WM. M. WOOD.

MR. GAMBLE'S NOMINATION .- The nomination of Mr. Gamble is hailed with enthusiasm by the entire Democratic press of the state, so far as our knowledge extends. We have not you seen a word of complaint. Even the Harrisburgh Keystone, Edited by Jesso Miller, who was known to be bitterly hostile to his nomination, now that known to be bitterly hostile to his nomination, now that the de does done, unfairs the banner with an aleity worthy of itsolf. This is oninous of success—it shows that the Domocracy of the Keystone will show to the enomy an unbroken front, and obtain an overwhelming victory in October. We notice that the resolutions of the state Convention, also, meet with that universal approbation from the party to which they'are so eminently entitled. And this approbation is not alone confined to this state—the Democratic papers of Ohio are republishing them as a model for the Democracy of that young giant of the west. Hand in hand the Democracy of Pennsylvania and Ohio are struggling for constitutional and political reforms, and hand in hand they will march to victory at the coming election.

I.T. In the opinion of the Gazette, the resolutions of the State Couvention "mean something or mean nothing, just as motives of 'policy' may seem to dictate," in and ro "characteristically vague and indefinite." If this is correct, they are then one alread of those adopted at the Chinese Museum, when Gen. Taylor was nominated.

Gone.—Mr Kamphausen, the young gentleman who proposed publishing a German paper in this city lactly, left last week for Europe with the intention of joining the Hungarian patriots now fighting for laborty. May success attend him.

I.T. Our quiet old friend of the Chronicle says ho was arone tware of the near approach of dog-days wild!" he obtained a copy of our last paper. We tkink it very probable—he would'nt know when it was time to get up or go to be d, if some body didn't tell him.

THE number and formidable character of diseases originating in a diseased state of the liver, has long challenged the attention of medical men. Some of these diseases, classed under the general term of consumption have been supposed incurable, and the unhappy patient was allowed to die, without medica; science being enabled to offer him a hope of recovery. Happily this can no longer be the case. A remedy has been found which will cure all these complaints, of whatever character, arising from derangement of the liver. The Pills discovered by Dr. Milane, of Virginia, act directly on the liver, and by correcting its operation and purifying it from disease, cuts off and extirpates the complaints which have their origin in the diseases of this organ.

Remedies hitherto proposed for these diseases have failed to op-accurate the condition throughout the state; but the paramount of the results advocates radical democratic measures, and has acquired a high reputation throughout the state; but the paramount Remedies hitherto proposed for these diseases have failed to operate upon the seat of the disease; but Doctor M'Lane's Pills make themselves felt upon the action of the liver, and by cleansing the fountain dry up the impure streams of disease which thence de-

NOTICE TO THE PUBLIC

LET EYERY ONE READ THIS CAREFULLY. THERE is a Sarsaparilla for sale called old Dr. Jacob Towns-end's Sarsaparilla. It is advertised as the original, &c. This is a notorious falsehood. Dr. Townsend has expended over \$300,-This Ratsaparilla. It is advertised as the original, &c. This is a notorious falschood. Dr. Townsend has expended over \$300,000 the last eight years in advertising his Barsaparilla. United States obtained a character and reputation throughout the United States and a greater part of the world—the sale being enormous. This excited the cupidity of certain unprincipled men, and an old man who was engaged in peddling cheap publications about the streets of New York, for a number of years. This man's name its Jacob Townsend. He applied to a number of men to get employment, or to sell the use of his name, to put up Dr. Townsend's Sarsaparilla, stating the large sales and sums we had expended in advertising, as an inducement to embark into the business. Among others, he applied to Charles Watrous, Esq. Editor of the Jamaica Farmer, who scorned such a proposition. Mr. H. Q. ANDREWS, formerly one of the proprietors of MicAlliser's Ointment, RALPH FOMEROY, formerly Cashier and Financier of the broken Shin-Plaster Bank at Bellville, New Jersey, 1001 SKILLMAN, and WILLIAM THOMPSON, under the name of THOMPSON, SKILLMAN & Co., have employed this old man, and agreed, we understand, to pay him seven dollars a week for the use of his name. These men have been insulting and libeling us in all possible forms, in hopes we would notice them, and bring them and their deception into market. Let the public decide upon the course of these kontel and honorable men.

ONE OF THEIR TRICKS.

They say that Dr. Townsend's Sarsaparilla sours and ferments—this is false; as we have kept it through the whole year in New Oricaus, Texas, Mexico, South America and the West Indies—in fact the older it grows the better it becomes. We made a few bottles by mistake, inst Spring, that spoiled. This we regretted, and exchanged as soon as possible; such an accident will never occur again. This they attempt to make a great story of, and say that the whole of our Sarsaparilla sours accident will never occur again. This they attempt to make a great story of, a

Dr. Townsend no Physician.

