WORMSI WORMSI-A great many learnal treatises have been written, explaining the origin of, and classify-reg the Worms generated in the human system. Scarce any topic I medical science has elicited more acute observation and profound research, and physicians are very much divided in opinior in the subject. It must be admitted, however, that after all, a node of expelling these worms and purifying the body from their presence, is of more value than the wisest disquisition as to the coson. The expelling agent has at length been found-and in offring to the public M'Lane's VERMIFLOE-the Proprietors are confident that it will only require to be used, to prove itself superatio any now in use.

LET EVERY ONE READ THIS CAREFULLY.

LET EVERY ONE READ THIS CAREFULLY. LET EVERY ONE READ THIS CAREFULLY. THERE is a Sarsaparilla for an cale called old Dr. Jacob Towns-is a notorious falsehood. Dr. Townsend has expended over 8500,-600 the last eight years in advertising his Sarsaparilla, which has obtained a character and reputation throughout the United Blates and a greater part of the world--the sale being commons. This excited the cupidity of certain unprincipled men, and an old man who wus engaged in pedding cheap publications about by the streets of Net York, for a number of years. This man's name ployment, or to sett the use of his name, to put up Dr. Townsend's Barsaparilla; stating the large sales and sums we had expended in advertising, as ab inducement to cutbark into the business. ## Dr. Townsend no Physician.

**DF.** Townsend no Physician. There me also publish that br. Townsend is no physician: this like all other statements, are false. Dr. Townsend attended two of the best Medical Schools in the country, has studied the differ-ent theories of medicine and practiced for the last fifteen years; has experimented reveral years, and expended large sams in bring-ing his medicines to perfection. They are endeavoring to pairs and expended large sams in bring-ing his incidence to perfection. They are endeavoring to pairs off on the public as an old physi-clan, &c. He is no physician, and never attempted to manufac-ture a medicine until these men hired hun for the use of his name. They say they do not wish the people to believe that their Barsapa-rilla is ours, or the same-but the better to deceive the public, they at the same time assert that theirs is the old Dr. Townsend's, and the original; and endeavor to marke the people believe that the stuff they manufacture is the Dr. Townsend's Barsaparilla that has per-formed so many wonderful cures for the past ten years, and which has gained a reputation which no other medicine ever enjoyed-which is a base, yillatious, unprincipled faibehod. We have commenced suits against there men for damages. We wish it to be understood, that the old man is no connection of Dr. Towns-end whatever. In their advertisements and circulare they publish a number of gross faibehoods respecting Dr. Townseud, which we will not notice. FALSE REPORTS.

Genuine Townsond Sarsaparilla. Old Dr. Townsend is now about 70 years of age, and has long here known as the AUTHER and DISCOVERER of the GEN-UNE ORIGINAL "TOWNSEND SARSAPARILLA." Being poor, he was compelled to limit its manufacture, by which means it has been kept out of market, and the sales circumscribed to those only who had proved its worth, and known its value. I had reached the cars of many, nevertheless, as those persons who had been healed of sore diseases, and saved from death, proclaimed the xedlence and wonderful. Towyscender, it improves with ege, and new-er changes, but for the better: becaure it is prepared on scientific principles by a scentific mas. The highest knowledge of Chem-istry, and the latest discoveries of the art, have all been brought into requisition in the manufacture of the Old Drs. Barsoparilla. The Barsoparilla root, it isygell knows to medical men, contains many medical properties, and some properties which are inert or useless, and others, which if retained in preparing if for use, pro-duce fermentation and acid, which is injurious to the system.— Some of the properties of Barsoparilla are so volatile, that they entirely evaporate and are load in the preparing if they are not preserved by a scientific process, known only to those experienced in its manufacture. Moreover, these relates principles, which it of in v por, or as an exhalation, under hest, are the very es-tentical evaporate and is to stew the root till they get a dark colored liquid, which is more from the coloring matter in the root till in the size they can be and the stew the root till they for a dark colored liquid, which is more from the coloring matter in the root till againe. Doctoring in Galena. MR. Stavs:-Dear Sir. About three years ago I was severely injured in one of my legs by the failing of a pile of wood which occasioned large running uteers. Nearly every doctor in Galena tried to cure them; but tried in vain, until from sympathy and improper treatment my other leg became as bad as the one originally wounded. I despared of ever being well again-but in order that I might neglect no means within my reach. I pur chased of your agent in Galena some of your Olimeni, and you can judge of my surprise and graitide better than I dan express it, to find myself entirely well before I had finished using the second box.
