The cholera is on the increase in England. HUNGARY .- The London Nows in speculating apon e cause and result of the downfall of Hungary says:--The general belief throughout the continent is, that the flungarian General aurrendered with his army to Passiewich, on a pledge being given by the Russian commander, that his master the Czar, would guarrantee the independence of Hungary. The latest intelligence contain nothing to raise a doubt that General Klapka shill held posession of Comorn, and one account affirms that in the 15th ult., an action was fought between Raab and Comorn, in which the Magyars obtained some advantage.

Gen. Haynau in his last bulletin reports that at the present moment all the Banat and all Transvivania are ileaced of the insurgents. The letter from Georgey to klapka directing the surrender of Comorn assigns no reason for the course other than he had become convincel of the hopelessness of their cause, and that he wished to give pence to his country as the only expedient to save it from utter perdition. A letter from Kossuth written before he know of the surrender of Georgey, is said on Austrian authority, to have been found which contyps a frank admission, that the Magyar cause was irretnevably lost. Since the capitulation of Arad 25000 had been taken prisoners, and 176 cannon captured.<sup>1</sup>

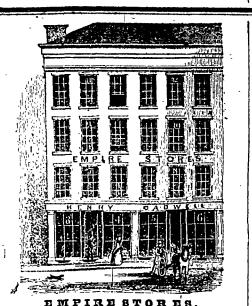

tien. Paskiewich had delivered over the chiefs of the rebellion, the former deputies of the Diet all prisoners and materials of war to the Austrian commander. A deputeb from Gen. Wallweden reached Timeswar on the loth August announced from Lugos that the Hun-Samu lender, Leazor, of the 9th corps had made propo-Fais of capitulation to Gen. Limbschen, who was in pursuit of him, stipulating for the free retreat of the officers open priole, on onthis to present themselves when sumr.encd. Gen Haynan, however, rejected these conditend and summoned Loazor to surrender at descretion, meanwhile the pursuit continued without relaxation .--Accounts from Pesth of the 21st, state that it was rumored that Kossuth had been captured on the frontier of Walfachia, other reports affirm that he had been seen passing through Lippa, another account still from Turkey assumes that Bem and Kossuth had arrived at Adriapple, where they embarked in an English ship.

Information was received in Paris on Wednesday that the Russians and Austrians had marched towards Switzerland with the view of closely watching the movements of revolutionary junto assembled at Genova, in which Ledru Rollin and Boichot are suspecting of taking a very conspecious part in the under circles of diaplomacy. The idea is said to have been revived of a new holy alliance for the maintenance of European peace, of which France ; is to be a prominent member.

Justr.-The Milan Gazette of the 21th announces important fact of the capitulan of Venice which took place on the 22d. The terms agreed upon were uncondmount and found strictly upon a proclimation of Field Mushall Cout Radetzky, issued by him on the 14th .--The siege though during its continuance formiable to the Ventuans was disastrous to the bestegers. The Austrian collects made out that their loss from cholera hud amounted to 20,000 men.

### NOTION TO THE PUBLIC RASCALITY AND DECEPTIO

GT All the Medicines advertised by W. D. Stoan are sold by CARTER & BROTHER, FAMILY OINTMENT.

RASCALITY AND DECEPTION, LET EVERY (NE READ THIS CAREFULLY. THERE is a Barsaparilla for sale called old Dr. Jacob Towns-I cond's Sursaparilla. It is advertised as the original & &:. This is a notorious falschool. Dr. Townsend has expended over 6300, 600 the last eight years in advertising his Barsaparilla, which has obtained a characteriand reputation throughout the United States and a greater part of the world--the sale being enormous. This excited the cupidity of certain unprincipled men, and an old man who wes engaged in pedding cheap publications about the streets of New York, for a number of years. This man's name is Jacob Townsend. He applied to a number of men to get em-ployment, or to self the use of this name, to put up Dr. Townsend's advertising, as an inducement to embork into the business. A mong others, he applied to Christe Wattows, Esq. Editor of the Jaunalea Farmer, who scorned such a proposition. Mr. H. 42. ANDREWS, formerly one of the propriotors of McAllister's Ont-ment, RALPH POMEROV, formerly Chshler and Pinancier of the broken Shin-Pister Bank at Bellville, New Jersey, JOHN SKILLMAN, and WHALAM THOMPSON, under the name of THOMPSON, SKILLMAN & O, have employed housdot man, and agreed, we understand, to pay him seven dollars a week for the use of his name. These men have been insulting and libeling the and their decortion into market. Let the public decide up-on the course of the koneet and homorable men. ONE OF THET TRICKS. They say that Dr. Townsend safe Armora in some rand forments -the to the koneet and homorable men. ONE OF THET TRICKS. They say that Dr. Townsend safe Armora the West Indies - in fet the older in grows the better it broome. We under the top does have not have heat it mongh the whole year in New Orleans, Texas, Methics, Sonth America and the West Indies - in fet the older in grows the better it broome. We unde a first hot-the share, hast Spring, that spoiled. This we regretted, and we change a soon a possible fouries of the possible FAMILLY OINTMENT. SLOAN'S ONTMENT is now universally acknowledged to be an infallible renedy, in every case where it has been fitthfal-ly applied on the human system, for promoting Insensible Prespi-ration, drawing out the inflammation from a wound, relieveing pain of every kind, and in its healing qualities the world dors not produce its equal, and the public pronounce if the cheapest and best Family Ontinnent that has ever been used. All diseases of the Flesh, Obstinate Ulcers, Old Nores, Childlains, Sore Throat, Borns Cuis, Cutancous Emploins, Nore Nipples, Nore Breats, Diseases of the Eye, Ague in the face, side, back, and the other parts of the system, Boils, Ulcers, Nead Head, Bruisse Fresh Wounds, and every kind of sore containing the least particle of inflammation, are permanently cured by this great remedy. These is inter, in we have kept it through the while year in New Orleans, Prevas, Merico, South America and the West Indies—in fact the older it grows the letter it becomes. We made if few hot-tices by mixtake, last Spring, that spoiled. This we regretted, and exchanged as soon as possible; such an accident will never occur again. This they attempt to unke a great story of, and say that the whole of our strangarilla sours, &c., when they are aware matthey are publishing fatischoods. ANOTHER TRICK. We went to an expense of five hundred dollars to get up a splen-dolated lengraving for our tabel, and had the portrait of Dr. Town-send on it to distinguish if from all others, and prevent mistakes. These men are now getting up a label on steel, with a portrait of old Jacob Townsend-let the public decide injohn such transactions, and let them requember that user is genuine and the regimal, fullers signed with the name of S. P. Townsend, The plate isengraved on steel and contains the portrait of Dr. Townsend, three female figures, and a view of our tactory. The splite isengraved Dr. Townsend no Physician.

