

**THE WARS OF FRANCE.**—In the course of the last century, France has been engaged in wars, the aggregate duration of which amounts to 330 years. Of these, 35 were years of civil war, 40 of religious war, 76 of war on the soil of France, and 179 foreign. Great and sanguinary battles 84.

In the 16th century there were 85 years of war; in the 17th, 69 years; in the 18th, 88 years,—making a total in those three centuries of 242 years of war to 83 of peace. Add to those the revolutions and wars of the present century, and you can wonder at the existing moral and political condition of the country!

**THE SCIENCE OF MINING.**—The mines of California have baffled all science, and rendered the application of philosophy entirely nugatory. Bone and sinew philosophy, with a sprinkling of good luck, can alone render success certain. We have met with many geologists and practical scientific men in the mines, and have invariably seen them beaten by unskilled men, and the like. The simple secret is, that gold has been produced almost continuously by volcanic power, and distributed along the sides of streams, and the river beds by mountain torrents, and it is the hard working and lucky man who may restore it.—*Placer Times.*

**A CURIOUS AFFAIR.**—A curious affair has just come to light, which has created no little talk and speculation in our community.

It appears that some six years ago Mr. Augustus Kennedy, a city collector, was charged with defalcation in the sum of \$30,000, and was subsequently dismissed from office for the supposed crime. He, however, did not go without protesting, and earnestly requested that the city authorities would examine the accounts.—The city authorities prevailed and the accounts were overhauled, but fortunately nothing came to light at all favorable to him, and he was consequently discharged, disgraced and ruined.

Yesterday, strange to say, an examination of an old book by Mr. J. B. Adams, \$10,000 was found marked as posted by Kennedy, which had not been posted, so that the city actually owes the discharged collector \$2,000 with interest, besides the restoring of a blighted reputation.

**FROM CANADA.**—The following from the Montreal Herald, shows that the scales are beginning to fall from the eyes of the people of Canada:

We believe that the idea of the Governor General being the protector of British interests, or of any interests, has become a delusion and a snare. We believe that his office is at present a sham, cheating the people of the province of the franchise of that tripartite constitution, which, thirty-two States, composed of the people of all the world, best acquainted with continental government, have seriously adopted. We believe it is something even worse than a sham; for it possesses just sufficient appearance of reality to induce expectations which cannot be realized, and will thus be the constant cause of turmoil and confusion. At a time that the people of Canada possessed institutions, which will not "keep the word of promise to the ear; but break it to the hope."

**RETURN FROM THE DISCOVERY.**—The Newburyport Herald states that a young man, named Byrd, belonging to the Newbury (Byfield parish) has just returned home from California, with sixty pounds of gold worth \$13,000. He came home for the purpose of seeing his gold safe, and receiving the congratulations of his friends, and returned immediately.

**REMARKS ON THE SEASON FOR COUGHS AND COLDS.**—It is now the season for coughs and colds, and the importance of guarding themselves against unnecessary exposures to the changes in the weather experienced in our climate at this time of the year. The introduction of Fall always brings with it a transitionary period of weather, and the sudden transition from heat to cold, from moist to dry, and from moisture, frequently imparts to the system the first characters of disease, and by the foundation of the numerous consumptive complaints to prevail among our people. It is the winter part of the season, the formation of those diseases, by a proper respect for the laws which govern our bodies; but when Coughs, colds, and other ailments, which are the result of a cold, are neglected, we should have recourse to that efficacious and desirable popular remedy for all diseases of the chest and lungs, Dr. WINTER'S BALSAM OF WILD CHERRY.

**PERIODICAL HEADACHE.**—So common in uncleanly habitations, and in the face of the season, is the complaint known as periodic headache, which is frequently accompanied by indigestion, and is the result of the same noxious influence.—Jambou, Peppermint and Diarrhea, are frequently but disguised forms of this disease. Even Rheumatism and Epilepsy, in some cases, may be the result of the same noxious influence. In such cases, Dr. WINTER'S BALSAM OF WILD CHERRY, is the only remedy which affords relief, and is the only remedy which affords relief, and is the only remedy which affords relief.

**A FINGER BITTEN ENTIRELY OFF.**—A lady writes that her son, aged 12 years, on Sept. 11, 48, while playing with a horse, he immediately applied your celebrated ointment which relieved his pain in a few minutes, and the wound healed rapidly. Respectfully yours, J. H. BURTON, Agent, Erie, Pa.

**ALL THE MEDICINES ADVERTISED BY W. B. SLOAN ARE SOLD BY** CARTER & BROTHER, No. 6, REED HOUSE, 212 N. BROADWAY, N. Y.

**THE MEDICINE CURED BY THE USE OF DR. WINTER'S BALSAM OF WILD CHERRY.**—Originating in a diseased state of the liver, it is often attended with emaciation by the urinary system, who in many cases, is relieved by the use of a remedy in the form of a salve, which will relieve all cases of the kind, and work a speedy and efficient cure.

**DR. OLIVER MORSE,** a distinguished physician of Virginia, with extensive practice with these pills in all cases of dyspepsia, and in all cases, has completed a certificate in which he testifies to the efficacy of the pills in the treatment of the disease. He writes: "I have used your pills in the treatment of the disease, and in all cases, has completed a certificate in which he testifies to the efficacy of the pills in the treatment of the disease. He writes: "I have used your pills in the treatment of the disease, and in all cases, has completed a certificate in which he testifies to the efficacy of the pills in the treatment of the disease."
