.

.We met one carriage escorted by a detachment of lancers, whose yellow facings and dancing plumes contrasted beautifully with the dark green foliage of the trees .-My trimmed lazy don looked curiously on us, and discovoring we were Yankees vouchsafed a very respectful nod. This forest has some reputation for robbers. We are about ninety miles from Cuncume, and nine from Durango. From Durango to Mazatlan, a Pacificiport, by the nearest traveled route (and that must be on mules) is called 250 miles. I find it very difficult to get a correct idea of distances on this route. The natives generally can give but a poor idea of it, but by some little calculation and a good deat of guessing, I make it less than nine hundred miles from the mouth of the Rio Grande to Mazitlan. From there it is said that at this season of the year vessels can reach San Francisco, Alta California, in four or five days, but are much longer. returning. The route is not capable of supporting large parties, nor is there any necessity of more than six persons traveling in company. I make these remarks for the benefit of California emigrants, a number of whom are now on this same track. The general course from the gulf is South of Westward.

Durango, February 12, 1849. Emerging form the wood through which we had been traveling, at the same time rou iding the point of a mountain, the turrets and domes of Durango burst upon our view, now a league distant. Like most towns in this | country, the avenues to it are lined with miser.ble mudhovely of sun dried brick, half in ruins, built in huddles and hedged about with the magay or other plant. I have only found the magay in the mountain regions. We wound our way through these until we arrived at the garnias, or custom house outpost; a building a little more presuming in its appearance than its fellows, with the government arms over the door; two or three droves of Cherry, which we publish, is strictly true. We give names and

Here we were halted, our papers examined, and we sold anything on the route, &c. Whilst here we heard once attains that high reputation which it so rightly deserves .eggs, ;and then lovy the duties on them; at the same time he would be in danger of robbery three miles from the city. A man from the establishment was detailed who took charge of our papers and wagons, and we started for the custom house proper. The streets through which we passed looked quite clean, the houses comfortable, the shops bright, and I began to give the place credit for being an improvement on the rest of Mexico, when all at once, in one of their little passes, we stumbled on a colony of as miserable looking set of humans, hving in the dirtiest little thatched huts I ever saw. They were wood or coal vendors, I don't remember which.

The custom house is situated near the centre of the city, and is quite a fine building, as well as those in its age. vicinity. Our arrival here made something of a stir; a hundred dirty fellows crowded around to stere at us, and numerous very official looking gentlemen passed about as if they really had something to do. This ordeal passed, that is to say, when it was discovered from the correctness of our papers that there was no chance of confiscating our property, we were allowed, by giving secu rity for the payment of the consumption duties, to go our way in peace. Passing up a street or two we put up at the "Meson de San Francisco," a sort of place where one can get a room furnished after the style of soldier's barracks, a stall for your animals, and which answers in this country for a tavern. Here you can be furnished with edibles, or you may feed at a resterant, ("Fonda") but supposing you to be expert in the culinary art, you may attend market, alip inte a store hard by your quartors, buy you three cents worth of wood, and are at perfect liberty to cook your own supper.

The latter course I find is pursued by most of the people who come about here. We tried our hosts table and were just picking teeth over the first meal (a very rough one by the way) when we were quite bluntly dunned for the pay, and by way of that especial courtesy paid to foreigners, charged double price. After this, one very naturally concludes that the credit system is not in vogue here, and moreover, that even in the smallest matter you must make your bargain beforehand or rnu a great risk of being cheated.

There may however be another reason for the dan, whon I fell you that scarce a family, even of the most opulent in the cities, have two days' provision in their larders at a time, and three fourths of the people buy from meal to meal. I dislike very much to say that the disposition to cheat is universal, yet I have seen no exceptions to it-you must agree upon the price, see the article weighed or measured, and then look sharp or you are robbed forcibly. The day following our entrance into the city, Sunday, the 4th inst., was big with matters for our curiosity. At an early hour our door was besieged by numerous persons asking in the name of the patron saintess "Del Signoreta de Gaudeloope" and of God, for but one "claco," a copper coin about the value of a cent and a half. Not thinking the demand extertionary, we thought to give a specimen of Yankoo liberality, and shelled out pretty freely to the first two dozen beggars, but finding them coming thicker and faster, we endeavored to make some distinctions, and consequently sent some away minus their "claco." But we were not to get off so easily; the story of our coming I think had got wind, and they came, three and four at the door at a time, importuning us by all sorts of means. One fellow presented a little wax saint ready caged, in order to move our heart and purso strings simultaneously-the onset was vigerous, but we managed by a proffer to purchase rage and all, to send the fellow away, very much shocked at our infidelity. This run was kept up until about ten o'clock, when hearing music in the streets we closed the bank and sought other amusements, wondering where so many poor devils could come from. After passing into the street, turning a corner or two, we overhauled the band and procession. It consisted of some dozen performers, followed by a priest who preceded another wax. baint, caged and decorated as usual, and borne upon the ensulders of a couple of men, the rear being brought up thy a heterogeneous concourse of some three hundred and fifty persons. All hats were off, and as the procescion passed many kneeled upon the pavement and muttered a prayer.