These men also publish that Dr. Townsend is no physician: this ike all other statements, are false. Dr. Townsend attended two of the best Medical Schools in the country, has studied the different theories of medicine and practiced for the last lifteen years; anexperimented several years, and expended large sums in bringing his medicines to perfection.

This old Jacob Townsend, They are endeavoring to palus off on the public as an old physician, &c. He is no physician, and never attempted to manufacture a medicine until these men bired him for the use of his name. They say they do not wish the people to believe that their Saraparilla is ours, or the same—but the better to deceive the public, they at the same time assert that theirs is the old Dr. Townsend's, and the original; and endeavor to make the people believe that the stuff they transufacture is the Dr. Townsend's Sarsaparilla that has performed so many wonderful cures for the past ten years, and which has gained a reputation which no other medicine ever enjoyed—which is a base, viliamous, unprincipled falsehod. We have commenced suits against these tens for damages. We wish a to be understood, that the old man is no connection of Dr. Townsend whatever. In their advertisements and circulars they publish a number of gross falsehoods respecting Dr. Townsend, which we will not notice.

FALSE REPORTS.

will not notice.

FALSE REPORTS.

Our opponents have published in the papers, that Dr. S. P. Townsend was dead—this they send to their agents about the country, who report that we have given up business, &c., &c. The public should be on their guard, and not be deceived by these unprincipled men.

We have at our manufactory all machinery that is required to make the very best me licine from the Sarsaparilla that was ever produced. We have powerful seem engines to grind out and extract the root. We also have extensive vars for settling and filting. &c., such as were never before used in the preparation of any medicine. No other manufacturer of Sarsaparilla has steam power to manufacture by.

CAUTION EXTRA

A man by the name of CLAPP has engaged with a young man of the name of S. P. Townsend, and uses his name to put up a Sarsaparilla, which they call Dr. Townsend's Sarsaparilla, denominating it GENVINE, Original, ect. This Townsend is no doctor, and never war, but was formerly a worker on railroads, canals, and the like. Yet he assumes the title of Dr., for the purpose of gaining credit for what he is not. This is to caution the public not to be deceived, and purchase none but the GENVINE ORIGINAL OLD Dr. Jacob Townsend's Sarsaparilla, having on it the Old Dr's. likeness, his family coat of arms, and his signature across the coat of arms.

Principal Office, 102 Nassau st., New York City.

OLD DR. JACOB TOWNBEND.

THE ORIGINAL DISCOVERER OF THE Gannino Townsend Sarsaparilla.

Gamino Townsond Sarsaparilla.

Old Dr. Townsond is now about 70 years of age, and has long been known as the AUTHER and DISCOPERER of the GENUSE ORIGINAL—TOWNSEND SARSAPARILLA? Heing poet, he was compelled to limit the manufacture, by which means it have been kept but of market, and the sales circumscrited to those only who had proved its worth, and known its value. It had been healed of sore idiscuses, and saved from death, proclaimed its excellence and wonderful.

Knowing, many gears age, that he had, by his skill, science and experience, devised an article which would be funciable advantage to mankind when the means would be furnished to bring it into unpoversal profice, when its enestimable withces would be known and appreciated. This time has come, the means are supplied; this GRAND AND UNEQUALLED PREPARATION is manufactured on the largest scale, and is called for throughout

is manufactured on the largest scale, and is called for throughout the length and bredth of the land, especially as it is found incapais manufactured on the largest scale, and is called for throughout the leagth and heeful of the land, especially as it is found incapable of degeneration or deterioration.

Unlike young S. P. Townsend's, it improves with ege, and never changes, but for the better: locause it is prepared on scientific principles by a scientific man. The highest knowledge of Chemistry, and the latest discoveries of the art, have all been brought into requisition in the manufacture of the Old Dr's. Sarsapanila. The Sarsaparila only the manufacture of the Old Dr's. Sarsapanila many medical projectics, and some properties which are inert or uscless, and others, which if retained in preparing it for use, produce fernentation and acid, whe has injurious to the system.—Some of the properties of Sarsaparila are so volatile, that they entirely evaporate and are lost in the preparation, if they are not preserved by a scientific process, known only to those experienced in its manufacture. Moreover, these volatile principles, which fly off in vapor, or as an exhalation, under livat, are the very essential medical priparties of the root, which give to it all its value. Any person can boil or stew the root till they get a dark cofored liquid, which is more from the coloring matter in the coot than from any thing cless, they can then strain this inslipt of vapid in quid, sweeten with sour in playses, and then call it "SARSAPAR-ILLALEXTRACT or SYRUP." But such is not the article known as the

as the GENUINE OLD DR. JACOR TOWNSEND'S SARSAPA-RILLA.

