For the Removal and Permanent Cure of all NERVOUS DISEASES, And of those Complaints which are caused by an impaired weakened or unhealthy condition of the

NERVOUS SYSTEM. This beautiful and convenient application of the mysterious powers of GALVANISM and MAGNETISM, has been pro-nounced by distinguished physicians, both in Europe and the United States, to be the most valuable medicinal dis-Dr. CHRISTIE'S GALVANIC DELT

MAGNETIC FLUID,

is used with the most perfect and certain success in all GENERAL DEBILITY, Strengthening the weakened body, giving tone to the various organs, and invigorating the entire system. Also in FITS, CRAMP, PARALYSIS AND PALSY, Dyspepsia or Indigestion,

BPINAL COMPLAINT, and CURVATURE of the SPINE, HIP COMPLAINT, DISEASES of the KIDNEYS, DEFICIENCY. OF NERV-OUS AND PHYSICAL ENERGY,

and oll Nervous Diseases, which complaints arise from one simple cause, namely, A Derangement of the Nervous System. 6G- In NERVOUS COMPLAINTS, Drugs and Medicines increase the disease, for they weaken the vital energies of the already prostrated system; while under the strongthening, life-giving, vitalizing influence of Galvanism, as applied by this beautiful and wonderful discovery, the exhausted patient and weakened sufferer is restored, to former health, strength, elasticity and vigor.

The great peculiarity and excellence of Dr. Christio's Galvanio Curatives,

consists, in the fuct that they arrest and care disease by outward application, in place of the usual mode of drugging and physicking the patient, till exhausted Nature sinks hopelessly under the infliction.

They strengthen the whole system, equalize the circulation of the blood, promote the secretions, and never do the slightest injury under any circumstances. Since their introduction in the United States, only three years sunce, more than `60,000 Persons including all ages, classes and conditions, among which were a large number of ladics, who are peculiarly subject to Nerveus Complaints, have been

ENTIRELY AND PERMANENTLY CURED,
when all hope of relief had been given up, and overy thing
else been tried in van:
To illustrate the use of the GALVANIC BELT, suppose
the case of a person afflicted with that bane of civilization,
DYSPETSIA, or any other Chronic or Norvous Disorder. In
ordinary cases, stimulants are taken, which, by their action
on the nerves and muscles of the stomach, afford temporary
relief, but which leave the patient in a lower state, and with
injured faculties; after the action thus excited has ceased.
Now compare this with the effect resulting from the application of the GALVANIC BELT. Take a Dyspeptic sufferer,
even in the worse symptoms of an attack, and simply tie the
Belt around the body, using the Magnetic Fluid as directed.
In a short period the insensible perspiration will act on the
petitive element of the Belt, thereby causing a Galvanic circulation which will pass on to the negative, and thence back
sgain to the positive, thus keeping up a continuous Galvanic
circulation throughout the system. Thus the most severe
cases of DYSPEISIA are FERMANENTLY CURED. A
FEW DAYS IS OFTEN AMPLY SUFFICIENT TO ERADICATE THE DISEASE OF YEARS.

KINGSTON, Ulster Co., N. Y., Jan. 24, 1848
To Dr. A. H. Christer—
About the first of November last I called at your office and purchased one of your Calvonic Belts, and I um happy to say that it has made a new man of me. For years I have been troubled with Rheumarist, very severe, and hisgenreal weak seas of the ubble system, and very nervous, with pain in the head, so severe that I would have to take to my bed three or four times a day. My friends are astonished at the perfect and wonderful curbe wrought on me. I nover was better in my life than now, and I know that this is altogether owing to your GALVANIC BELT, for I had had the best physician, and had tried every thing previous to using it, without effect.

[Very Parpethally] ALONZO D. FELTER. Kingston, Ulster Co., N. Y., Jan. 24, 1848

Kingston, May 6, 1849. My Dean Doctor,

You ask me to give you an account of the success of your GALVANIC BELT'S in this region. I can truly ask that they continue to dy wonders, hundreds when them, and I do not know of a boilary kate of failure in their use. I sold a lielt and the Mignetic Fluid to a lady heir some weeks since. She had a complication of norvous disorders, and was very low. Dr. Nelton attended her, but did her no good; and the Doctor blew out consolved whom she got the belt and riliculed it sutthe lady used the Belt and was cured. Now this Doctor had the Dyspegsia for a great while and could not cure himself, but gets this lady's Belt, wishes it kept a secret, puts it on himself, and it did him so nuch good, that yestersay he called on me and got one for his wife.

Miss Vardenars, of this town, lay all winter with the Rheumatism. She got to be perfectly helpless. Every one who saw her said she could not live. She sent for a GALVANIC BELT—put it on—used the Fluid freely, and in secret weeks? The Doctor who attended Miss V., hooted at the Belt, but now says there is cortainly a remarkable curative power in your Belts. My DEAR DOCTOR,

the Belt, but now says there is certainly a remarkable curnitive power in your Belts.