This I believe was nothing more than another specu-

crackers were discharged in front of the procession and from among the crowd; and finally I believe the mummy was deposited in the church where they keep the Holy Ghost! Two or three of the churches struck me, as being very imposing in appearance, and of the half doz-en bells in the cupelo of each of them, I do not believe I ever he ard anything of the kind so musical. There is a fine convent in the city, one or two colleges, the students of which are known in the streets by a kind of uniform: of which are known in the streets by a kind of uniform; there is also a hospital. About two o'clock in the afternoon another dust was kicked up in the streets—it was the bull-fighters parading for public gaze. They were escented by those same musicians that waited upen the saint, and followed by an immense concourse of loafers. The performers were bespangled off and feathered in high style; moreover cortain mimic Camanches were wheepin my next.

CIRCULAR. THEBUFFALOREPUBLIC.

The undersigned, citizens of Buffalo and the county of Eric, in-rite the attention of business, then and others, who may wish a good solitical, commercial, and family newspaper to the Burgalo Re-UBLIC, a daily-tri-weekly, and weekly journal published in the

city of Buffalo.

Buffalo is so peculiarly the center of commercial transactions that its Press must, from its position, take a high stand. The present proprietor of the Republic, Ed. A. Mannan, has established it, upon a perminent basis, and the undersigned believe that his through knowledge of newspaper publication, ample means, and enterprise, warrant the conclusion that it will be equal to our importance as a commercial city.

The Republic advocates radical democratic measures, and has accounted high republication that its paramount.

acquired a high reputation throughout the state: but the paramount design as we understand it. Is to make it attractive to the general reader, by the publication of the lintest intelligence, foreign, local and commerciallnews. The arrangements for obtaining the earliest market items and general commercial news, will be extensive, and equal to that of any other foural. We, therefore, cherefully commend the BUTFALO REFUSEL to the favor and patronage of the public at large.

Proscription! Proscription!!

THE above is at this day by far the most general cry throughout our land. Scarce any one escapes its odium. Even Gen. Taylor, that great and good man, is frequently accused of it. He, however, as often denies the charge as it is made, and boldly assetts that he "removes for cause only." however, as often denies the charge as it is made, and boldly arserts that he "removes for cause only,"
The Subscribers have quite recently got out a NEW STOVE on the elevated oven principle, which they call the KEYSTONE COOKING STOVE. Said Stove is so decided an improvement on all and every Stove heretofore made (having so many good qualities others are void of) that those engaged in the manufacture of a much inferior article have taken the alarm, and at once raise the ery of proceiption, and expect by this to escape a general route. Such cry, however is a useless waste of the raw material. The edict has been issued—community claim the right to select the best Stove out: Hence the Keystone Stove must supercede and remove all others, including Scunett's Patent. The verdict, however, will be, "Removed for cause only," so we stand in a position similar to General Taylor, and as he is justified so shall we be.

A good assortment of other COOKING STOVES, including the elebrated Carpenter Stove, as well as the Genesee Farmer and Clinton Air-tight Cook Stoves. THE impression is abroad that I have, or am about to abandon the fancy Goods and Silk Trade. It is a fact that the tremendous inroad that was made upon the afore mentioned branch of my business last summer, by the rolkery, somewhat discouranged me, and I was for a while in a straight whether or no to launch into that trade. After pondering on the subject a good while—fortunate, happy communi y—I came to the determination to resume it. Consider for a moment what your situation would have monopolized the Lusiness. To accomplish which end, Empire Block, Keystone Block, or some other high sounding name, would have been flourished about your ears to draw attention, and any and every means resorted to obtain notoriety. This would of course have been all perfectly right. All the the thunder, smoke and dust that sent accompliant. would have been flourished about your ears to draw attention, and any and every means resorted to obtain notoriety. This would of course have been all perfectly right. All the the thunder, smoke and dust that can be evoked will amount to nothing, as this community are too enlightened to be deceived by such nonsense—they care nothing about names and locations, but resort to the places where rich and fashionable goods are kept and sold at reasonable prices. Whatever may have been the consequences, in pursuance of the above determination, in my late visit to the cities of New York and Philadelphia, I purchased a very large quantity of the richest and most fashionable Dress Goods in market, including a great variety of the newest styles of Dress Bilks. It is my intention hereafter to keep on hand the largest variety of Fancy Goods in town, and my past transactions I trust are a guaranty that prices will meet with the favor of my patrons, who are respectfully invited to call at the Commercial Fachange, where I am now receiving my new Spring and Summer Goods.

CONSUMPTION CURED.