This is so prepared, that all the inert properties of the Sarsapa-rilla root are test removed, everything capable of becoming acid or of termentation, is extracted and relocat; then every particle of medical virtue is secured in a pure and concentrated form; and thus it is rendered meripable of bosing any of its vatuable and healing properties. Complaints tending to CONSUMPTION

READ! READ!!

This medicine is just what it is declared to be above. A remedy for the complete cure of all those infections of the Turora and Lunge, which if neglected, always end in Cosawarios. It is not a worthless, catch-peany article, made just to self, like many of the common nostrums of the day, but is a strictly taentife Preparation—the original recipe having been furnished by an emineat Physician, (the late Prof. Rogers,) and that still further improved by one of the present proprietors, who is himself a regularly-cducated Physician, a graduate of the University of Pennsylvania.—It is composed of the choicest articles in the vegetable kingdom, most of them of long treet value and established reputation, and some of them entirely new, particularly the Cancinatary, a plant of shost wonderful medicinal virtues, lately intuoduced into this country from California. The Recupe has been shown to thousands of Physicians, who have universally approved it, and will be shown to any Physician who desires to see it, upon application either to the Proprietors or their Agents. It has been used in matitudes of cases, and is strongly recommended by Physicians, even Professors in our Medical Colleges, Ministers of Gospel, Judges, Lawyers, Merchants, Mechanics, &c.—a conclusive proof that there is no quackery or deception about it, but that it is a medicine of most uncommon virtue and efficacy:

PAMPHLETS.

As no ordinary-size ladvertisement can be gin to do justice to the merits of this article, the Proprietors have embodiled in a pampliet form, the history of this Medicine—the discretished in the merits of this article, the Proprietors have embodiled in a pampliet form, the history of this Medicine—the discretished to have upon the human system—and above all the incatrabable amount of good which it has done. "It "The columns of the Press throughout the country seem to be so filled with notices of cures and specifies for all diseases, these is hear to, that one hirdly knows what to do in case of disease, for fair that in using one medicine, nother such better may be overlooked. But from the remarkable cures, and the high order be overlooked. But from the renarkable cures, and the linguistic and that amount of restimony lately brought under our personal notice of the extraordinary edicacy of Dr. Rogers' Syrup of Liverwork, Tar, and Canchalagua, we are compelled to regard the evidence of our sensea, and confidently state, that for Cougls and Colds, and that hydra-headed monster, Consumption, we think the above preparation a safe, speedy, and certain cure. To all our friends we say, TRY 1T; and if it does not help you, nothing the will."

DEATH FROM A SLIGHT COLD!

The By neglecting these salutary precentions which common wense dictates, many, erry moan, fall virtims to their prudence. We have seek the young bride blooming like a bird of paradise—the fair of flower hope, the pride of her father, and the joy of her mother—her check theshed with anticipation, and her eve beaming with the soft expression of love—the gay dreams of life dancing before her fancy, with the rich and variegated thus of the rainbow's hue. JEFFFRSON Co., In., Feb. 28, 1849. Messrs. Sanford & Park—Genty: This is to certify, that my wife Nancy Dohonoy has been in a declining state of health for the last two years. Her disease baffled the skill of the best medical nid I could procure—her physiciaus pronounced her disease "Consumption in the last stage," and said that her recovery, was past all human hopes. As a last resort with very little hope, I produced Wistar's Balsam of Wild Cherry. After using a few bottles, I found to my age cable surprise, that her health was improduced Wistar's Dalsam of Wild Cherry. After using a few bottles, I found to my age able surprise, that her health was improving rapidly. She is now so far rectored as to be able to artend to her regular household duties without suffering any inconvenience. Her rapid improvement and present health warrant me in the belief that she will soon be entirely restored.

The following communication has just been received from Mr. J. F. Wooster, Wholesale, Bruggist, Norwalk, Huron county, Otho. The afflicted will please read and judge for themselves.

John D. Park:—Dear Sir—Having been afflicted with the Liver Complaint for about eight years, while living in Elyria, in this state, I had become so low and emaciated, that I was obliged to give up my business entirely to my brother, and was advised to travel and try what benefit it would have on me. I started, and was gone from home about four months, but experienced no rehelf whatever, and was finally advised by some of my filends to try Wistart's Haisam of Wild Cherry, which I commenced using.—

To my own surprise, and after using two bottles, I was completely restored to leath and continued up to this day without any symptoms of the old complaint, or any slekness of any other kind. I send you this that you may make use it as you deem fit, knowing as I do, that the Baisam had saved my life when all other rehedues had failed.