No. 4.

Mr. John Eman, merchant of this place, was reduced to a mere skeleton, by Dyspopsia and general chronic disease; he got a Belt and the Fluid, and is now as healthy d man as we have got in Kingston. He has spent large sumfa of money in various nostrums previously, but they all proved useless.

No. 5.

An old gentleman by the name of Newkirk, had the Pyspepsia for thirty years. He tells me that he could not eat any thing without its rising on his stomach; he was very much emaciated and looked miserable; but he purchased a Belt from me, and after wearing it 3 or 4 weeks, he drove up to the door and said he had come to thank me for selling him Chuistris Brit, as it had made a well man of him. He says that he now eats and digests perfectly, and that he is as hearty as any of his neighbors. He is about 60 years of 25c.

Mr. Wood, of Marbletown, was drawn up with Cruup and Rheumatism, so that he could not move. His brother got select for him, and in one week he was so well that he was about attending to his business. He says it is the greatest thing on carth.

I could give you a great many more cases, equally successful, but I suppose these will be sufficient. I may say that I never was engaged in any business that has been so fortunate and satisfactory to all concerned.

ELIZABETH FOWN, N. J., June 23, 1849.

Dr. Charles Osagod,
Dear Sir:—I have but three bottles left of your India Cholagogue, having sold almost a gross within the past few months, and have yet to hear of the first instance of its falling to cure. One man sand he had within a year or two past paid more than \$50 for Fever and Ague medicine, which had done him no good—but that two bottles of the Cholagogue had cured him.

I know ofen number of instances, when one bottle cured three or four persons who were severely afflicted with the same discase.

Our most quainent Physicians now use it and recommend it, having become satisfied of its inestimable value, and that it is free from quackery.

Yours, respectfully,
A. W. MILLER.

Proscription! Proscription!!

THE above is at this day by far the most general cry throughout our land. Searce any one escapes its odium. Even Gen. Taylor, that great and good man, is frequently accused of it. He, however, a soften dehies the charge as it is made, and boldly asserts that he "removes for cause only."

The Subscribers have quite recently got out a NEW STOVE on the elevated oven principle, which they call the KEYSTONE COOKING STOVE. Said Stove is so decided an improvement on all and every Stove heretofore made (having so many good qualities others are void of) that those engaged in the manufacture of a much inferior article have taken the nlarm, and at once rare the cry of proscription, and expect by this to escape a general route. Such cry, however is a useless waste of the raw material. The effect has been is-sued—community, claim the right to select the best Stove out! Hence the Kerstone Stove must supercede and remove all others, including Semicit's Patent. The verdict, however, will be, "Removed for cause only" so, we stand in a position similar to General Taylor, and as he is justified so shall we be.

A good assortment of other COOKING STOVES, including the celebrated Carpenter Stove, as well as the Geneeve Farmer and Proscription! Proscription!! A good a sortment of other GIORKING STOVES, including the celebrated Carpenter Stove, as well as the Geneeve Farmer and Clinton Air-tight Cook Stoves. Air-tight Parker and Box Stoves—also Cauldron and Sugar kettles of different sizes constantly on hand. In fact no better assortment of CASTINGS can be found elsewhere.

The attention of the public is also called to M'Millen's Improved PLOW—a new article, with east-iron beam, manufactured by us and warranted.

CONTINUERCUAN. FROMANGY.

French Street, Eric, Pa., April 17, 1819.

THE impression is abroad that I have, or am about to abathdon the Paincy Goods and Silk Trade. It is a fact that the tremendous inroad that was made upon the afore mentioned branch of my business last summer, by the robbery, somewhat discouraged me, and hwas for a while in a straight whether or no to launch into that trade. After pondering on the subject a good while—fortunate, happy combonity—I came to the determination to resume it. Consider for a moment what your situation would have been land I determined discretizes. To accomplish which end, Empire Block, Keystobe Block, or some other high sounding name, would have been flourished about your ears to draw attention, and cany and every means resorted to obtain notoriety. This would of course have been all perfectly right. All the the thunder, smoke and dist that can be evoked will amount to nothing, as this community are too enlightened to be deceived by such nonsense—they care nothing about names and locations, but treort to the places where rich and fashionable goods are kept and sold at reasonable prices. Whatever may have been the consequences, in pursuance of the above determination, in my late visit to the cities of New York and Philadelphia, I purchased a very large quantity of the richest and most fashionable Dress Goods in market, including a great variety of the newest styles of Dress Silks. It is my intention hereafter to keep on hand the largest variety of Fancy Goods in town, and my past transactions I trust are a guaranty that prices will need with the ray of of my patrons, who are respectfully invited to call at the Commercial Exchange, where I am now receiving my new Spring and Summer Goods.
