We regret to learn that Capt. RICHARDS, of the Keystone State, died yesterday morning, [Friday] at 3 o'clock, in Chicago. Capt. R. had been sick for some days of fever. He was a young man of enterprise and energy, and universally respected throughout the entire lake region.

A MISTAKE .- Our friend HUTTER, of the Easton Argus, calls Erio the "jumping off place." This is a mistake-Eric is not the "jumping off place," and if our cotemporary will visit us, we'll endeavor to convince him that, instead of being as he represents, it is a jumping on place. Tell a man to "keep cool" under such circumstances, and you hak him to beat old father Job, and give him six in the game!

We are pleased to learn from the Fredonia Censor that the survey of the Buffalo and State Line railroad has commenced, and is being presecuted with energy and skill. The chief Engineer is Mr. Wallace, lately of the Attica and Buffalo road, whose energy, skill, and capacity is highly spoken of by the Buffalo papers.

The company is to consist of 30—the capital stock \$15,000—to be deposited with J. H. Williams on or before the 15th of August. Two meetings have been held, and the prelimmary steps taken. Success to the enterprise.

This Townsend is no doctor, and never was; but was formerly a worker on raifronds, candis, and the like. Yet he assumes the title of Dr., for the purmarkably healthy. Gettino Spunky.—Some of our Harborcreek friends are getting spunky, and are determined that the Railroad shall not pass through that town just where the Engineers please to locate it. They held a moeting recently, and passed the following resolutions:

THE HALP HAS NOT BEEN TULLS.

Fox River, June 12, 1848.

DR. Sloan—sir: Please send by the bearer a new supply of your Horse Medicines. They are the best articles of the kind that I have ever used, never having been disappointed in their effect, as I have been in the use of other, even the most celeptated Ointmonts, Liniments, &c., of the day. I like very much this feature in them viz: that they do all that is promise, and upon a thorough trial one is constrained to add, that "half has not been told.

Respectfully, M. DUDLEY. THE HALF HAS NOT BEEN TOLD.

THE DIFFERENCE. HE ordinary of numerics and flutments it is well known, are severe and partial in their operation. Sloan's Omment is mild yet thorough—it reaches and removes the cause, hence it gives real and permanent relief.

Mr. Shaan—sir. I have tested the virtue of your Ointment in the Injuries, and in every case it has surpassed our expectations. As a family Ointment, I have never seen its equal, and for beasts we can't get along without it.

Mr. Sloan—Bear sir: For a considerble length of time I was seriously afflicted with the Rheumatic complaint, and applied freely the various liminents, pain-killers, &c., without orianning any relief. After which your Agent at this place influenced me to try your Olintment, and within two weeks from the time. I commenced using it, the pain ceaved, and I was effectually cured, and shall recommend all who are similarly affliced with the distressing complaint, to procure your excellent one ment with our delay. But upue, low a, March, 15th, 1849.

M. R. W. B. Sloan—Dear sir. Last February 18th, near Mount for that the joint water issued freely, many good judges of horses gave it as their opinion that the horse would never recover. I applied your Omitment freely and often, and now ithistanding, the animal could searcely hear any weight on the diseased legityet in consequence of pressing business. I ventured to start with the horse on my return to but buque, a distance of some 100 miles, just at the breaking up of streams, through which I was obliged to sord and expose the leg and wound of the horse to frequent denchings of water, snow and deep mud, still the horse consinued to improve. One 31 cent boy of your extraordinary of utment entires to cured the horse in less than 20 days. Yours, truly.
