"KEEP HIM DOWN."-The author of the following wo stages of the diseases it is so eminently calculated to all eviate. dont know, but whoover he is, or was, he has most admirably shown up, in a few words, the too prevalent fash-

ion among all classes, and in all communities, of decrying the talent, acquirements, and even virtues of these they may happen to have known all their lives. How ofien do we hear the chilling exclamation, "We have often do we hear the chilling exclamation, "We have known him ever since ho was a boy,"--"what merit can there be in such a young stripling-such a beard-Dr. Osgood's India Cholagogue an invariable and absolute preless boy,"-while some stranger, with not half the talent.

but more brass and impudence, is the caressed and courted recipiant of their most choice favors. It is the way of the world; but to our extract:

KEEP HIM DOWN .- Aye, keep him down. What busincas has a poor man to attempt to rise, --without a name-without friends--without hour able blood in his veins? We have known him ever since he was a boywaknew his father before him, and he was but a mechanic-and what merit can there be in the young stripling? Such is the cry of the world, when a man of sterling character attempts to break away from the cords poverty and ignorance and rise to a position of truth and honor. The multitude are excited by envy-they can-

not endure to be outstripped by those who grew up with them or their children side by side, and hence the oppothis feeling, many noble minds have risen from obscuri-

ty and lived down their opponents; hat others have yield-ed to discouragements—lived in obscurity, and "died and made no sign." Let it not be thus with you, young man. Persevere-mount up and you will yet startle the

HARMOSIOUS WHIGERY .- The recent whig convention of the state of New York, refused to pass a resolution complimentary to Mr Vice President, Fillmore, such an one having been voted down in Committee. Upon this marked insult from the Seward side of the House, a Fillmore man took a public occasion to declare to the chairman of the committee that he "thanked God the honored name of MILLARD FILLMORE was not to be polluted by the endorsement of such a body of men."" From this we infer that the war of the "roses" in the Empire state is progressing finely. We trust they will be as successfal in cating each other up as the Democracy have been.

GREAT FIRE OWEGO .- We learn from the New York Commercial that a very destructive fire broke out in Owego, N. Y. on Thursday morning, which destroyed the whole business part of the town, embracing between 70 and 80 buildings, and covering a loss of property amounting to at least 300,000. It broke out in Front street.— All the buildings on main street are a heap of ruins, and which is the street are a heap of ruins, and the buildings on main street are a heap of ruins, and the buildings on main street are a heap of ruins, and the buildings on main street are a heap of ruins, and the buildings on main street are a heap of ruins, and the buildings on main street are a heap of ruins, and the buildings on main street are a heap of ruins, and the buildings on main street are a heap of ruins, and the buildings on main street are a heap of ruins, and the buildings on main street are a heap of ruins, and the buildings on main street are a heap of ruins, and the buildings on main street are a heap of ruins, and the buildings on main street are a heap of ruins, and the buildings on main street are a heap of ruins, and the buildings on main street are a heap of ruins, and the buildings on main street are a heap of ruins, and the buildings on main street are a heap of ruins, and the buildings of the on Lake street as far down as the Central Hotel The bridge over the Susquehanns is also burned.

IMPORTANT, VERY .- The New York Tribune, says "Amid the chaos of opinions now prevailing in the in-tellectual and political world, it is the aim of the Tribune to be a reconciler of conservatism with progress."

Upon this the Boston Post, doclares that we shall have no more hurrical.es, deluges, earthquakes, indeed order will spring from chaos, if the New York Daily Tribune, printed at the corner of Spruce and Nassau streets, will only consent to act as "reconciler" among the elements above, the carth below, and human beings generally .-Great is Greeley!

Gen. Taylor's administration, which the whigs told us was to keep the country clear of all those dangerous controversies which Gen. Cass, they said, would surely have plunged it into, had he been chosen president, has now on hand differences with Spain, England, France, Morocco, and the Seminoles, while its partizans are talking about forcing open the ports of Japan.

PLENTY OF THEM .- The territorial courts of Minesota have just been opened. Twenty attorneys were admitted to practice, which certainly will be thought a sufficlent number for a population of not more than 5,000.

IF""Heroic Age" of the Union says that the question now before the regency at Washington is weather it is better to have a few foreign wars, and be a peaco administration, or have peace with the world, and be generally known as a war "grocery." When the "seven wise men in buckram" came to a determination, we presume we shall have a "proclamation" for fasting and · f-faser.

A RUINED COENTRY .- While the legislative poculators, says the Union, calling themselves "protectionists," are contriving to figure out the conclusion that the country has been mined by the tariff of 1846, the banks of Besten have contrived to figure a considerable amount of

cash into the pockets of their stockholders. It appears by the last statement of the semi-numual dividends that

The Balsam of Wild Cherry never fails to give relief, and cures after every other means have been tried in vain. This has been proved in thousands of instances, where it has effected radical cures, after the patient has been given up by all his friends and physicians. . Erdee advertisement

07 In St. Louis, lately, a Mrs. Cannon was fined \$10 for whipping her husband, which sho paid with a smiling look, saying, sotto roce, "Nover mind the money, 1 won't I have it out of his bones; well, if I don't, you can kill me."

MR. EDITOR :-- I am informed that all the funds of the Erie Agricultural Society were distributed in premiums to the farming portion of community, and that the mechanical portion was almost wholly neglected. Is this a fact? Can it be that the officers in charge at the late fair have been guilty of such an outrage, and so much mjustice? If so, I, as one of the latter class would with all due deference advise an immediate separation from any thing conducted in that manner, and would recommend indiou thereof, the establishment of an American Institute, as the only alternative for us.

Mrs with TAILS .- A scientifie report recently made to the Academy of Science at Paris, contains an account of the Ghilance inhabiting the interior of Africa, who are said to be possessed of a tail-like appendage, formed by the clonegation of the vertebral colump. The slave merchants cannot dispose of them without great difficul-13. 10 bad is their reputation. The traits which distinguish them are hideous ugliness of face and figure, ungovernable tempers, and stolid intellect. The author of the report seems to have adopted the Monboddo theory, supported by a curious work entitled the "Vestiges of ^{AU}I ported by a curious work entitled the "Vostiges of Creation." that the human race were but a higher type of the byte creation, and gets these Ghilanes down as the last link in the human race. No Yankee will credit Compliance fractionable clothes. Noise other than good me-K. Compliance fractionable clot the last link in the human race. No Yankee will credit this report, when he remembers that " Barnum" is alive, and would have surely got hold of one of these beings, for exhibition, if they had been in existence.
