which complaints arise from one simple cause, namely, A Derangement of the Nervous System.

60- In NERVOUS GOMPLAINTS, Drugs and Medicines increase the disease, for they weaken the vital energies of the already prostrated system; while under the strengthen-ing, life-giving, vitalizing influence of Galvansm, as applied by this beautiful and wonderful discovery, the exhausted patient and weakened sufferer is restored to former health, strength, elasticity and vigor.

The great peculiarity and excellence of

Dr. Ohristie's Galvanic Curatives, Dr. Onlistics & Galvanic Curraitves, consist, in the fact that they arrest and curo discase by out-ward application, in place of the usual mode of drugging and physicking the patient, till exhausted Nature sinks hope-leasily under the influcton. They strengthen the whole system, equalize the circulation of the blood, promote the storetions, and never do the slightest injury under any circumstances. Since their introduction in the United States, only three years since, more than

ENTIRELY AND FERMANENTLY CURED.

ENTRELY AND FEEMANENTLY CURED, when all hope of relief had been given up, and every thing else been tried in vain! To illustrato the use of the GALVANIC BELT, suppose the case of a person allicled with that bane of civilization, DYSEEFSIA, or any other Chronic or Nervous Disonler. In ordinary case, [stimulants are taken, which, by their action on the nerves and muscles of the stomach, nitrof temporary relief, but which leave the patient in a lower state, and with injured faculties; after the action thus excited has cased. Now compare this with the effect resulting from the applica-tion of the GALVANIC BELT. Take a Dyspeptiesuberer, even is the worse symptoms of an attack, and simply tue the Belt around the body, using the Magnetic Fluid as directed. In a short period the intensible perspiration will act on the positive element of the Belt, thereby causing a Galvanic circu-lation which will pass on to the negative, and thene back again to the positive, thus keeping up a continuous Galvanic circulation throughout the system. Thus the most source cases of DYSPESIA are TERMANENTLY CURED. A FEW DAYS IS OFTEN AMPLY SUFFICIENT TO ERADI-CATE THE DISEASE OF YEARS