Dr. Townsend no Physician. These men also publish that Dr. Townsend is no physician: this live all other statements, are falso. Dr. Townsend attended two of the best Medical Schools in the country, has studied the diffe-ent theories of medicine and practiced for the last fifteen years; has experimented several years, and expended large sams in bring-ing his medicines to perfection.

### This old Jacob Townsend,

This old Jacob Townsond, They are endeavoring to palm off on the public as an old physi-tram, &c. He is no physician, and never attempted to manuac-ture a medicine until these men bired him for the use of his name. They say they do not wish the people to believe that there. Farsapa-rine is not use same—but the better to decrive the public, they at the same time assert that theirs is the old Dr. Townsend's, and the original; and culcavor to make the people believe that the same they manufacture is the Dr. Townsend's Sarsaparilla that has per-formed so many wait defail or the safe the post ten years, and which has gained a reputation, which no other medicine ever enjoyed— which is a base, citalinous, unprincipled falschod. We have commenced suits against these men for damages. We wish at to be understood, that the is radvertisements and circulars they publish a number of gross falsehoods respecting Dr. Town-cud, which we will not notice. FALSE REPORTS. On his Hands and Knees. M. B. Stonu-Dear Sir: 1 hereby certify that my son Al-time he first begin to walk, the bottoms of which were covered with a hard dry skin full of cracks, cauring prin and much afthe-tion, many times he was obliged to go on his hands and knees, and no time has he been free from the core afflection until now. Bat-ting the skill of several physicians, but to our surprise his feet are now perfectly smooth soft and free from cracks, all from one soft as an experiment of his own, from hearing at recommended. Nothing more was thought of it for three weeks, at yhech times his-feet were near about in a healthy state, and are now the same na though they hever had been otherwise. Vours, &c., Nork, &c.

will not notice. Our opponents have published in the papers, that Dr. S. P. Townsend was dead—this they send to their agents about the coun-try, who report that we have given up business, &c. C. The public should be on their guard, and not be deceived by these un-bracented man.

COMPARED WITH THE OLD DR'S, because of one GRAND FACT, that the one is INCAPABLE of DETERIORATION, and NEVER SPOILS. while the other DOES *souring*, framenting, and blowing the bol-tlescontaining it into Lignments: the sour, acid humin exploding, and diamaging other goods! Must not this bortible compound/by portsonors to the system — *Bhall put acid into a system atready* diseased with acid? What course Dyspepsia but acid? Do we not all know that when food sours in our stomachs, what mis-chiefs it produces? diamlence, hearthwine, publication of the heart, two complaint, duarthe a, dysentery, colle, and corruption of the blood? What is Scrobid, but an and humor in the body? What produces all the humors which bring on Eruptions of the Show, seald thead, Salt Rheum, EryApelas, Whate Swellings, Pever Sores, and all decrations internal and external? It is nothing under heaven, but an an end substance, which sours, and thus spoils all the duids of the body, more or less. What causes Rheu-matism but a sour or acid thid which insinutes useff between the joints and elsewhere, itritating and infaming the delicate tis-sues upon which state? So of nervous diseases, of impurity of the blood, or derauged circulations, and meany all the alments which afflet human nature. . Now is into theright comake and sell, and *infaulted mores* to which afflet human nature. hich afflict human nature. Now is it not horrible to make and sell, and infinitely worse to

use this SOURING, FERMENTING, ACID "COMPOUND" OF S. P. TOWNSEND, and yethe would fain have a understood that Oil Dr. Jacob Townsend's *Genuine Original Sursaparulla*, is an IMITATION of his unertor preparation?

Heaven forbal that we should deal in an intricle which would bear the most dist in the combinere to S. P. Townsend's intrict, and which should bring down upon the Old Dr, such a mountain load of complaints and erminations from Agents who have sold, and purchasers who have used S. P. Townsend's FERMINITING C MPDUND. We wish in understood, because it is the absolute truth, that S. P. Town-send's article and Old Dr, Jacob Townsend's Karsaparil-la are heaven-ould apart, and infinitely descibility, that they are unlike in every particular, having not one single thing in com-uon.

The probability of the probabil render them the AGENTS of Disease instead of health. But what else should be expected from one who knows nothing comparatively of nucleicne or disease! It requires a person of some experience to cook and serve up even a common decem-meat. How much more important is it that the persons who nam-ufacture necherine, designed for Woalt Stomachs and Enfoobled Systems,

should know well the medical properties of plants, the best maner of securing and concentrating their healing virtues, also a extensive knowledge of the various diseases which affect the busiless of the second se
