For the Removal and Permanent Cure of all NERVOUS DISEASES. those Complaints which are caused by an impaired, ed or unhealthy condition of the

NERVOUS SYSTEM. This beautiful and convenient application of the mysterious powers of GALVANISM and MAGNETISM, has been pronounced by distinguished physicians, both in Europe and the United States, to be the most valuable medicinal discovery of the Age. Dr. OHRISTIE'S GALVANIO BELT

which complaints arise from one simple cause, namely, A Derangement of the Nervous System. A Derangement of the Nervous System, 6.5- In NeIvOus CoMPLAINTS, Drugs and Medicines increase the disease, for they weaken the vital energies of the already prostrated system; while under the strengthen ing, life-giving, vitalizing influence of Galvanism, as applied by this beautiful and wonderful discovery, the exhausted patient and weakened sufferor is restored to forguer health, strength, elasticity and vigor. The great peculiarity and excellence of

Dr. Christie's Galvanic Curatives, consists, in the fact that they arrest and cure disease by outward application, in place of the usual mode of drugging and playsicking the patient, till exhausted Nature sinks hopelessly under the inflation.

They strengthen the whole system, equalize the circulation of the blood, promote the secretions, and never do the slightest injury under any circumstances. Since their introduction in the United States, only three years since, more than

including all ages, classes and conditions, among which were a large number of ladies, who are peculiarly subject to Nervous Complaints, have been ENTIRELY AND FERMANENTLY CURED, when all hope of relief had been given up, and every thing else been tired in vain! To illustrate the use of the GALVANIC BELT, suppose the case of a person addicted with that bane of civilization, To illustrate the use of the GALVANIC BELT, suppose the case of a person afflicted with that bane of civilization, DYSPEPSIA, of any other Chronic or Nervous Disorder. In ordinary cases, stimulants are taken, which, by their action on the nerves and muscles of the stomach, afford temporary relief, but which leave the patient in a lower state, and with injured faculties; after the action thus excited has ceased. Now compare this with the effect resulting from the application of the GALVANIC BELT. Take a Dyspeptic sufferer, even in the worse symptoms of an attack, and simply the the Belt around the body, using the Angnetic Fluid as directed. In schort period the insensible perspiration will act on the positive element of the Belt, thereby causing a Galvanic circulation which will puss on to the negative, and thence back again to the positive, thus keeping up a continuous Galvanic circulation throughout the system. Thus the most severe cases of DYSPEFSIA are IERMANENTLY CURED. A FEW DAYS IS OFTEN AMPLY SUFFICIENT TO ERADICATE THE DISEASE OF YLARS

No. 1.
The following letter is from Mr. Alonzo D. Felter, of Kingston, N. Y, a gentleman of high respectability and Kingston, Ulster Co., N. Y., Jan. 24, 1848

About the first of November last I called at your office and purchased one of your Galvanic Bolts, and I am happy to say that it has made a now man of me. For years I have been troubled with RHEUMATIEN, very severe, and a general week. ness of the whole system, and very nervous, with pain in the head, so severe that I would have to take to my bed three or four times a day. My friends are astonished at the perfect and wonderful cure wrought on me. I never was better in my life than now, and I know that this is altogether owing to your GALVANIC BELT, for I had had the best physicians, and had tried every thing previous to using it, without

end had tried every many effect.

Very respectfully, ALONZO D. FELTER.

GF- In consequence of the benefits experienced by himself.

Mr. Fritze produced a number of the GALVANIC BELTS, and having disposed of them among his friends, thus writes:

No. 2.

Kingsrön, May 6, 1845.

My Dear Doctor,

No. 2. Kingston, May 6, 1843.

My Dear Doctor,

You ask me to give you an account of the success of your GALVANIC BELTS in this region. I can truly say that they continue to do wonders; hundreds wear them, and I do not know of a solitary case of failure in their use I sold a Belt and the Megnetic Fluid to a lady here some weeks since. She had a complication of nervous disorder, and was very low. Dr. Nelson attended her, but did her no good; and the Dector blew out considerably when she got the belt, and ridiculed it; but the lady used the Belt and was cured. Now this Doctor had the Dysaperis for a great while, and could not cure himself, but gets this lady's Belt, wishes it kept a secret, puts it on himself, and it did him so much good, that yesterday he called on me and got one for his wife.

