WHAT DOES TENNESSEE SAY!-Sufficient returns have been received from Tennessee to insure the election of Gen. Wn. TROUSDALE, the Democratic candidate for Governor, and a gain of three members of Congress.-The majority for Governor will be about 3000. We have also carried both branches of the Legislature. This is what Tennessee says! and itstrikes us it is sufficent to show that the Democratic party is not quite dissolved, as our whig friends have been endeavoring to prove. The Democracy of Tennessee had friends to reward and engmies to punish, and they have done it. The whigs of that state gave Gen. Taylor a pledge to support his administration, but the Democrate, imitating the example of that illustrious man, have caused them to break that pledgel Hurrah for Tonnessee, say we!

INDIANA .- The returns from this state indicate the election of Wright, democrat, for Governor; and LANE for Lieut. Governor. The returns also indicate no change in the Congressional delegation, although a union between the free-soilers and whigs in almost every Congressional district lead us to fear a loss.

NORTH CAROLINA .- We have probably a gain of one member of Congress in this state.

KENTUCKY .- From partial returns we are led to hope for the election of Lane, democrat, over Marshall, whig, in the Louisville district. This would be a gain.

TP NEW POLITICAL DICTIONARY .- The Boston Post is responsible for the following new political dictionary. Heretofore such a work was not necessary, but as "every thing goes by contraries," under the reign of the spurious "Washington," it is now highly useful.

DR. CHARLES GROOD,
Dear Sir—I have but three bottles left of your India Cholagogue, having sold admost a gross within the past few months, and have yet to hear of the first instance of its failing to cure. One man said he had within a year or two page pand more than \$50 for Fever and Ague medicine, which had done him no good—but that two fortles of the Cholagogue had acred him.

I know of a number of instances, when one bottle cured three or four persons who were severely afflicted with the same disease. ease.

These men also publish that Br. Townsend is no physician: this like all other statements, are falso. Dr. Townsend attended two of the best Medical Schools in the country, has studied the differ-

ent theories of medicine and practicist for the last lifteen years; has experimented several years, and expended large same in bring-ing his medicines to perfection. This old Jacob Townsend.

This old Jacob Townsend,

They are enleatoring to pain off on the public as an old physician, acc. He is no physician, and never attempted to manniacture a medicine until the atmoshired him for the use of his name. They say they do not wish the people to believe that their Sarsaparilla is ours, or the same—but the better to decrive the public, they at the same time assert that theirs is the old Dr. Townsendy, and the original; and endeavor to make the people believe that the stuff they in unifacture is the Dr. Townsend's Sarsaparilla that has perfected so may wonderful cures for the past ten years, and which has gained a reputation which in oother medicine ever enjoyed—which is a base, villatinous, impricipled falsehod. We have commenced shits against these men for damages. We wish it to be understied, that the old man is no connection of Dr. Townsend which the reflection of the transcribeneous and circulars they publish a number of gross falsehoods respecting Dr. Townseud, which we will not notice.

try, who report that we have given up busines, &c., &c., The public should be on their guard, and not be deceived by these unprincipled men.

OUR COURSE.

Reing satisfied by the experiments and the results of the medicine in eradicating disease, we resolved to place it before the world. At that time all of the Narsapartilas for sale was put up in small vials of four and five ounces, and sold for one dollar per lottle. We could afford to self a quart bottle of the purest and best article for the same. We resolved to do so and was laughed at and our Strapartila addled inolasses and water by the other mainfacturers, who said a good article could not be afforded for the price. A few years, and they learned the difference of this. Bir Townsend's Strapartila almost entirely superceded the others, being infinitely better, and five times the quantity for the same price. Of have these men have made a great discover, which is, that shey have been selling a smaller vial of medicine for one dolar, which they could allor for twenty of wenty-five cents. For these same men now put up their Sarsapartilas in Quarti-bottles, very nearly resembling ours, for the same price as they formerly sold the small ones, and ask the people to purchase. The people are not so green however. They have copied our labels, circulars, and shape of the bottles as near as they dare. Their course and ours we leave for a discerning public to act upon.

GREAT BISCOVERY.

the bottlee as near as they dare. Their course and ours we leave to for a discerning public to act upon.

OREAT DISCOVERY.

Dr. Townsend having to year-ginee discovered, a new formula of compounding the Satsaparslla with other ingredients, and succreded in producing a fluid that recembed in its action upon the digestive organs, the salva, or grastle juice of the human body.— A tiquad, when taken into the systems created new, rich, and pure blood—which would sustain, prolong, and create new life—for the blood is the life—tesolved, after three years of experiments, to bring it before the public. Singuine that it required only to be known to be appreclated, being thoroughly convinced that to cleanes, purify and sprengthen the circulation, was the great secret of cradicating disease. The conviction led to the discovery of Dr. Townsend's Compound of the Satsaparilla. Satisfied that by diminished, and that the true theory was to produce a healthy circulation. The theory having proved true, it is adopted wholly or in part, at p esent, by a large a mose of medical genutumen, and the true dies more effection! than we anticipated—hence the wonderful success of this medicine.

THE ROOT WE USE.

We use the best Honduras Sarsaparilla. The last year we purchased more than ten times the amount of Sarsaparilla of all other Sarsaparilla maintacturers in America.