CANCHALAGUA:

Coughs, Colds, Influenza, Asthma, Bronchitis, Spitting of Blood, and all other Lung Complaints tending to CONSUMPTION

This medicine is just what it is declared to be above. A remedy for the complete care of all those affections of the Turoat and Lungs, which if neglected, always end in Consumerrow. It is not a worthless, catch-peany article, made just to still, like many of the common nostrums of the day, but is a strictly scientife Preparation—the original recipe having been furnished by an eminent Physician, (the late Prof. Rogers.) and that still further improved by one of the present proprietors, who is himself a regularly-educated Physician, a graduate of the University of Pennsylvania.—It is ecomposed of the choicets articles in the vegetable kingdom, most of them of long-tried value and established reputation, and some of them entirely seep, particularly the Cancralacta, a plant of most wonderful medicinal virtues, lately introduced into this country from California. The Recipe has been shown to thousands of Physicians, who have universally approved it, and will be shown to any Physician who desires to see it, upon application either to the Proprietors or their Agents. I that been used in multitudes of cases, and is strongly recommended by Physicians, even Professors in our Medical Colleges, Ministers of Gospel. Judges, Lawyers, Merchants, Mechanics, &c.—a conclusive proof that there is no guackery or deception about it, but that it is a medicine of most uncommon virtue and efficacy.

As no ordinary-sizel advertisement can begin to do justice to the merits of this article, the Proprietors have embodied in a pamphict form, the Aistory of this Medicine—the description, as terre, &c., of its principal ingedients—the effect they are designed to have upon the human system—and above all, the incalculable amount of good which it has done. They design to circulate this pamphict extensively; but should any one be overlooked, they are cure one, gratis it will well well repay a perusal. The Aunts on page to the most of the control of the pamphict is will well repay a perusal. The Aunts on page to the one of the pamphict and the pa

To Dr. A Rogers' Syrup of Liverwort. The and Canchatagua has proved itself to be the most extraordisary medical said in curing that usually fatal disease Consumption. But, it should be remembered, this medicine is as efficacious and valuable in the incident stages, such as Coughs, Colds, Hoarseness, &., before the Lungs are so far gone that ulceration has taken place. It is seldom, if ever, known to fail in breaking up the most obstinate and distressing Congh or Cold, in a few hours' time, if the directions are strictly followed. The genuine, which makes so many seomderful cures, is for sale at Curter & Brother and Burtin & Perkins, Erie Pa.

STRONG TESTIMONY.

STRONG TESTIMONY.

GIT "The columns of the Press throughout the country seem to be so filled with notices of cures and specifies for all diseases, 'flesh is heir to,' that one hardly knows what to do in ease of disease, for fear that in using one medicine, another and better may be overlooked. But from the remarkane cares, and the high order and vast amount of testimony lately brought under our personal notice of the entraordinary efficacy of Dr. Rogers' Syrup of Liver-work, Tar, and Carchaladda, we are compelled to regard the evidence of our senses, and confidently state, that for Congle and Colds, and that hydra-headed monster, Covaunerrow, we think the above preparation a safe, speedy, and certain cure. To all our friends we say, TRY IT; and if it does not help you, nothing else will." DEATH FROM A SLIGHT COLD!

DEATH FROM A SLIGHT COI.D!

The projecting those salutary precautions which common sense dictates, many, very many, fail victims to their prudence. We have seen the young brids blooming like a bird of faradise—the fair of flower hope, the pride of her faither, and the loy of her mother—her cheek flushed with anticipation, and her eye beaming with the soft expression of love—the gay dreams of life dancing before her fancy, with the rich and variegated tints of the rainbow's hue. We have seen all this changed—aye, the trading garmens for a strond, and the bridal chamber for the sepulcher of the dead, and all this by neglecting a "common cold."—Kow, before it is too late, use Dr. Rogers' Syrne of Liveswort, Tan, and Carcinalauva, which gives immediate relief, as thousands of our most intelligent and wealthy families are ready and willing fo testify.

Messrs. Sanford & Park—Gents: This is to certify, that my wife Nancy Dohoney has been in a declining state of health for the last two years. Her disease baffled the skill of the best medical aid i could procure—her physicians pronounced her disease "Consumption in the last stage," and said that her recovery was past all human hopes. As a last resort with very little hope, I procured Wistar's Balsam of Wild Cherry. After using a few bottles, I found to my agre able supprise, that her health was improving rapidly. She is now so far restored as to be able to attend to her regular bousehold duties without suffering any inconvenience. Her rapid improvement and present health warrant me in the belief that she will soon be entirely restored.

Norwalk, March 1st. 1849.

John D. Park.—Dear Sir—Having been afflicted with the Liver Complaint for about eight years, while living in Elysia, in this State, I had become so low and emaciated, that I was obliged to giveup my business entirely to my brother, and was advised to travel and try what benefit it would have on me. I started, and was gone from home about four months, but experienced ho relief whatever, and was finally advised by some of my friends to try Wistar's Balsam of Wild Cherry, which I commenced using.—

To my own surprise, and after using two bottles, I was completely restored to health and continued up to this day without any symptoms of the old domplaint, or any sickness of any other kind. I send you this that you may make use it as you deen fit, knowing as I do, that the Balsam had saved my life when all other remedies had failed.
