

Foreign News by the Niagara.

ONE WEEK LATER FROM EUROPE.

GENERAL SUMMARY.—The Niagara experienced a succession of heavy gales from the west, south-west, during the whole passage. Her freight list shows \$2,000,000 in specie.

The Niagara, as we learn from one of the officers, exchanged signals with a large steamer, supposed to be the Europa, off Holyhead, at midnight on the 30th ult.

The cities of Liverpool and Havre are to be connected by a line of great class steamers under the direction of Mr. McIver, agent of the Cunard steamers.

In Parliament the bill for the removal of the Jewish disabilities has been rejected in the Upper House by a majority of 25, ministers not venturing to call for the proxies.

The House of Commons has affirmed the second reading of the marriage bill, to render void marriages with the sisters of deceased wife.

The Affirmation Bill, which recently completed its passage through the Commons, has been rejected in the Lords by a large majority.

The French Assembly, on foreign affairs, the Ministers declared that there was no danger of war; Mr. De Tocqueville said that after having more carefully considered the subject, he had been unable to discover the slightest trace of that new Holy Alliance of which honorable members had expressed such jealousy.

In the course of his speech Mr. De Tocqueville talked of the frankness of the Russian Government, an expression that was received with shouts of decision and laughter.

During the debate, Gen. Cavaignac made a most important speech, which may be considered as the resume of the principles of that section of the Republican party, which while it desires peace, is prepared for war.

The new law against clubs has been already put in force.

On Monday the Ministry introduced into the Legislative Assembly a bill for regulating the press.—M. Odillon Barrot stated that it was intended merely as a temporary measure, to regulate the position of the press until the organic law on the subject should be passed.

The new law is nearly the same as the law of Louis Philippe, and power is given to the temporary suppression of every journal attacking the constitution or making an appeal to arms.

The number of persons arrested at Lyons in consequence of the attempted insurrection amounted to more than 200.

DEFEAT AND SLAUGHTER OF THE GUERRILLA TROOPS.

By the arrival at New Orleans on the 2nd inst., of the Mexican schooner Felice, Capt. Hernandez, four days from Sisal, the Piriguero received El Boletin, official of Madrid, to the 18th ult.

The Boletin of the 16th contains an account of a sanguinary battle between the Yucateco troops and the Indians which took place at the distance of a league from the town of Tixte, and in which the former were routed with great slaughter.

It appears by the report of the commanding officer, Col. Don Jose Dolores Basos, that for want of provisions he was obliged to evacuate Tixte with his detachment, consisting of 335 men, which was effected on the morning of the 11th.

When distant one league from that town, he was intercepted by an overwhelming force of Indians, who attacked him with the greatest fury. After standing their ground until a large number were slain, the Yucatecos fled, leaving all their baggage, ammunition, &c., in the hands of their foes.

Of the whole detachment only 187 with their colonel escaped. They managed to reach Sabun, carrying off only two officers and some soldiers of the wounded. On the 13th, however, one hundred more of the fugitives, with two sub-lieutenants, made their appearance at Sacalaca.

There were 73 head of cattle, and all the horses and baggage of the officers captured.

The Indians were still closely besieging Tixte, so no other record of events is made in these papers.

A REMARKABLE CASE.—Most of our readers will doubtless remember an account of a shocking murder, which appeared in our columns a few weeks ago, and has been repeatedly mentioned in the county of Putnam.

Mr. David Ross, a very wealthy and prominent citizen of that county, was returning from his factory on the Ogeechee river, to his family residence, about half a mile or three quarters distant, at nine o'clock on a dark night.

While passing through the swamp on foot and alone, he was shot dead with a double barreled gun, in the hands of some person unknown to him. The charges took effect in the head, and the other in the breast.

The assassin stood as near as to burf his victim with the powder. The Coroner's Jury, after a patient and laborious investigation, rendered a verdict, charging a son of Mr. Ross with the murder.

ITEMS OF NEWS.

NEW YORK, July 16—7 P. M.

The disease in this city is carrying off many of our most respectable citizens. Among them we notice James Reuben, an extensive and much esteemed cotton merchant in Wall street.

Additional Foreign News.—A Telegraph Dispatch to the New York Courier contains nothing very definite as to Rome or Hungary.

The late victory of the Austrians over the Hungarians was much exaggerated. The Hungarians having crossed the Wang, evidently made a violent attack on the Imperialist position, and penetrated into the centre.

After a battle of three days with two Imperialist armies, the Hungarians retreated to their former position, but not without having in their onset done great damage to the Imperialist corps.

The Austrian Republicans have published a denunciation of the Austrian Consul-General, Gen. Hayman, in which the military chief states that the inhabitants of the borough of Borchstrang having aided and abetted the Hungarian insurgents in their attack upon the Brigade of Gen. Wyes, he, Gen. Hayman, had ordered their town to be burned and annihilated.

Constantinople.—The Porte has refused to comply with the imperative demand of Russia for a detachment of 30,000 troops through Servia.

Rome.—The latest intelligence from Rome states that the French Government had received a telegraphic dispatch announcing that the French had occupied Mt. Ovic, which gives the command of part of the city.