Miss Vandemars, of this town, lay all winter with the Rheumatism. She got to be perfectly helpless. Every one who saw her said she could not live. She sent for a GAL-VANIC BELT—put it on—used the Fluid freely, and in Eloit Days alls was of our visiting, and is to be marked the Belt; but now says there is certainly a remarkable curulive power in your Belts.

Mr. John Eman, merchant of this place, was reduced to a mero skeleton, by, Dysapenia and general chronic disease; he got a Belt and the Fluid, and is now as healthy a man, as we have got in Kingston. He has spent large sums of money in various nostrums previously, but they dil proved useless.

No. 6.

An old gentleman by the name of Newklitk, had the Dysapesia for this ty years. He tells me that he could not eat any thing without its rating on his stomach; he was very much emachated and looked miserable; but he purchased a Belt from me, and after wearing it 3 or 4 weeks, he drove up to the door and said he had come to thank me for selling him Cnustries Belt, as at had made a well man of him. He says that he now eats and digests perfectly, and that he is as hearty as any of his neighbors. He is about 60 years of age.

Mr. Wood, of Marbletown, was drawn

thing on earth. No. 7.

The wife of Mr. Joseph King, of Kingston, has been complaining of lassitude and goneral weakness for several years, and also troubled with indigestion. She got the Belt and Fluid, and Mr. King told me this day, that his wife was like amother woman, it had done her so much good. I could give you a great many more cases, equally successful, but I suppose these will be sufficient. I may say that I never was engaged in any burness that has been so fortunate and satisfactory to all concerned. Very truly yours, ALONZO D. FELTER.

Proscription! Proscription!!

THE above is at this day by far the most general cry throughout our land. Scarce any one escapes its othem. Even Gen. Taylor, that great and good man, is frequently accused of it. He, however, as often denies the charge as it is made, and boldly asserts that he "temoves for cause only."

The Subscribers have quite recently gorout a NEW STOVE on the elevated oven principle, which they call the KEYSTONE COOKING STOVE. Said Stove is so decided an improvement on all and every Stove heretofore made (that sing so many good qualities others are void of) that those engaged in the manufacture of a much inferior article have taken the alarm, and at once raise the cry of pro-cription, and expect by this to escape a general route. Such cry, however is a useless waste of the raw material. The edict has been issued—community claim the right to select the best stove out: Hence the Keystone Stove must supercede and ramove all others, including Sennetu's Patent. The verdict, however, will be, "Removed for cause only," so we stand in a position similar to General Taylor, and as he is lustifed so shall we be.

A good assortment of other COOKING STOVES, including the celebrated Carpenter Stove, as well as the Genere. Farmer and Clinton Air-tight Cook Stoves, Air-tight Parlor and Box Stoves—also Cauddron and Sugar kettles of different sizes constantly on hand. In fact no better assortment of CASTINGS can be found elsewhere.

COMMINISTICIAL. EXCHANGE.

French Street, Eric, Pa., April 17, 1840.

The impression is abroad that I have or am about to abaudon the Fancy Goods and Silk Trade. It is a fact that the tremendous inroad that was made upon the afore mentioned branch of my business last summer, by the robbery, somewhat discouraaged me, and I was for a while in a straight whether or no to launch into that trade. After pondering on the subject a good while—fortunare, happy communi y—I came to the determination to resume it. Consider for a moment what your situation would have been had I determined otherwise. One or two stores would have monopolized the lustiness. To accomplish which end, Empire Block, Keystone Block, or some other high sounding name, would have been flourished about your ears to draw attention, and any and every means recorted to obtain notoricty. This would of course have been all perfectly right. All the the thunder, smoke and dust that can be evoked will amount to nothing, as this community are too enlightened to be decived by such nonsense—they care nothing about names and locations, but resort to the places where rich and fashionable goods are kept and sold at reasonable prices. Whatever may have been the consequences, in pursuance of the above determination, in my late visit to the cities of New York and Philadelphia, I purchased a very large quantity of the richest and most fashionable Prices Goods in market, including a great variety of the newest styles of Dress Silks. It is my intention hereafter to keep on hand the largest variety of Fancy Goods in town, and my past transactions I trust are a guaranty that vices will meet with the tayor of my nations, where I am now receiving my new Spring and Summer Goods.
